

SUPPORTING OUR COMMUNITY

- PPE (masks, gowns, gloves, etc)
 - Some hospitals in the area are accepting direct donations of these supplies. I've attached the most recent information from Adventist Hospital about their needs and how to donate.
 - If you have a connection to a bulk supply or supplier, you can e-mail sean.odonnell@montgomerycountymd.gov in the Public Health office and jamie.cooke@montgomerycountymd.gov in the Department of General Services and they will coordinate deliveries based on need.
 - If you have a large supply that you wish to sell to the county, you can e-mail procure@montgomerycountymd.gov with information about the items available.
- Food: Donations to the county's food banks have slowed to a near halt as the number of food-insecure households exponentially increases.
 - Manna Food Center: Jackie DeCarlo, jackie@mannafood.org
 - Nourish Now: (accepting food donations as well as monetary contributions which can be made online) Volunteer Coordinator - quincy@nourishnow.org; Program Manager - ciara@nourishnow.org
- Funding: Although the county is not set up to accept monetary donations directly, the Greater Washington Community Foundation does collect funds on behalf of county programs and has a special COVID-19 response fund: https://montgomerycountymd.galaxydigital.com/need/detail/?need_id=509933
