

Roofing That Lasts!

THE SMART CHOICE

Quality 40 Year Warranted . Great Customer Service

5-V Crimp Metal Roofing

5-V Crimp

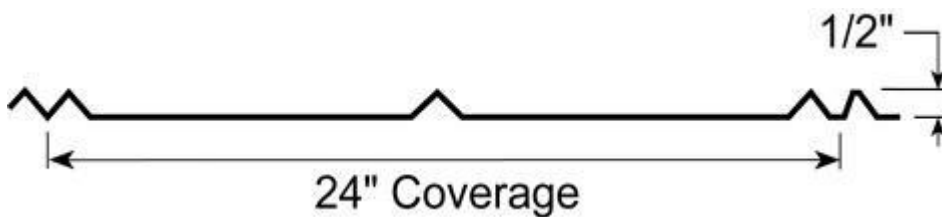

The 5-v Crimp is one the original metal roofing panels to hit the market years ago. Many architects will still specify this panel for the classic V ribs and low profile look. It makes a great choice for any roof. The design gives a look similar to standing seam with the lower cost of an exposed fastener system. These panels are custom cut to the inch.
