A message from the Village Board

This summer, Justin Coats, the Maintenance Supervisor left the Village and longtime Village employee, Paul Sabins, filled his position. If you need to contact him you can call 585-448-2073.

As you are aware, the Village has been experiencing high nitrate levels in our drinking water. Well 4 has been testing over the State regulations so we have been pumping water from well 3. Well 3 has been staying within the guidelines, however, this is only a temporary solution, so the Village Board is working with Labella and Associates to look at our options and also explore any grant money that is available to try to lessen the financial burden to Village residents. We understand that this a frustrating situation for everyone, but please bear with us as we work towards a solution and we encourage you to attend Village Board meetings held the third Weds. at 7:00 in the Village Office.

We would also like to remind everyone that the best way to report any water issues or concerns is to call or email the Village Office at 585-384-5252.

Don't forget to Vote on November 5!

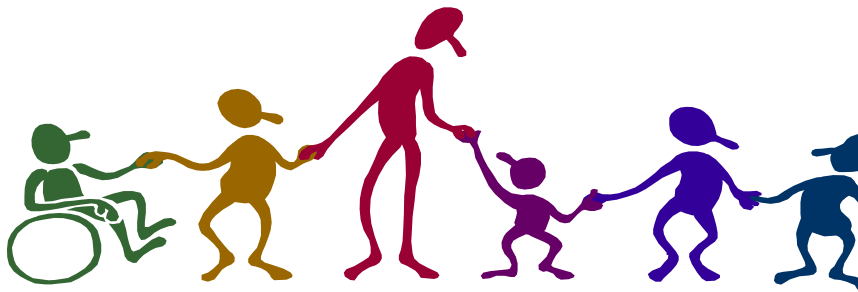

Have a safe and happy Holiday Season!

Code Enforcement

Chuck Cagle

Village of Cohocton Codes Officer

As you prepare your home to "settle in" for winter please remember: to clean your chimney and/or furnace. If you replace your heating system (furnace, boiler, etc.) or install a pellet stove, woodstove, etc.; you will need a building permit. Do you plan on doing any interior work on your home to remodel for the holidays? Please contact our Code Officer as many projects do require a building permit.

Just one simple call 607-542-2175.

The Fire Department would like to remind you, now is a good time to change those batteries in your smoke detectors and clean your chimneys.

Have a Safe and Happy Holiday Season!
