

The Keyboard

Below are full size keyboards with 88 keys.

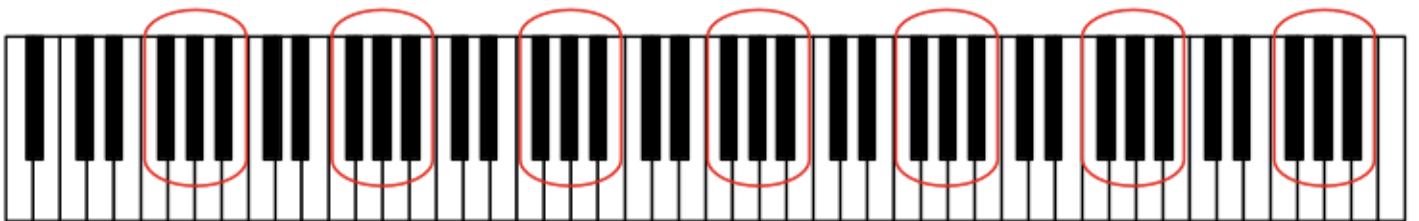

If you look closely you will notice there are 36 black keys and 52 white keys.

The black keys are grouped in sets of two and three.

Groups of 2

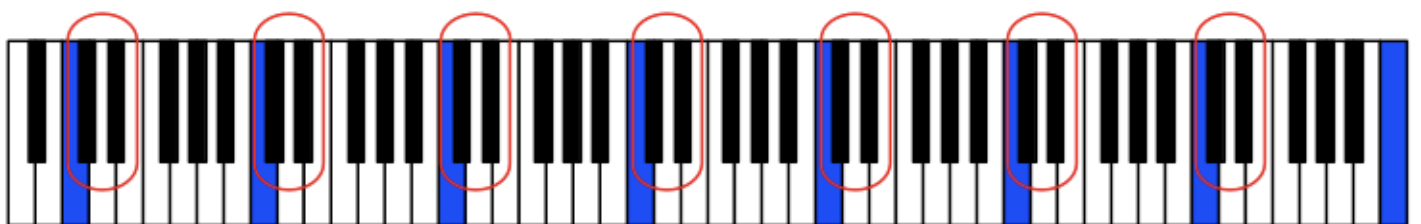

Groups of 3

Now that we found the pattern of black keys we can use them to find the name of the white keys. If we press the white key to the left of the set of two black keys we are playing the white key 'C'

We will use the color blue to locate all the 'C' s on the 88 key keyboard

↑
Middle 'C' or C4

Can you find and play all the 'C' s on your keyboard?
