 <p>R410a Refrigerant 25 Pound Cylinder R410a Refrigerant 25 Pound Cylinder</p> <p>R410A is a blend of R22 and R125 that is 60% higher pressure than R22 for air conditioning applications and should only be used in new equipment specifically designed to handle the pressure. Systems that are designed for R410A will have smaller components to perform the same cooling job as R22. R410A will require POE lubricants. Retrofitting R22 equipment is not recommended under any circumstances.</p> <p>R410A has replaced R22 as the preferred refrigerant for use in residential and light commercial air-conditioning and heat pump systems. It has a higher cooling capacity than R22 and is significantly higher in pressure. R410A was not designed to retrofit existing R22 systems and should be used only in systems specifically designed for R410A. It is non toxic and non flammable meeting the highest A1/A1 classification.</p>	100	\$367.41	\$36741.00
