News Release No. 314
06.10.2019

Pop-Link® Mounting System, by ADandD, is pleased to announce the addition of the highly requested Vacuum Base to our product line. The Vacuum Base (P/N PL-HDPL-VB1) incorporates a built-in hand pump to produce the vacuum for holding with a rating of 70 pounds of holding force when mounted in a vertical position with the load in a down position. It is recommended for temporary application and requires a smooth mounting surface. Testing for “time to hold” is recommended prior to actual use.

The Vacuum Base is compatible with the PL-BASE and HDPL-BASE, and comes with stainless steel fasteners to mount either of these bases.

The PL-HDPL-VB1 has a list price of \$ 218.00. Please contact us with any questions at sales@ADandD.com ... we look forward to your inquiry regarding the Vacuum Base, or any other product in The Pop-Link[®] Mounting System Family.
