

Chesapeake Section American Water Works Association

Operator Competitions

Call for Volunteers, Sponsors, and Teams!

CSAWWA is looking for a few good volunteers, to help us conduct three operator competitions this year at the 2019 Tri-Association Conference (Tri-Con). Volunteers are needed for judges, time keepers, and general helpers at the conference, and may be eligible for discounted registration. Just send an email to the contacts shown for more information about each competition.

We are also looking for Sponsors to help send our winning teams to the AWWA Annual Conference and Exposition (ACE). 2019 winners will compete in beautiful Orlando, Florida! Sponsors will have their logo on t-shirts that all competitors receive at Tri-Con, and your logo will be on signage/banners at each event, and in the official conference brochure. *You can secure these sponsorships for \$250 through Tri-Con beginning March 19, 2019, at 11am* (www.chesapeaketri-con.org).

Got a team? GREAT – there is still time to sign up! please contact the individual noted below for the each competition.

Top Ops: Operators and lab technicians display their knowledge and ability to think under pressure as they answer scientific questions and solve math problems.

Contact Anthony Rocco - arocco@howardcountymd.gov

Pipe Tapping: This high-energy contest where top utility teams race to tap a cement-lined, ductile iron pipe. Teams of water operators compete by drilling into ductile iron pipe and installing taps in the shortest period of time.

Contact Bob Johns - bob.johns@ferguson.com

Meter Madness: Contestants reassemble working water meters from buckets of parts—with a few odd nuts and bolts thrown in the mix—in a race against the clock and each other.
