

QuickBooks Online Seminar

An Introduction to QuickBooks Online

\$195 per person – Prepayment Required

[Sign Up](#)

While QuickBooks® is user friendly most people still need **QuickBooks Training** to effectively set up the software, efficiently utilize appropriate features and ensure their data is being input in a correct manner. Nothing is more frustrating to business owners than not trusting the numbers in their accounting software; accurate numbers they need daily to make wise business decisions.

Our **QuickBooks Online seminar** is designed to meet the needs of each attendee and here is how we accomplish that goal. We conduct small classes, typically with 8 attendees or less and call one to two days in advance of the class to identify your biggest problems in business and with the software so we can provide specific training relevant to your situation. We use the information from our call to determine the direction of the class, and may focus in certain areas listed below, more than others. What is important to note is that we cover all the material but will spend the most time on information that will best help you succeed.

3 Main Goals of our QuickBooks Training:

- To help you improve cash flow
- To increase net profit
- To help you have more fun at work and in business

We have discovered that the foundation for any business success is in the daily use of accurate accounting numbers. What we measure we manage; what we manage, we improve. Our goal is to teach you HOW to use your numbers for success.

Our Introductory **QuickBooks Online Training seminars** include:

• Section 1 – Getting Started

- How to choose the right subscription
 - How to import company data
- How to view and utilize the Dashboard

• Section 2 – Settings
