

# MUD RACES

We have two closed circuit mud tracks. We also have planned a major mud pit race. There will be open class atv and SXS races, basically **“RUN YOUR MONSTER” events!**

Here is a rundown of the events we will stage at the first event in May:

## **Track 1 Mud XCross “Slimy Ditch”**

This track is designed to race two quads at a time, with the winner going on to the next round. Four racers will advance to the final race to award a winner.

## **Track 2 Mud X Cross “Tennessee Trough”**

This track is wider and will handle more riders at a time. Once again, we’ll probably stage up to six riders per heat race to select the top two from each heat to advance to the final round.

## **Mud Pit Race “Frog Jump Pit”**

The pit next to the river is designed for racing through the mud and over the various berms and islands to keep things interesting! This race, depending on the number of entries, will consist of heat races with the top riders from each heat advancing to the finals.

## **Mud Drags “Bounty Hole Mud Dragstrip”**

Three quads at time, winner advancing to the final rounds. There are four pits in the track, each being a little deeper than the last.

**Obstacle Course** (timed competition) Each rider races against the clock, with the winner having the best time.

## **Dirt Drags**

Dry dirt drag racing two at a time, classes to be announced.
