

Waste & Recycling Management Services

Why use ProWasteUSA?

Business owners and managers are unaware of their options for waste and recycling options and services. Some receive fines and violations for not having the required levels of service or by not having the right equipment to handle their needs and requirements.

ProWasteUSA is your partner that works in your best interest to find solutions that will keep your cost in control. We specialize in managing waste and recycling needs of our clients with locations across the United States. Our team of industry professionals have years of experience in the waste industry. We save our clients an average of 20% on their waste and recycling costs. We stress the importance of successful recycling programs and will assist you in developing programs that work!

HOW WE WORK FOR YOU

When it comes to improving your service and reducing your costs every detail counts. Our comprehensive evaluation process performed by our seasoned waste management team ensures no stone is left unturned. Only dedication and years of experience can provide this invaluable service to your company and bottom line.

YOU BENEFIT FROM:

1. A review of your current operations

Your waste services vendor will be thoroughly analyzed by our representatives to provide an in-depth understanding of how your solid waste and recyclables are being managed.

2. Identification of your opportunities:

We'll increase opportunities for savings by locating the areas in which we can make the most substantial impact on your bottom line. You'll increase your efficiency and reduce your costs as we meticulously apply knowledge of latest technologies, transportation systems, disposal alternatives, commodity prices and information from our network of affiliates to your operations.

3. Detailed Recommendations

We will provide comprehensive and easy-to-implement recommendations for the most cost effective improvements currently available.

4. An analysis of expected savings

You'll receive a financial impact statement detailing the expected results and exactly how much money you will save.

5. A plan for approval presentation

Your approval is a critical step in our service process. We are dedicated to working with you as a partner in developing a plan that works for your specific needs.

6. Implementation of the plan

We ensure that your expected savings are being achieved. For the entire length of your agreement we monitor the operations of your agreed-upon solid waste management system and ensure that our standards are maintained by immediately correcting any errors or overcharges.

7. Cost Savings

See how much money you save with the actual results of your new waste management system.
