Architectural Consultations -

Dr. Dvoskin has served as design consultant for major renovations and new construction of a number of state, federal, and territorial psychiatric facilities during his long career. The following is a partial list of these projects:

New York - As part of his duties as Associate Commissioner of Mental Health for the state of New York, Dr. Dvoskin oversaw design of major renovations to Mid-Hudson Psychiatric Center, a 300 bed forensic psychiatric hospital in Middletown, NY. Completion of this project resulted in significant reductions in violent incidents at this facility.

Georgia - As part of a federal class action, plaintiffs and defendants agreed to ask Dr. Dvoskin to assess suicide hazards at six of Georgia's large state prisons, resulting in cost-effective, potentially life saving physical plant changes to rooms in which suicidal inmates were housed.

Louisiana - Again, at the request of plaintiffs and defendants, Dr. Dvoskin performed a comprehensive assessment of suicide hazards in the state's juvenile correctional facilities.

Puerto Rico - Dr. Dvoskin served as design consultant for a new correctional psychiatric center, which cost less than renovation of the existing building, which was the basis for a finding of unconstitutional conditions.

Michigan - Dr. Dvoskin assisted the state of Michigan, which was involved in constitutional litigation regarding its prison mental health system, in creating a MH care system within the Department of Mental Health. He also served as design consultant for new beds added to a state forensic psychiatric facility.

Maryland, Florida, and Maine - Dr. Dvoskin served as consultant to Commissioners of Mental Health, including consultation on the physical plants of forensic and civil psychiatric hospitals.

Delaware - Dr. Dvoskin served as design consultant for the new forensic wing of the state's psychiatric hospital.

Colorado - Dr. Dvoskin served as design consultant for the state's new forensic psychiatric hospital; a design which combines a sense of privacy and dignity among patients without sacrificing the visibility needed in order for staff to maintain safety.

Washington, DC - Dr. Dvoskin served as consultant to two Federal Receivers, then to the Commissioner of Mental Health, in a variety of areas. These included an assessment of the number of beds needed, then to assist in a Capital Plan for the entire DC Mental Health System. Dr. Dvoskin served as design consultant for the creation of a brand new Saint Elizabeths Hospital, to replace the entire civil and forensic hospital campus. The design of this facility, which is now under construction, included an innovative consumer advisory panel, facilitated by Dr. Dvoskin, which had input into every phase of the project's design.

North Carolina – Consultant to architectural renovation of forensic unit at Broughton State Hospital.

North Carolina – Consultant to Disability Rights North Carolina to assess safety and security of new Central Regional Hospital.

Harris County, Texas – Consultant to the Harris County Sheriff’s Office on the construction of a new jail in Houston, Texas.

Miami–Dade County, Florida – Consultant on the capital renovation and program development for a new community forensic facility for Miami and Dade County, Florida.

Oregon Department of Corrections – Consultant to creation of large correctional complex, including mental health unit, in Junction City, Oregon.

Idaho Department of Corrections – Consultant to creation of a 300-bed mental health unit.

Missouri Department of Mental Health – Architectural Design Consultant on 300-bed Secure Forensic Hospital to replace existing buildings at the Fulton State Hospital (currently under construction)

Oregon Department of Corrections – Architectural improvements to Secure Mental Health Treatment Unit at Oregon State Penitentiary
