ITEM 6: LAWNMOWER

Issue: We only have one mower in working order. We do not have a second one; it is broken. The price for a 48" Gravely mower is currently \$7000 for an \$8400 mower. There is zero financing if we buy it by the end of this month. Payments would be \$147/month for the next four years.

Response: Table for next week pending investigation into cutting service or other options.
