**Keynote Speaker Julie Zickefoose**

Writer/artist Julie Zickefoose, author of, *Letters from Eden* and *The Bluebird Effect*, is a Contributing Editor to *Bird Watcher’s Digest*. Because she believes birds to be the most vibrant vessels for the life force, painting baby birds as they grow has been her favorite project to date. Her latest book is, *Baby Birds: An Artist Looks Into the Nest* (2016). *Saving Jemima*, about a blue jay she raised and released in 2017, is due out from Houghton Mifflin Harcourt, September 10, 2019.

Julie loves to encourage people to watch birds more closely and carefully. She speaks and leads trips at a number of nature festivals around the country. And, she now leads natural history excursions to Latin America and Africa with Holbrook Travel. Julie lives on an 80-acre wildlife sanctuary in Appalachian Ohio.

*The keynote talk will be about blue jays! It will be the book talk for Julie’s latest book, *Saving Jemima: Life and Love With a Hard-luck Jay*. Saving a sick, orphaned nesting blue jay opened the door to their world for the author of *Saving Jemima: Life and Love With a Hard-luck Jay*. You’ll never look at these boisterous, clever birds the same way after meeting Jemima in this hour-long talk. You may want to study them yourself!*
