

At our **Texas Department of Family and Protective Services** Ms. James had a unique view on how each person is connected to the world around them.

She was the utmost professional, arrived at the conference early, verified the room set up, and ended exactly on time. She was energetic, animated, and fun to listen to.

I highly recommend Ms. James. She was a delight to work with. Afterwards, she took time to individually speak to participants and answer questions. Any group or conference would be lucky to have her.
