

PAPA'S ToyHOuse BuILders

For all Boys and Girls TOYS

Children love to build things and take them apart and rebuild them. These playhouses are the perfect playmate for all boys and girls, and all of their toys. Papa's Toyhouses are easily built by children with "safety" screws, bolts, nuts and tools provided. The kids can build as many toy houses any size they want, and then use them to play with any or all of their toys for amazing fun together. These toyhouses can be easily built for girls dolls, boys trucks, and almost every other toy the kids have. Basic building blocks for any toyhouse design are screwed or bolted together by the children, with their parents and all their friends. It improves dexterity while having great fun together. This is the perfect exciting gift for all the family and neighbors. There are endless designs kids can easily build. They are limited only by the imagination of the kids, and the amount of building blocks needed for the number and size of playhouses the kids want for any or all of their toys. Included are ramps that go on top of the playhouse for toy cars and trucks, and many other accessories like interchangeable walls, floors, roofs, toyhouse names, etc. Papa's Toyhouse basic toy sets for boys and girls, designed for the basic Papa's Toyhouse Builders set is also available if desired. These toyhouse basic building blocks can be constructed of plastic, recycled plastic, and/or wood.

Papa's Toyhouse Builders will be sold wherever toys are sold anywhere in the world, as playhouses, and toy and wall cabinets for the kids toys. These toy stores can sell any of their toys at a discount if Papa's Toyhouse Builders set is included. As an incentive, toy store owners will receive a bonus from Papa's Toyhouse Builders, larger than Papa's toy discount that they have provided for their toys bought with the Papa's Toyhouse Builders. In addition to Papa's discount bonus, toy store owners will also receive a generous portion of the actual profits from every builders set they sell. They will also be sold at all Home Improvement stores as projects for the parents and kids. Papa's Toyhouse building blocks for toyhouses, and toy and wall cabinets can also be built from scratch with the help of a skilled mom or dad builder, from detailed instructions and materials for toyhouses provided by these home improvement stores.

The marketing strategy is to have a graphic design of different boys and girls playhouse designs, and also toy and wall cabinets the children build to store or display all their toys. Prototypes will be made as necessary to demonstrate various graphic designs that can be made as an example of the toyhouse builders. There will be real actual videos of Papa and his grandson playing with the toyhouse builders, and other videos of parents, friends and other children building and playing with the various Papa's Toyhouse Builder's designs. Copyrights, trademarks and/or patents will be obtained as needed. Proposals with video will be sent to toy stores and home improvement stores everywhere to secure purchase orders. Recycled products can be a great marketing tool if they can be produced at these maximum margins.

More Papa's Builders

[Papa's Builders Accessories, Toys, Clothes, and Furniture](#)
