

Green Energy Supermarkets provides;

GESA a complete program that meets a Supermarket's *core utility needs*, but will also address *future demand* for energy conservation and power generation.

We focus on *eliminating energy waste* by reducing the overall energy needs, and using creative energy solutions such as *alternative-energy solar panels*. The energy and maintenance *savings begin immediately* and there is *no investment* necessary by the Supermarket Client.

First, we conduct an **energy survey** of the store. Once our team of experts analyzes the energy usage, we focus on custom solutions for the HVAC/R and lighting that create real, sustainable value.

GESA's benefit include an improved supermarket that is *more energy and client*, reliable, and environmentally friendly, as well as easier to manage; all while reducing energy costs and exposure to utility price fluctuations. You will experience vastly improved stores resulting in *increased sales*. Shoppers will be enthusiastic about the new, bright, airy feeling and comfort of your stores. Supermarkets realize an *enhanced public image* by demonstrating environmental responsibility.

GESA stands for ...

Upgraded energy

management systems

Free Ongoing maintenance

of HVAC/R and lighting

Up to 10 % discount on

monthly utility bills

Employee Green Training

Our team are professional engineers, Grocery Channel Marketers, LEED accredited Professionals and Project Managers.

Green Energy Supermarkets saves 10% on utility bills and 100% on maintenance costs... all with no investment up front.

** These savings will be a direct increase to the bottom line profit in a competitive environment.*

How we help you reduce your monthly energy bills?

With over 25 years experience in the energy conservation sector, Green Energy Supermarkets and her strategic partners have been providing their clients energy conservation retrofits that significantly reduce energy consumption. Our current system includes:

- *Upgraded energy management systems*
- *Ongoing maintenance of HVAC/R and lighting At*
- *least 10 % discount on monthly utilities bills*
- *Employee training on new equipment at no additional cost*

THE GES “GREEN TEAM”

Utilizing our experienced staff with over 20 years of delivering sustainable solutions we can provide you and your supermarket with the following:

- *Energy efficiency, optimize store equipment*
- *Seal your building*
- *Water efficiency, smart landscaping and Water Sense Fixtures*
- *Environmentally preferable purchasing*
- *Employee education and awareness*
- *Optimize your recycling*

Awareness is the Key;

Did you know that small changes by occupants of the store can reduce consumption by over 7%*?

We will help identify areas where education and awareness programs will have a large impact.

Our staff will interact with the Supermarket’s employees on day one and help to develop your own “Supermarket Green Team”.

**Big Y, “Energy Awareness Program”, 2002*
