**President's Letter**

On the road again... oh Willie Nelson, your singin' our song. TCMAFC members were on the road again, and we traveled to St. Michael's Lutheran Church in Roseville, for the first official Business Meeting at our new location on September 17. Thank you to all those in attendance, your insight and comments help the Board to make decisions on behalf of the membership, keeping our club in great financial shape, and guiding our club into the future. If you are interested in becoming a part of the conversation, you have my personal invitation to get on the road, drive on over, and join the conversation.

Speaking of 'On the Road Again', Miss Daisy and I have been on the road again, and again, and again, and we're gettin' pretty fond of one another. We're seein' things we may never see again, and we can't wait to get on the road again. However, she is in need of an oil change, so I have to figure that out. So, so thankful for the Mechanics Sheet, ok, let's call it what it really is, the Ultimate Cheat Sheet, and I am thankful that it was printed in the August Newsletter, and I hope you are, too. For those of you getting ready for the GREAT Northern Tour, please put that Cheat Sheet to good use. I expect to see grease and oil on that paper, as well as all the appropriate places ON the car itself. If you perform the necessary maintenance, you will be singin' my revision all the way to Hayward - The life I love is drivin' my A with my friends, And I can't wait to get on the road again.

And, we have the Barnacle's currently on the road again. Safe travels to you both. We can't wait to hear about the things you may never see again, and I want to see your soiled Cheat Sheet :) Did you know that you are following in the footsteps of Thomas Edison & Henry Ford, who are being dubbed the Original American Road Trippers? "The Vagabonds: The Story of Henry Ford and Thomas Edison's Ten-Year Road Trip," was written by Jeff Guinn, and the book takes a deep dive into the lives of a pair of men who made invaluable contributions to American life. During their decade (1914-1924) of joy and wonder, the Vagabonds traveled from the Everglades to the Adirondacks, and from the Catskills to the Smoky Mountains. During this time, ninety percent of the roads in America were "wish-to-God" roads, as in... you wish to God you weren't driving over mud and sharp rocks. And here come the two most famous men in America, along with their famous friends. They go on these trips for the fun of it, and they enjoy one another's company. Their road trips make them the very first Americans who are prominently using cars to get out and see the country. In 1924, Rand McNally came out with the first national road map, throwing gasoline on the fire of the average American's dream to get behind the wheel and take a trip. Thank you, Steve and Leah, for inspiring our members to drive their Model As... not only 5 miles from their homes, a Summer Tour perhaps, a parade, or what about across the country, with confidence no less. I dub you our very own Vagabonds.

I understand that your trips are your own, you travel for your pleasure, and at the same time, whether or know it or not, you are inspiring others just as Edison and Ford did 'once upon a time' not so long ago, and as the book suggests, people would wonder," Where will they go next?" We want to BE on the road again. Your invaluable contributions to the club are priceless, you have ignited a fire within many to get behind the wheel and get on the road again with their friend Rand McNally. Our hope is that your country roads are paved and smooth.

Soon our roads will not be look paved, and they may not be smooth. If your livin' around these parts, the roads will be changin', and so will the temperature. We do live in MinneSNOWta, we experience four seasons, and soon our time on the road again will have to wait until Spring. If you are not really familiar with the protocol to winterize your Model A, please join us at the October Clinic, as our Clinicians will be discussing what it is that we need to be mindful of prior to those little white flakes falling from the sky.

Just can't wait to get on the road again  
 The life I love is drivin' my 'A' with my friends  
 And I can't wait to get on the road again  
 On the road again  
 Goin' places that I've never been  
 Seein' things that I may never see again,  
 And I can't wait to get on the road again.  
 ~ Original lyrics by Willie Nelson, remix by Catherine Jammer ~

Gettin' on the road again, before it's too late,  
 Catherine

## ***HISTORY OF THE BURMA - SHAVE SIGNS***

BURMA - SHAVE (the product) arguably remains one of America's fondest-remembered products from the 1930's through the 1950's. Minneapolis lawyer Robert Ransom Odell was the founder of the Minnesota based BURMA - VITA COMPANY the manufacturer of liniment and later the brushless shaving cream known as BURMA SHAVE. The company was in tough financial shape in 1925 when the Odell's tried roadside advertising. Before the ground froze in 1926 a set of two signs were dug in alongside two roads leading out of Minneapolis on Minnesota Highway 65 to Albert Lea and Minnesota Highway 61 to Red Wing. By 1927 these first crude signs began to work. Also in late 1927 Henry Ford unveiled the "NEW FORD", the Ford "Model A". For a period of time, "the rest is history" for both companies.

By 1963 things had changed and the Burma - Vita Company was sold to Philip Morris. Philip Morris later discontinued all rights to the iconic signs. Some figures say that by the 1960's 700 different jingles on 40,000 signs had adorned the United States highways. For the Ford "Model A" it has been estimated that over 200,000 are today still in driving condition world wide but production of the "Model A" actually ceased in 1931.

AND SAY, THE NASTIEST THINGS, IN THE NICEST WAY, IS TO DO DIPLOMACY

IF YOU PASS , ON THE YELLOW LINE, HOPE THE FUNERAL'S, YOURS, NOT MINE

SLEEP IN A CHAIR, NOTHING TO LOSE, BUT A NAP, AT THE WHEEL, IS A PERMANENT SNOOZE

## BURMA - SHAVE

Vince Smith the son of a barber, has a special place in his heart for this unique American advertising. Vince has hand painted each of the signs and built the stands which he likes to display along side his car at various gatherings

## Apple Day

A very long standing tradition has been the attendance and display of Model A's at this Fall festival on the shore of Lake Minnetonka in the city of Excelsior. Once again an enthusiastic group came out and despite the look of a very dark and overcast sky we had a bunch of cars to show off. This year we set up in a different lot that Dave Peterson borrowed for the day and it was the best place we've had. Dave worked hard by arriving early and preparing the space with a canopy in case of bad weather and laid out a parking arraignment that worked really well. We attracted a large number of interested people and young children with many questions and smiles on thier faces as they got to get up close and personal with our cars and friendly members.

**Dave Peterson and Bob Nelson made a pick up truck load of new friends**

## Mens Clinic

This season we started our clinics at a new location. A large well lit parking lot with easy access to the meeting room along with comfortable chairs and quality audio visual aids will make our clinics much more comfortable for those gathered. We started the evening with a bit of socializing and members brought items for a bucket swap. Our presenters were Darel and LaVerna Leipold. Our historian couple gave a presentation on the Ford family though the generations illustrating the family tree and filling us in on the marriages of some of the Fords to other prominent families. We learned who moved into the family business and the levels of involvement and achievements that the family members left as a legacy. The start of the company had it's trials and tribulations, the founder was brilliant and had a vision. Mr. Ford accomplished many things bigger than anyone had ever dreamed of. The Rouge Ford plant, high wage rates, unprecedented engineering , manufacturing efforts to help win World War II. With those visions and accomplishment he did not always relate well to his family and found it difficult to work with his son Edsel and was sometimes head strong and dictator like to those who worked for him. All families are complicated and this one is no exception. The Leipold's pulled back the curtain for us and we all learned some interesting things.

**For those who didn't make the clinic, please come to the next one and see just what a great new home we are able to use and present interesting content and gather to socialize**

We are holding a contest for all members to submit their favorites photos of this year's Model A activities. We will allow up to three photo submissions per member. Total of Six per family. Winners will be chosen and prizes will be awarded.
