

**“Taking piano lessons with Nicola was a great platform to prepare for a bachelor of music in my conservatory. More importantly, however, I will cherish Nicola's dedication, warmth, and keen attention to me as an individual student. It was this nurturing approach to lessons that helped me develop holistically as a person by cultivating both skills that will help me no matter what career I pursue and also an appreciation for music's connections to everything that will enrich me throughout my life.”**
