What is a Local Immigration Partnership?

A Local Immigration Partnership brings together service providers, settlement agencies, community groups, municipal representatives, employers and other key organizations across the municipalities in East Central Saskatchewan to create a welcoming and inclusive community for newcomers to Canada.

The main priorities of the LIP are to:

- Identify and eliminate gaps in programs and services.
- Consolidate community resources and coordinate the delivery of services and programs.
- Help address current labour shortages through recruitment and by preparing employers to hire newcomers.
- Develop a community-based action plan to guide attraction, settlement and integration of newcomers.
- Increase the community's readiness for newcomers by promoting awareness about the benefits of diversity.
- Provide opportunities for locals and newcomers to learn about and share with each other.
