

Don't Hang onto a Falling Star

Did you ever see a light
Streaking through the sky at night?
And made a childish wish that you knew
Wouldn't come true
But, well it just might
Then it would set everything right?

Don't hang onto a falling star.
Don't hang onto a falling star.
Don't hang onto a falling star.

Don't you realize that it's only a star that's dying?
Don't you know that you're only making a wish on its' death bed?
La La La

Everyone likes the stars
Loves to watch them twinkle and shine.
But in the morning when you open your eyes
The star have disappeared and the dreams are gone.

Don't hang onto a falling star.
Don't hang onto a falling star.
Don't hang onto a falling star.
