

INTERACTIVE MAKEUP WORKSHOP

Wednesday 10th January

6pm-8pm

During your first session you will understand the art of makeup as we expand your mind with colour theory, different correction techniques and how to work with shadows and light. Understand your skin better than ever, as we explore different foundation applications and skin types vs. requirements. Learn basic structural techniques to give you brows on point, every day!

Wednesday 17th January

6pm-8pm

Build your confidence as we guide you through the step-by-step process of smokey eye shadow. Learn about brush control and the difference between all of the eye shadow brush options available, using techniques that work best for your eye shape.

Wednesday 24th January

6pm-8pm

Today's class is completely focused on perfecting your eyeliner techniques. Creating different styles of wings from corporate office wings to special occasion wings! You will learn about the different brush control techniques and find a way to achieve your perfect wing every time.

Wednesday 31st January

6pm-8pm

Our focus for your final class is on completing your look with lip and lash application. Learn how to choose the correct lip colour for your features and master the application of false lashes with our tips and tricks along the way!
