The Saite reunification of Egypt in the mid-650's BC finally brought an end to the turbulence of the Third Intermediate Period and the occupation of Egypt by the Nubian and Assyrian conquerors.

This is a story of a family of rulers from Sais who in an extraordinary effort involving diplomacy and military activity, reunited Egypt into a single state.

This was a major historical success achieved against all odds and for nearly a hundred and forty years Egypt was once again ranked as a major power.

Under Saite rule Egypt entered a period of stability, economic prosperity and cultural revival.

The SSAE local group was formed in 1992, primarily for people with an interest in Ancient Egyptian history and art.
