

The Literacy Council of Madison County, Inc. recently received \$1500 from Rappahannock Electric Cooperative's (REC) Operation Round Up (ORU) program for the Council's Family Literacy Program. Operation Round Up receives its funding from REC members who volunteer to have their electric bills "rounded-up" to the next highest whole dollar. If REC provides you with power, we ask that you consider supporting "The Power of Change" by joining the ORU program to help others in need. Once enrolled, the extra charge from your electric bill will be dedicated to charitable causes. Members can sign up by visiting the REC website (<http://www.myrec.coop/res/community/operation-round-up.cfm>) or by calling 800-552-3904 for more information. The average member contribution is approximately \$6.00 per year and is tax deductible. An annual statement of charitable contribution will be mailed to you.
