

10-Hour OSHA Construction Safety & Health Training Course

Instructor

Jim J. Brandt, CSP, CHST, CET - Industrial Hygiene Professionals, Inc.

Benefits

Lectures, video presentations, classroom exercises and in-depth discussions provide students with a comprehensive overview of the OSHA construction regulations (29 CFR Part 1926). Students are introduced to OSHA policies and procedures as well as general safety and health principles necessary for a safe work environment.

Who Should Attend

This course is intended to provide workers in the construction industry information about their rights, employer responsibilities, as well as how to identify, abate, avoid and prevent job related hazards while on the job. The training covers a variety of general industry safety and health hazards which a worker may encounter.

Selected Course Topics

- ❖ *Introduction to OSHA*
- ❖ *Focus Four Hazards*
 - *Falls*
