

My name is Diane Jensen. Many of you know me through the e-mails sent on behalf of the community. I've been chairperson of the Communication Committee for about eight years.

A lot has happened during that time. We've gone from a one-page information letter to multi-page newsletters to a website. Along the way we added a community directory back in 2008 that is published every other year. And, of course, there are the e-mail blasts that keep our owners informed. Recently we have become the conduit to provide recommendations from our residents for services, from house cleaning to painting.

A lot of people have contributed time and energy to bring us to where we are today:

- Former residents Mary Farnell and Kathy Kirby who wrote that one-page information letter that piqued my interest and got me involved in their venture;
- Dorothy Steines who never served on the committee but provided a community directory from another development that helped us come up with ideas that we incorporated into ours;
- The late Art Cooper who put his heart into the Communications Committee.
- John Ruscito and his late-wife, Linda, who put a lot of time into the newsletter and community directory, and whose eagle eyes caught many proofreading errors that slipped past me; and
- Milli Macy, who used to own a camera store in Saratoga, NY, and who now contributes her photography skills to the website.

Our website is something that is available 24/7 no matter whether you're here or somewhere else. It's where you can find:

- Minutes
- Board Briefs
- Landscape Reports
- Social Events
- Dates when the clubhouse is reserved
- Names and telephone numbers of board members and our property manager
- Pet of the Month
- Pictures of things going on in our community
- And other important information

The web address is pretty easy to remember. It's [Saratoga-LelyResort.com](http://Saratoga-LelyResort.com)

My focus is try to keep everyone in Saratoga informed, whether they live here full-time, part-time, or are still working and come whenever they can.

Thank you.
