

Minerals Technology® Presents

LDL[®]

LIGHT DUTY LUBRICANT
& Penetrant

RUST INHIBITOR
MICRO-LUBRICANT

- ★ **For Removing Parts Held Fast Due To Rust And Corrosion**
- ★ **Repels Moisture**
- ★ **Prevents Rust And Corrosion**
- ★ **A Super Micro Lubricant For Delicate Moving Parts: Linkages; Locks; Bearings Of Roller Conveyors; Slides of Labelers; Etc.**
- ★ **Leaves A Gum Free Lubricant For Protection**
- ★ **Available in 5 Oz. AV Or 14 Oz. AV**

LDL[®] "AEROSOL"

- Apply LDL onto the Affected Parts Held Fast Due to Rust and Corrosion; Allow to Stand a few **seconds**. Hit a few Sharp Raps with hammer to Shock First Layer of Rust and Corrosion; Allows LDL to Penetrate Deeper into Affected Parts.
- Locks: Spray LDL into Key Slot, Barrel Parting Surface, Insert Key; Lock and Unlock Until Lock Works Freely; Move Key in and out of Lock (to free lock pins). Wipe Excess Lubricant from Lock and Key— Will Not Gum.

- Roller Conveyors: Spray LDL into Bearing of Rollers to Dissolve Gum Formation; Rotate Rollers; A Second Application may be Required; Wipe off Excess Lubricant; REPEAT AS REQUIRED.
- Labelers: After Washdown; Lubricate All Bearings, Slides Etc. with LDL. This Application LUBRICATES, PREVENTS RUST AND CORROSION.

LDL prevents down time; keep a can of LDL near work area at all times!

SPECIAL NOTE - Our 5 ounce can is a great tool for hard to service areas and can be carried on your person.
