COVID / Visitation Update

Greetings from Midway Nursing Home!

While we are waiting for the remaining staff and resident COVID test results to be returned, there are no new additional positive COVID cases thus far and all residents remain asymptomatic.

Precautionary quarantine continues through April 15<sup>th</sup> and visitation remains on pause until all test results are returned with no additional positive cases found. We will notify you via recorded calls and on our website at [www.midwaynursinghome.com](http://www.midwaynursinghome.com) as soon as we are able to resume visitation. Units not on precautionary quarantine may be able to resume visitation, depending on the pending test results.

We are in the process of securing COVID vaccination proof from visitors so that in the near future, we can coordinate visitors and residents that are fully vaccinated in a designated area where barriers will be removed. If you are fully vaccinated, we ask that you provide us with a copy of your CDC COVID Vaccination Card.

We are partnered with our pharmacy, Procure for ongoing COVID vaccines for residents and staff. Our next clinic is tomorrow.

Virtual/Facetime visits are available daily. We highly encourage you to call to schedule a Virtual/Facetime visit with your loved one by speaking with a staff member from Social Services or Recreation.

Please continue to stay safe and remember to wear your mask!

We look forward to seeing you soon!
