

VILLAGE OF NEWARK RECEIVES GRANT FOR RECONSTRUCTION OF WEST MILLER STREET CULVERT

Through the State's Bridge NY initiative, the Village of Newark has been awarded \$982,000 for the West Miller Street over Military Brook Culvert Replacement Project. The existing twin barrel culvert will be replaced with a new concrete box culvert with greater hydraulic capacity making the Village infrastructure more resilient. The Village of Newark would like to thank Governor Kathy Hochul for her commitment to improving the safety, resiliency and reliability of critical municipally owned infrastructure. The engineering design will commence in early 2022 with construction anticipated to begin in July of 2023.

Mayor Jonathan Taylor stated, "The Village is looking forward to completing the work on this critical project. We are thrilled to have the State's resources to assist us in protecting this vital stream and ensuring our infrastructure remains operational in the village and beyond."
