DESCRIPTION: All Wilson Brothers Black Widow bows are highly valued, and the iconic Model 101 is one of the best. Great looking and performing higher poundage target recurve in near mint condition. Factory installed stabilizer insert. Rosewood riser with contrasting laminates. Bow has no delamination; no cracks; limbs are straight. Overlays and tips are in great condition. Two small professionally filled sight screw holes on the face that are barely visible (see far right pic on page 4). No chips, dings or cracks. No crazing or stress cracks; no stress lines. Very few minor scratches and nicks here and there. Bow specs are in excellent condition. I had planned to keep this bow as one of the 6 I'm retaining for my personal shooter collection, but I decided to keep my 30# Black Widow X-99 instead. My advancing age keeps me from being able to shoot a lot of arrows from a higher poundage target bow. This bow is gorgeous.

COMES WITH A NEW CUSTOM STRING.
