ComfortGel Blue Full-Face Mask

A comfortable forehead cushion and enhanced StabilitySelector combine with a blue gel replaceable cushion to create a high level of comfort and stability. The unique sure seal technology provides a membrane-thin layer over the gel cushion to closely follow facial contours of both men and women, allowing more wearers to quickly achieve the comfortable seal they need. O₂ pick-off port for pressure measurement. Angled exhalation micro ports make operation quieter and redirect air away from a bed partner. Ball-and-socket Quick Clips for free movement and easy mask removal. Integrated retaining ring tabs simplify removal.

ComfortGel Blue Nasal Mask

Soft, pliable blue gel adapts to facial features, simplifying fit and contributing to extended wearer comfort. Updated forehead pad helps reduce pressure points. Lower profile exhalation port, with integrated swivel, quietly directs airflow up and away. Gel cushion gently conforms to facial features. Premium headgear makes fitting and adjustment a snap and helps maintain a proper seal.

TrueBlue Gel Nasal Mask

Headgear has inlaid adjustable straps that converge into a single back panel with a crown strap for added stability. Premium blue gel works with the thin, form-fitting outer silicone membrane to create an effective, self-adjusting seal. Freeform spring gives patients the ability to move in any direction. The soft silicone spring limits disturbances to the seal. Angled exhalation micro ports make operation quieter and redirect air away from a bed partner. Talon clips make it easy to remove the mask and lock in the same fit, night after night.

EasyLife Nasal Masks

Developed to make fitting users practically automatic. The patented Auto Seal technology allows the mask to self-adjust. Almost instantly, virtually any user can establish an effective, comfortable fit. The soft inner cushion readily adapts to facial contours to create an instant and self-adjusting seal, nearly eliminating the need for nose bridge and forehead pad adjustments. The outer cushion provides support, allowing the mask to rest lightly on the face, eliminating the need to over-tighten the headgear to achieve a suitable seal. The headgear features headgear stops for easier fitting and adjustment, which may result in a true first-time fit. Comfortable, quiet and lightweight.

Acclaim® 2 Nasal Mask for CPAP and Bi-Level Therapy

Easy to wear and use. Offers greater comfort, less noise and adjustment-free fit and removal. FlexiFit™ cushion technology offers a unique combination of a silicone seal and foam cushion to make the mask more comfortable, while providing an effective seal around the nose and facial contours. Unique glider mechanism allows more freedom of movement and stops the mask from being pulled askew during the night. Designed for easy, one-step fit and removal. FlexiFit™ cushion automatically conforms to different bridge depths

and facial contours. The forehead rest doesn't have to be mechanically adjusted, making it easier to fit. Airflow diffuser allows quiet operation, so that the sleeping partner is not disturbed. Mask and headgear comes fully assembled, which saves set-up and fitting time.

CONTOUR PRODUCTS, INC. (CTP)**CPAP Multi Mask Sleep Pillow**

Enjoy the freedom to sleep comfortably in any position. The CPAP Pillow reduces mask shifting, leaks and the tendency to over-tighten mask straps. The unique pressure-free zones improve breathing alignment, encourage proper support and keep an open airway. All pillows come with a dual-fabric cover that custom fits the pillow's shape. The silky quilted area follows the pillow's contours so that your CPAP mask and shoulder's glide easily over the pillow while providing you head with a cushioned velour sleeping surface.
