**Totals: 24 court locations with 110 courts, 106 with lights, and 17 locations with backboards.**

**PUSH BUTTON -** Lights do not come on unless a participant activates the lights. The lights stay on for approx. 1 hour. At that time a buzzer sounds and the participant must push the button again for the lights to stay on. They go out automatically if the button is not pushed. (At some sites the system is set so that only 2 or 4 courts are activated at a time). If the lights go out, it will take 15 minutes to restart.

**TIMER -** The lights are controlled by a timer that turns the lights on between dusk and 10pm.

**MANUAL -** Paid Staff turns the lights on and off.
