WHAT'S UP WITH

An update for the possum belly crew! PremierTech has set up an account at the Monster Truck Wash in Red Deer so you can wash your trailers when you wish! YAY!

There have been a few concerns raised about the cameras inside the cab of the trucks. I can assure everyone with 100% certainty that these cameras are forward facing and do not record audio. They are meant as a security feature to record any potential dangers with our trucks or any other dangers on the road.

The CN bridge just west of Morinville is still closed to big rigs heading northbound. This is the bridge on highway 2 northbound that is over the train tracks. You are able to travel southbound on that bridge but is closed to northbound tractor trailers. I will be able to send an update on this as soon as I hear any news!

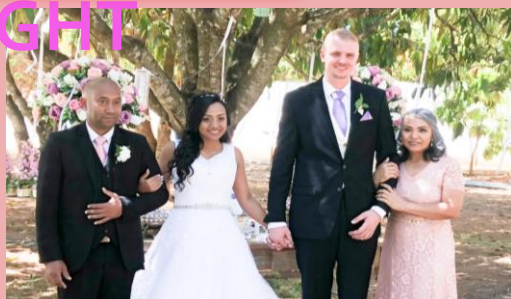

I am going to be going through all of the driver files in my filing cabinet. I want to make sure each one of your files is complete with the most up to date and accurate information in them! So! Expect to hear from me begging to get different forms signed and sent back to me! But the good news is the quicker you get the paperwork back, the less I will harass you! 😊

LOG BOOK AUDITS

I have been auditing everyone's logbooks. I have been randomly choosing 2 drivers a month to audit. So far, I have been very happy with everyone's logs! (I also have been secretly making notes of who has the neatest writing! LOL!) Just 1 thing I want to gently remind everyone of: for those who use paper logs, please remember to staple your fuel receipts to the corresponding day of your logbook.

SPOTLIGHT

Roelf was the lucky chosen contestant for our popular driver spotlight section! I cannot even remember all the questions I asked him, but here are some interesting facts about Roelf!

He can speak 6 different languages!

He is one of 10 children in his family!

Alice and Roelf honeymooned in New Zealand!

He was homeschooled as a child!

He can play the violin beautifully and even sing!

His biggest ambition is to become a pastor and someone people can trust and respect!

It is bittersweet that we must say goodbye to BCO and Brent and Kyle. It was a pleasure to work with these guys and we wish them huge success in the future!

We are also having to say see you later to Brian Johnson. We are very appreciative of all he brought to the Werkman family and wish him all the best in his next chapter.

Even though we are losing some great people, we are happy to welcome some new faces to the family!

We have a new lease op, Dale Thompson. He is joining us with his company Scandiaventures Ltd. Welcome Dale!

We are welcoming 2 new company drivers this month as well! Darcy Paulovich is joining us from a cattle hauling company and brings a few decades of trucking experience to the team! Cory St. Louis is coming on board to complete the possum belly crew!

Welcome everyone to the ever growing Werkman family! We are thrilled to have you join us 😊

Updates on the BBQ!

I have had some really great ideas submitted for the staff BBQ! It will be on a Saturday in July and looks like Barrhead is the venue of choice. I have contacted Summerdale Community Hall to see what their availability is. I am thinking a potluck will be the easiest to organize. I have also started a list of people who are interested in coming! Let me know if you would like your name added to the list! Click the link below to sign up to bring something yummy!

HAPPY 7th ANNIVERSARY TO JANE AND RICK!

These love birds are celebrating their 7th wedding anniversary this weekend! I heard rumors of BBQ steak and gifts! I hope you both had a wonderful time celebrating your marriage and each other!
