

IRC Administrative Provisions (½ day)

This class is designed to provide insight into the world of administrative provisions of the International Residential Code (IRC), some comparative information will be provided in relation to International Building Code (IBC) and the International Existing Building Code (IEBC) in regards to counter techs and other governmental employees, powers and duties as well as provide insight to the architectural and building community to enable them to provide the information needed for permit and project approvals.

IRC Chapter 3 Design Provisions (full day)

This class is designed for those who work in the permitting arena, including permit techs, plan reviewers, building officials, Architects, architectural draft persons and designers. The class deals primarily with Chapter 3 provisions of the IRC and will touch on provisions where the applicability may shift to IBC or the designer may choose use of the IEBC for a given project.
