

Reinforced Pavement Performing Well After Severe Winter

GENERAL INFORMATION

Project Title: Waterloo Road Resurfacing
Property Owner: Summit County Engineer
Engineer: Summit County Engineer
Product Used: GlasPave 25
Installed By: PS Construction Fabrics
Install Date: Summer 2010
Contact: Larry Fulton
 Summit County Engineer
 (330) 643-2850

BACKGROUND

Reason for Product Use:

Extensive cracking throughout the existing pavement.

Problem Being Addressed:

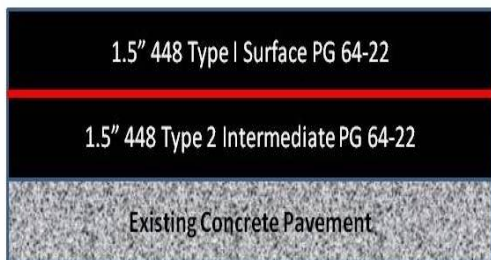

Concerns about severe reflective cracking.

RESULTS

Zero reflective cracking after severe winter with many freeze thaw cycles. Typically the rate of reflective cracking is 20% after one year.
