TRADITION AND EAGLE

Tradition

American Tradition

Over Two Hundred Improvements

We asked our customers, "How do we improve the American Coach®?" You answered, and based on your feedback we made over 200 product improvements for 2004.

"New" doesn't even begin to describe the all new American Tradition® and American Eagle® from American Coach. Their styling is dramatically different with fresh, aerodynamic lines that visually set them apart from everything else on the road. Then under the skin is the revolutionary Liberty Chassis™ that provides you with a myriad of benefits. That's because at American Coach, we understand your active lifestyle and create coaches that not only take you where you're going... they go beyond your expectations. (See page 18 for chassis details.)

Refined and Restyled with an Ultra-Smooth Ride

This new American Eagle begs to be driven. Thanks to its new Liberty Chassis, it handles like no other motor home—smooth, stable and comfortable. And its stunning exterior graphics communicate your individual spirit as they make an instant and memorable lasting impression. For an extra touch of style, each American Eagle comes with color-coordinated awnings and aluminum wheels, as well as chrome mirrors, rear bumper, rock guard and rear ladder. Actually, no matter from what angle you choose to view an American Eagle, there's always something special that's sure to catch your eye.

American Tradition

Discover an Entirely New Tradition

Poet T.S. Eliot once said this about a tradition, "It cannot be inherited, and if you want it you must obtain it by great labor." That's an appropriate description of our American Tradition—a fitting reward for your dedication and devotion. But leave it to American Coach to transform this Tradition into the shape of the future.

From the ground up, this Tradition is all new. It starts with our patent-pending Liberty Chassis and continues through the sleek exterior styling... and ends up inside, with dramatic new décors and furniture styling. This Tradition blends its elegant appearance with opulent luxury, so no matter where you roam, it's the ultimate resort.

So Many Choices

At American Coach, we realize buying a motor home is a personal process. So we offer the Tradition in a variety of floor plan configurations, including double, triple and quad slides. Plus, every Tradition features new furniture styling and new décor choices, allowing you freedom to create your ultimate motor home.

Relax in Comfort

It's all about comfort—no matter where you travel. And the new American Tradition delivers a level of comfort that's exemplary. First off, notice that there's plenty of head room. Then when it's time to sit down and relax, you'll appreciate the beautiful Flexsteel® fabric or optional combination leather and fabric furniture, while enjoying your Sony® home theatre system. A complete entertainment package consists of a standard 24" Sony® Vega TV, VCR, DVD, AM/FM radio, DSS satellite system and five Sony® cube speakers and a subwoofer. And, if you prefer, you can upgrade to the latest 32" plasma flat screen TV—it provides a beautiful picture, while taking up less space.

Wide Open Spaces

There's plenty of room to stretch your legs in an American Tradition—especially in the dining room and kitchen areas. An elegant dinette provides comfortable seating for four and features a Corian® table that extends. (Two additional chairs not shown.) Overhead cabinets are available in your choice of four attractive woods, including Walnut, Regency Cherry, Clear White Maple and Windsor Birch. The American Tradition... now this is living.

Optional fabric ottoman opens up for convenient additional storage.

Convenient multiplex switches control slide-outs and lighting throughout the coach. They are illuminated to be easily seen at night.

Control Is at Your Fingertips

Thanks to an adjustable Smart Wheel steering system, adjustable pedals and an ergonomically designed cockpit, it's easy to handle the American Tradition.

Controls are within easy access and large easy-to-read dials and buttons allow you to make adjustments. An optional high-tech information system, called Trip Tek, monitors gas mileage, temperatures, travel time and engine data.

The "welcome mat" greets you when you open the door of an American Tradition. It's actually a durable Corian® stepwell with power step cover. Optional keyless entry and a lighted door handle make coming home all the more inviting.

Tradition for 2004 also offers an exterior temperature gauge & compass, optional Onstar, optional Night Vision, optional Satellite radio, optional GPS Navigation System and optional Air with Hydraulic Leveling system.

Tilt and telescoping steering wheel is yet another creature comfort.

An exterior temperature gauge and compass are now integrated into the dash.

An integrated 3-point seat belt and adjustable armrests make this the most comfortable seat in the house.
