Jeanne will contact Kenn at Liberty to find out where they are at in their process.

3. Craig Turner: came in to inquire why a Select Person was at his home this morning. He was advised that it was in regard to him missing the deadline on his back taxes. Craig stated that he had not seen the notice sent in May 'because his kid must have opened the mail.' Craig was given a new set of documents. He then challenged the veracity of the lien on file at the Registry of Deeds. Terry explained to him that the amount listed is for a fixed date. Since interest accrues every day the actual amount is fluid. Craig then agreed that the filing was correct. He reiterated that he has a buyer for his property and wants this matter resolved. He stated that he would take care of the 2016 to present taxes within two weeks. The Board agreed to the extended deadline.
4. Ambulance Letter: the Board has received feedback regarding the letter - both positive and negative. The Board agrees that Liberty Ambulance needs to provide more and better details before next Town meeting.
5. Safety Issues: Cathy reported that John York has requested a meeting between the Board, the CEO, the Public Health Officer and the Fire Department regarding areas of responsibility for dwellings which are presenting significant safety and/or health issues. The Board agreed to the meeting when it is scheduled.
6. Roads: Jeanne conveyed that Steve had spoken with Wellman Paving and they have agreed to drop the Morrill Road from the contract without penalizing the Town. Steve re-installed a stop sign on the Halldale Road and the limbing will be done tomorrow. Steve has instructed Richard Peavey to stop grading the main roads until we get some moisture in them. Steve had to spread a pallet's worth of calcium on the Choate Road and the Trotting Park Road to mitigate the dust. The Board will meet with Steve next week to draw up a plan for the remaining road budget. The Board also discussed the feasibility of purchasing the Caterpillar grader that Steve has for sale.

7. No Spray Ordinance: Cathy submitted her last draft to MDOT and is waiting for their reply.
8. Transfer Station: Bob P. is still researching grass trimmers. The Board voted to order two signs from Vistaprint which will read "Montville Transfer Station / Residents Only".

11. GA training: Jeanne spoke with the Board about General Assistance and suggested that it would be good if she were able to give them some basic training in the event that she is not available. The Board agreed to the training but no date was set.
12. Clerk & Treasurer: the Board will begin meeting with the Clerk and Treasurer at 6pm on the last Monday of every month.
13. Dogs: the Board received several complaints regarding unregistered dogs running at large on the Peavey Town Rd. Reports state that the dogs have been acting aggressively. The ACO and Waldo SO have been contacted. It was determined that the dogs were licensed this morning. It is unknown what, if any, follow up action is planned in regards to the dogs being loose and aggressive. Bob P. will contact the ACO(s) and ask them to come in for next Mondays meeting.

3. Peter Weston: spoke to the Board about the culvert at the end of his driveway. The frost has heaved it up on one end and does not drain correctly. In times of heavy rainfall /snow melt the water runs across the road. Steve has looked at the problem and agrees that the culvert needs to be lowered and some ditching done.
4. Henry Spaulding: reported that the running boards on the Mehuren bridge need to be replaced because they are not in adequate condition to support his plow truck this winter. Steve affirmed to the Board that the bridge itself is in good condition and that it would only require new planks on top.
5. Road Budget: the Board reviewed the work that needs to be done with Steve and established some priorities. It was agreed that the head walls on the Morrill Bridge could be deferred to next year. The Board asked Steve to start formulating a plan for next year which could be given to the Budget Committee for consideration in January.
6. Grass trimmer & sign for the Transfer Station: Bob P. got a couple of quotes on a couple of different trimmers. After some discussion it was agreed that the Stihl seemed to be the best equipment. Bob P. will try to get more quotes on Stihl. The Board approved the sign design that Jeanne had created. She will convert the design to a .jpeg using software at home and then order the sign(s).
7. Letter to William Kelly esq.: the Board signed a letter to Attorney Kelly declining to issue a supplemental deed because it is not necessary and, to do so, would deviate from standard practice.
8. ACO: Bob P. spoke with Peter Nerber about the dog complaints on the Peavey Town Rd. He also advised the ACO that he / they should be filing more detailed reports and in a timely manner.
9. Abatements / Supplemental: the Board signed an Abatement for a Mobile Home that had been sold prior to April 1st. They also signed an Abatement & Supplemental to correct for RETTD that had been filed with erroneous information.

10. Address Correction: William Berlinghoff submitted a notice that he received in 2007 to the Board. The notice indicated that his mailing address would be changed due to road names being reconfigured. William pointed out that the notice states his address would be 158 and that the tax records cite 159. Jeanne did some research through the E911 records and confirmed that the road names had been altered. It is unclear why the tax record did not reflect the change but the Board voted to have it corrected now.

Jeanne advised the Board that Mary Thompson had reported that the cracks on Center Road could use patch seal. The Board reviewed the remaining budget and discussed what work could be deferred to next year.
6. Transfer Station: the Board voted to purchase a Stihl grass trimmer from Viking Lumber. Bob P. will pick it up. Jeanne advised that the new sign(s) had been ordered and should arrive sometime on Wednesday. Cathy reported that the new Hamden facility is slated to open later this week. She will try to contact Paige Zeigler (the Town's UARRC rep) to gather more information.

He was resolute that the people accepted into his faith-based transitional housing would not pose a threat. He added that the house would eventually be self-sustaining and looked forward to a day when they could provide excess food to area food shelters. Sheriff Trafton gave an over-view of the Re-Entry Center and its programs. He emphasized that there is a very careful and deliberate screening process for the applicants and that no sex offenders are allowed to apply. Two graduates of the Re-Entry Center program spoke to their own experiences. Both stated that it was invaluable to them in acquiring the skills needed to become gainfully employed and self-sufficient. Both spoke of a deep commitment to giving back. Diana also asked the Board to calculate the penalty if land is removed from Farmland status when her mother's property is sold. Diana provided a map which designated which 17 acres are being offered for sale with the house. Jeanne will compile the necessary data for the Board to make their determination.
4. Roads: Steve advised the Board about tree work and brush removal that has been done by Mike Pease of Appleton. He informed the Board that the Center Road is a four-rod road and therefore the ROW extends 33 FT from the centerline. Steve stated that the Morrill Road, and Peavey Town Road, are also in need of ROW work but that he was going to check the budget before proceeding. He proposed that Emergency Management issues could be addressed at the same time. MONTVILLE SELECT BOARD MEETING – MONDAY, SEPTEMBER 30, 2019

Present: Bob Price (1st Selectperson), Cathy Roberts (2nd Selectperson), John York (Fire Chief), Shelby Wright (Fiberwright/Coastal Resources), S.Paige Zeigler (UARRC & State Rep), Michael Carroll (Municipal Review Committee), (Bradley Peters (Montville Transfer Station manager), Fran Gozalez (Republican Journal reporter and resident), Bernice Nadler (resident), Sharon Hubbard (resident).

1. The agenda and minutes of September 23rd were postponed for review until next week.
2. Treasurer's Warrants: #39 for \$109,988.68.
3. Montville Transfer Station – Shelby Wright, representative from Coastal Resources informed the Board and residents about the innovative Fiberwright technology used to help reduce waste and recover recyclable material at the Coastal Resources facility in Hampden. Montville is now hauling their municipal waste to this new facility. Residents are now encouraged to throw uncleaned glass and plastic containers #1,#3-#7 in with their trash (clean #2 plastic containers will still be collected separately at the transfer station and sent to Unity Area Regional Recycling Center). For more detailed information go to www.CoastalResourcesME.com

Michael Carroll, Executive Director from Maine Review Committee, discussed hauling options for the town to consider if replacing the packer and box truck becomes a priority. Montville is a member of this nonprofit organization (members include 115 Maine Cities and Towns). MRC represents and manages municipal solid waste issues (MSW). He suggested that the town look at purchasing a compactor, having a private hauler supply dumpsters and contract with the town to remove MSW from the site, or looking into consolidating removal with other towns.

Paige Zeigler, Board member for the Unity Area Regional Recycling Center (UARRC), discussed the current situation facing the UARRC and its limited number of items it can now collect due to the low market value for recycling materials. Only #2 plastics, plastic film, cans, aluminum, paper, cardboard, electronics, and textiles can be accepted at this time. The town will continue to send these separated items to UARRC until further notice because of our contract with UARRC. However, the Board will need to assess if it makes sense economically to continue with this service since Coastal resources accepts all mixed materials. Our contract will be sent to MMA for review, as it appears that the Town is required to give a year's notice before it can terminate the contract.

4. John York – Updated the Board on emergency management activities. Additionally, the Board agreed to meet with MMA and John to discuss coverage for fire department.

This meeting ended at 9:00 p.m.
