Ideal newborn and pediatric screener

- Satisfies CPT codes 92558 and 92587
- A simple to use newborn and pediatric screener with an intuitive interface
- Automatic pass/refer, low cost consumables and long battery life make this the ideal OAE screener

The Otocheck is a simple to use handheld OAE system with an intuitive interface, offered with either TEOAEs for newborn hearing screening or DPOAEs for both newborn and pediatric hearing screening. Automatic pass/refer, low cost consumables and long battery life all make it the ideal way to screen with OAEs.

Choice of 2 Screening Models
- **TEOAE model** for infant screening, 1-4kHz QuickScreen 5 frequency bands, with 3 screening modes or
- **DPOAE model** for pediatric screening, 2-6kHz 4 frequency points

Operation
- Easy ‘press-and-go’ operation. Pass-refer result
- Fast, noise-resistant mode
- Intuitive graphic display shows signal to noise progress
- Unique graphical indication of probe fitting (checkfit)
- Choice of overall or frequency band displays
- Alerts to poor probe fit, high noise level and ringing stimulus
- Long battery life - up to 250 test cycles or one full working week
- Battery level and charging indicators
- Charging cradle and docking station options

OAE Pass Criteria
- **TEOAE model** - configurable pass criteria of 6dB SNR in 2, 3 or 4 half-octave bands (1-4kHz) or whole response, wide or narrow bandwidth
- **DPOAE model** - configurable pass criteria of 6dB SNR at 2, 3 or 4 frequencies (2-6kHz)
- Optimized pediatric mode

Database
- Provides on-screen test result summary table
- Holds the last 500 tests listed in chronological order
- Stores Patient ID, name, date of birth, gender, notes, location, facility and patient status
- Work-list function for pre-entry
- Integral ID chip reader or barcode scanner options (at time of order)

Quality Assurance
- Probe test function and ID tracking
- Whole system power-on self test
- User login and password protection if required
- Proven Otodynamics OAE technology

Printing from Otocheck
- Fast print time, numerical and band pass data
- Automatic print-on-connect mode
- Wired or wireless options (at time of order)

PC software
- Automated USB data transfer to Otolink PC software
- Uploads firmware updates to Otocheck
- Otolink provides record review, management, printing, archiving
- Archives include detailed ILO format OAE data

Technical Specifications

User interface: Display: 65K color LCD, QVGA resolution.
Languages: English, Spanish, French, Turkish, Portuguese, Italian, German.
Test capacity: More than 250 test cycles or one full working week (typical use).
4GB non-volatile memory.
Hardware options: Wireless printing/internal barcode reader/RFID scanner.
Data acquisition: Analogue interface: 2 x 16bit (output) and 1 x 16 bit (input) channels.
Frequency response: 160Hz to 12KHz (electrical).
Electrical interfaces: Probe connector (Otodynamics 8-pin). Data/charge connector - USB 1.1/2.0 compatible PC connection for data and charging, also accepts Otodynamics PSU.
Power: Internal rechargeable 3.7v, 1000mAh lithium-polymer battery. Charge time: 3 hrs to 90%. Approx 4 hrs to 100% capacity. Intelligent multi-level power control.
Maximum power use: Testing - 630mW.
Charging - 2.5W.
Dimensions: 7.6” x 2.7” x 1.2” (195mm x 70mm x 30mm).
Weight: 7.5 oz (214 g).
Operating environment: For indoor use at 41 to 104°F (5-40°C). Max humidity 80% up to 88°F (31°C) decreasing linearly to 5% RH at 104°F (40°C).
Humidity: 10% to 90% non-condensing.
