

## The Motion family:

Easy to use, comfortably discreet, rechargeable options.

Robust enough to withstand the rigors of daily life, Motion is IP67-rated† to resist moisture, sweat, dust and dirt. A choice of earhook or ThinTube ensures maximum hearing and wearing comfort.

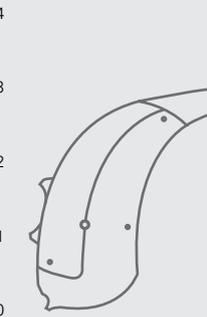

The rechargeable Motion SX eliminates the need for weekly battery changes. Rechargeable batteries last a year for less fuss.

# The new Motion.

**Sleek, easily controlled, effortless.**

With a model to suit almost every hearing requirement, the new Motion® fits comfortably and discreetly behind your ear. Easy to adjust and control, Motion is packed with functionality that lets you hear with ease all day long. Whatever the situation, you can simply relax and enjoy it.

## Enjoy life's true sound.

Whether it's an office, a crowded store or a busy restaurant, wherever there's a high level of ambient noise, holding a conversation requires concentration and effort. Straining to hear voices in these situations is tiring - even for people with normal hearing.

The new Motion helps relieve this. The advanced SpeechMaster function continuously monitors what you are listening to and singles out the speaker of interest to reduce unwanted voices and background noise. You hear what you want to but not the rest. As a result, hearing becomes effortless and less tiring all day long, in every situation.

## Family celebrations with Motion.

### Breakfast excitement.

Your niece and nephew are visiting. Around the breakfast table, they're chatting excitedly about the day's plans. Voices are bouncing around the table and the sounds of forks and spoons are clinking away distractingly in the background. Motion brings outstanding performance to the table to make sure you don't miss a thing.

Its automatic **SpeechMaster** function singles out the speaker of interest above other voices while simultaneously engaging **SoundSmoothing™** to reduce the clattering of cutlery.

Thanks to Motion, you easily hear what matters. In fact, it makes hearing so effortless that all you have to think about is whether to have bacon, eggs, or both.

### Outdoor pleasure.

Outside the ice cream parlor, everyone is enjoying the breeze and watching the crowd go by. With the sound of chatter all around, Motion rises to the challenge. Its automatic **SpeechMaster** function singles out the speech while simultaneously engaging **noise reduction** and **eWindScreen™ binaural** to reduce wind noise and suppress the sound of the cars so that you clearly hear every word.

### Enjoy the party.

At a lively party, your discussion is one in a crowd of conversations but Motion manages it superbly. As the party moves into a large ballroom, the chatter bounces around left, right and center. As it echoes off the walls, Motion's **EchoShield** program softens the reflected sound so you can concentrate on enjoying the party.

### Music fidelity you'll really appreciate.

Motion's **HD Music** program delivers outstanding sound quality to let you fully enjoy music. Whether you're enjoying your favorite music at a concert, listening at home on your own stereo system, or even on stage performing music yourself, HD Music offers an optimized and superb listening experience.

## Extra touches, more convenience.

### Phone call clarity.

With Motion, phone calls are a snap. As soon as you hold the phone to your ear, its **TwinPhone** feature transmits the caller's voice to both ears for better understanding. Or connect Motion to your **Bluetooth®**-enabled phone via **easyTek™** for hands-free calling and music streaming.

### Complete control in the palm of your hand.

The **touchControl™ App\*** puts complete control of Motion at your fingertips. Change hearing programs and adjust the volume, bass and treble to suit your needs; you can even adjust the direction of the microphones. All you need is a smartphone.

touchControl App

### Smart handling all around.

For complete convenience and ease of handling, the **easyPocket™** remote control and **VoiceLink™** companion microphone for easyTek make life with Motion easier than ever before. Motion can be recharged via the **eCharger™** so no more fussing with tiny batteries - change once per year instead of weekly.

easyPocket VoiceLink eCharger

### Tinnitus? Relief is at hand.

With its static and ocean wave **tinnitus therapy feature**, Motion provides welcome relief for tinnitus sufferers. Ask your Hearing Care Professional which solution is best for you.

\* Compatible with Android and iOS. The app is free of charge.

### The ideal answer to noisy environments.

The optional integrated audio shoe on Motion SA provides direct audio input streamed from FM systems. This is especially helpful in noisy environments such as classrooms.
