

DOMENICK HENRY '12

Domenick graduated from Brentwood in 2012. While preparing to study Civil Engineering at CCAC, Dom was diagnosed with Osteosarcoma (Bone Cancer). This diagnosis, in January 2013, was just two weeks after his 19th birthday.

By May 2013, after 3 months of Chemo, Dom had his right leg, hip and pelvis removed. The cancer had not stopped spreading. The Chemo only worked on 30% of his tumor.

Sadly, Dom passed away on February 13, 2014. His family and friends created Dom's Requiem. Dom wanted this site to go on and donations are used to help his family, families fighting cancer and to also go towards a Civil Engineering Scholarship at Brentwood High School.

Dom was a strong, brave and caring person. He had such a strong effect on all of us and we are very sad to lose him.
