Jefferson Souza

The mysterious man behind the Blue Planet Project.
We are now revealing many of his secrets!

The material in this book has not been submitted to or approved by any U.S. intelligence agency. If anything is discovered that is considered by your agency to be classified, notify the publisher.

The Secret of the Blue Planet Project Books

The Blue Planet Project Book was shrouded in mystery. If you haven't read it yet, it is available at:
<http://www.blue-planet-project.com/>

It was claimed that it was from the notebooks of a government scientist who was contracted by the government, over several years, to visit alien crash sites, interrogate

captured aliens as well as analyze all data obtained from government sources.

And then when the government realized either that he had in his possession these notes, and/or that he was going to reveal this information to the public, he supposedly went into hiding out of the country as soon as he realized he was in grave danger.

It was also stated that he was involved in these alien and UFO investigations for over 33 years and went into hiding in 1990.

The author's English was a little rough and the spelling wasn't too good. This led several readers to comment that it couldn't have been written by a scientist, it just didn't have the scientific polish.

And some have commented that it must be for real, as no one could have an imagination good enough to invent all this stuff.

Skeptoid claimed that the Blue Planet Project is: “An organized research project to catalog our knowledge of alien life and extraterrestrial civilization. The Blue Planet Project (not to be confused with Project Blue Beam, or the Project Blue Book) is nothing less than an **Alien Technical Manual** that serves as an encyclopedia of what we know about alien races, weapons, technology and plans.

Supposedly written by **UFO expert and scientist Jefferson Souza**, the Blue Planet Project made waves among the UFO community for its level of detail and commitment to disseminating forbidden knowledge.”

Well, I’m here today to tell you that I have irrefutable proof that the basis of this story is true, while many of the smaller details need to be corrected. And after you read what I have discovered, you will surely agree with me that it is a true story that’s even more bizarre than the original version!

Could it be that the **information in the Blue Planet Project** was the basis for many of the books and articles written by UFOlogists? Is this where much of this information originated?

What about what we heard over the years about government cover-ups, false flags, surveillance, and even CIA assassinations that we just couldn’t believe at the time, but now we are starting to realize that they are most likely true?

And the science fiction of years ago that seemed so way out that it was silly to even consider such a thing as being possible, such as Man going to the Moon or even Mars, particle beam weapons, SDI, aliens actually on our planet, and now they are becoming a part of our world!

Whenever we get ahold of information such as is revealed in this Blue Planet Project Book, we must consider not only if it is real or not, but also why it was released.

Is it fiction, fiction written around some basic facts, or fiction released by the government as disinformation to throw some people off the track of what is really happening? Or is it real and a government employee wanted to reveal to the public what the government was actually up to?

Paul Bennewitz was anonymously given some tapes by what appears to be a government agent involved in disinformation on such things as Majestic 12. Now either they were similar to what was really going on but not the whole truth to send

everyone off on the wrong path or the government may just have been using him to spread some actual information so the public gets more used to the idea that there are actually aliens involved in our affairs.

I believe that Mr. Bennewitz actually did stumble upon and record some transmissions that really did originate from UFOs or were top secret communications involving the military in a secret project or a combination of both. Bennewitz was no dummy, He was very savvy when it came to electronics and communications.

The government went to a lot of trouble to make him look foolish and to drive him crazy and they finally succeeded in confining him and giving him shock treatments. If he was just some harmless nut, would the government really care and waste their time with him?

This has been the government's most effective trick over the years, to get the public to laugh at you if you mention seeing a UFO or even believing in them. And it has really worked! How many folks who have witnessed something bizarre in the sky will never say a word for fear of being ridiculed and maybe even losing their job or their standing in the community?

I heard that the founder of the Enquirer tabloid originally worked for the CIA and that they funded the money for him to start it. One of the goals was to run ridiculous exaggerated articles and pictures on aliens and UFOs in order to treat the subject with ridicule so that most mainline newspapers wouldn't touch the subject for fear of being compared to the Enquirer.

How did Gil become involved in this Blue Planet Project strangeness?

I must tell you that up until 2013 I had never published a book on aliens and UFOs. But this was a subject that had always fascinated me. Just like you, I read everything I could get my hands on to find out what was really going on, but most of the available books just didn't seem to reveal enough about what was really happening.

I spent most of my life in marketing. First creating direct marketing companies, then as a marketing consultant and finally full time in the publishing business, writing and publishing books on marketing, copywriting and book writing.

Then in September of 2013, all this changed. As an Amazon book dealer, I received an email from Amazon notifying me that a book called "The Blue Planet Project" was no longer available and that there were a large number of potential customers looking for it, and that I should try to locate any of these books that I could find.

I had never heard of it before, but it intrigued me. And soon I was pulled into this mystery. My research revealed many contradicting stories: Strange, cryptic postings in chatrooms; Copies of hard-to-read parts of the book posted on websites; and an eBook being sold, but had many reviews warning of the hard-to-read quality of it.

I did find the listing on Amazon for a copy of the book in print. It was being sold by a print-on-demand publisher, but was no longer available. It started selling on 2/25/13 and ended about six months later. The information was sparse. Rather cryptic explanations as to why the author was listed as "anonymous" and why no one was taking credit for it.

I did finally manage to get a copy of the original and complete manuscript and arranged to get the legal rights to publish it in book format, registered the ISBN number and started selling it on Amazon. There was a great response from followers who thought they would never be able to obtain a copy.

Then in December of 2013 (about three months after Amazon encouraged me to bring it out again) I get an email from Amazon, they (or someone) seemed to be unhappy with it being sold again (very interesting!) They mentioned some reason which really didn't apply and said they were banning me from selling the book. If I had done something wrong or went afoul of their policies, they would have banned me from selling on Amazon, instead they just banned me from selling this one book! Such a strange world!

Fortunately, I had already created the website www.blue-planet-project.com/ and the Blue Planet Project was selling there. Then less a year later I was able to sell Blue Planet Project on Amazon again.

Did I ever consider that maybe the Blue Planet Project had a black cloud hanging over it and that maybe there were organizations that didn't want it being made available to the public? Yes, every day!

But I was intrigued about being a part of something with such powerful information and an almost cult-like following of readers who were very appreciative. I remember a reader in Australia who emailed me that he and his group of friends were amazed that I was able to get away with publishing it, that people have been shot for less. (Wait until he reads what I revealed about Australia's Pine Gap Base in one of my newest books: "Alien Underground Bases"). It can be seen here:

<http://www.blue-planet-project.com/Alien-Underground-Bases.html>

Last year, a customer who was very grateful to have finally obtained a copy of the Blue Planet Project, explained to me that he was a UFO researcher and a few years ago he was searching for the Blue Planet Project he had heard so much about. As he attended many of the UFO conferences and was acquainted with most of the speakers, he asked one of the top UFOlogists there if he knew where he could get a copy of the Blue Planet Project and was told that he shouldn't even mention that book, it was too dangerous. And then he noticed, on several occasions afterwards, that he was being followed. Very bizarre!

And then there's the reader who said that Blue Planet Project was so revealing that he almost felt it was illegal for him to be reading it! Several said they were glad to get their books before I got shot. Encouraging, right?

But I was hooked. I put all my other business interests on hold and devoted full time to the Blue Planet Project. And then writing books that expanded on the themes mentioned in the Blue Planet Project, such as Dulce Base and Remote Viewing Aliens. This book is Number nine in the Blue Planet Project series.

ARE the MEN IN BLACK MORE COMMON THAN WE HAVE REALIZED?

Maybe The Blue Planet Project really is a hot potato!

Here's an old news clipping I found online of an incident which maybe gave Jefferson reason to be cautious:

RESEARCHER BEATEN UP BY MIB/CIA -- MAY 1990

Researcher Jefferson Souza [Vegan - Ummo Contactee] arrived at a UFO Conference in May of 1990 bearing information that included data about which corporations were producing helicopters with gravity assist, as well as information about their use in cattle mutilations. Four men appearing like classical MIB (Men In Black), took the documents, and threw him back on a plane to New York. It may well be that CIA/Delta/NRO involvement in the mutilations might be more significant than supposed.

And from a posting online:

The original Blue Planet Project Notebooks were handwritten by their owner at the First International UFO Congress held in Tucson Arizona held from May 3rd thru the 7th in 1991. The notebooks were grey Composition Graph Notebooks with sketches, diagrams, formulas, charts and information about Extraterrestrial data collected from various sites around the world.

More on the International UFO Congress

The Congress was founded by Lt Colonel Wendelle Stevens, retired US Air Force pilot turned UFO investigator and researcher. Lt Col Stevens was assigned to Wright Field in 1946, and his research on UFO's began there with all of the information about the Roswell crash in 1947.

Lt Col Stevens was assisted with his Hosting duties at the Conference by his good friend Command Sergeant Major (ret.) Robert O. Dean, who claims he saw a "Cosmic Top Secret" briefing document on UFOs when he worked on the General Staff at SHAPE (Strategic Headquarters, Allied Powers Europe) in the mid-1960s.

The Conference theme was: Extraterrestrials Are Visiting Earth.

Could the two mentioned above (Stevens and Dean), have been responsible for passing info to Jefferson Souza?

A Closer Look at The Blue Planet Project Author

Gil Carlson, Blue Planet Project Publisher

Since my involvement with the Blue Planet Project beginning in September of 2013, I have attempted to revive and fulfil a demand for what may be considered a cult classic as well as an amazing revelation and exploration into the world of aliens, UFOs and government involvement with them.

As a publisher, I worked at my task of making this book available to the public, all the while there was a swirl of confusion around me. So many rumors and questions kept popping up. Even folks posing as Jefferson Souza online for whatever reason.

As I kept trying to find answers, and people warned me not get involved with it, I knew the truth had to come out. Was Jefferson Souza the actual author? (I assumed from the beginning he was, but had limited evidence).

Was he really a government employee who had turned whistle-blower? Was he still alive or had a government agency finally succeeded in terminating him? Or maybe (this seemed the logical conclusion to me) he was still hiding out in some foreign country? I always figured I would be in touch with him some day.

Well that day did finally arrive, I've been in touch first with his representative, J.C. and then with the real Jefferson Souza! Some of what I've learned may surprise you. Are you ready for it?

But first I must clarify a few things: My involvement in this is strictly as a reporter. It is not my endeavor to promote, defend or condemn the actions, efforts or activities of those I have been in contact with. It's too easy to automatically condemn the actions of the government without knowing all the facts, just as you shouldn't believe all the evidence the government presents against an individual without examining it closely and hearing the other side of the story.

The residence of Blue Planet Project author Jefferson Souza

Jefferson Souza has been Found!

In June of 2014 I received the first of many emails from someone I refer to as J.C., He introduced himself as a friend of Jefferson Souza who was helping him handle some of his financial and legal affairs.

Thus began a lengthy communication back and forth as he explained what really happened to Jefferson and he was able to answer many of the questions that I had. I'm sure that you too will also find this information to be very intriguing.

On the next dozen or so pages I'm going reproduce information from these emails, they have been shortened by dropping anything irrelevant or personal, but everything important has been retained. So let us begin:

The J.C. Emails

Email from J.C. 7/9/2014

Jefferson is 55 years old and has been in a US Federal Prison under a false name since 1996. He has written many books over the past 18 years but he is unable to get the information out. It is a long and bizarre story but

basically, the US refuses to correct his identity so that he can be released back to Brazil even after the Brazilian Consulate has confirmed his identity. They do not want him released for many reasons.

I know this for a fact because I was in two prisons with him and I am the one who personally found and contacted his family in Brazil after they thought that he was dead. The US refused to inform his family of where he was for 18 years and they still refuse to correct his identity so they don't have to release him.

Believe it or not but I have proof. Don't bother to respond if you are afraid of having the US government reading your letters to and from Jefferson.

Thanks, J.C.

Email from J.C. 7/9/2014

Hello Gil,

You may be suspicious of my story and I am doubtful that you will contact him when you understand that the Feds do not want him released. I say this from experience with two other UFO bigwigs who were all into the story until they realized that they would be closely monitored by the Feds if they started writing to him. They never did gain the courage to write to him and I wasted weeks explaining things just as I have spent years trying to get him identified and released to Brazil.

I don't fear the Feds myself because they already know and hate me because I blatantly inform the public of their unending corruption. They like to pretend that they are upholding "Justice" when their entire system is based on lies and corruption. From the day that I was arrested by them, I have never heard a "Justice" official tell the truth.

Jefferson was traveling the world doing his UFO studies, speeches, etc. and he used his early programming skills to break into various defense databases and got information and photos. He was a very early version of WikiLeaks for UFO content.

His travels and interests in computers, hacking, etc. cost a lot of money and granted, he committed crimes to get money etc. and he used false identities for some of this. He had several run-ins with the Feds over the years but they always let him go.

In 96, they arrested him on highly dubious kidnapping charges when they claimed that he kidnapped a 16-year-old boy on a greyhound bus?? He was carrying a Venezuelan passport at the time under the name of a Venezuelan military officer.

Venezuela had issued him that real passport for some service that he was performing for them which I am not sure of. Read between the lines and I think he was spying for Venezuela while doing the UFO hacking in the US. He doesn't admit to the spying but it is the only thing that makes sense.

Of course, the Feds couldn't win in his first trial when the jury wouldn't unanimously say that he was guilty of kidnapping a teenager on and public bus so they arranged to have him beaten and raped while in a locked protective custody cell on the night before his second trial. The Federal judge refused to delay that trial and he appeared there doped up from the pain and in a wheelchair.

They won that case when he couldn't testify. A complete corrupt Federal trial that was allowed by a Federal judge. They locked him up for 26 years under the false Venezuelan name even after he informed them of his true identity and country.

I met him in prison and heard this crazy story and took it with a grain of salt. I also spent days and days reading his writings and looking at his UFO drawings. When I got out, he asked me to see if I could help him and I decided to use the internet to verify what he had told me. Very quickly, I was reading UFO writings online from Jefferson de Souza which read exactly like the ones that he had handwritten in prison. I knew that it was the same author. I also was finding that Jefferson disappeared in the mid-90s exactly when he was locked up.

I then thought it would be an easy matter to correct his identity but after years of trying to do it, I started seeing that they did not want him released even if it was directly to Brazil. Not only do the Feds not like what he was

discovering about their files, they now have to cover up the attack that they arranged on him in order to get his conviction.

They let his Brazilian family believe that he was dead for 18 years because they know that his family can request that he be transferred to Brazil to finish his sentence and the Feds know that if he gets to Brazil, they will immediately release him because of the sham trial. When he gets released, they know that he will sue the US for all of this and this story will get out causing untold problems. The US Justice Dept. wants to pretend that they are pure and incorruptible and they do not want this story out.

I finally succeeded in finding his family on Facebook and informed them of all this and they are now trying to get him released to Brazil but of course the Feds refuse. As I said, the Brazilian Consulate has confirmed his identity and requested a photo from the Justice Dept. for his new passport and the Feds won't give them one. They know that once they give up the photo, there is no stopping his release to Brazil and this story getting out through lawsuits and media. They insist that he is Venezuelan even after Venezuela and Brazil have informed the US of the truth.

Jefferson has a lot of information both in his head and hand written about what he had discovered from his hacking. They sometimes raid his cell and remove years of hand written books but some things he does not write down. Jefferson is not a normal person, he is a person who the US wants kept silent and unidentified and they have found a way to accomplish that so far. They do not take kindly to my efforts and they will not of yours if your dare to either find out things they don't like or decide to help this poor man.

Email from J.C. 7/18/14

The picture in this YouTube video is the real Jefferson de Souza. You will see by my post on there that I am trying to track down who posted that video and where they got that authentic Jefferson picture of him in his prison t shirt and government issued eyeglasses.

Email from J.C. 6/22/15

Hello,

Do as you will as we are trying anything and everything now. The roadblock is always that people really cannot believe that their government is this corrupt unless they have dealt with them directly themselves.

The Consulate has now issued him a new, valid Brazilian passport and yet as you see, the Feds refuse to truly identify him on the BOP database. They are terrified of him getting enough help to be released, start publicizing their corruption first hand and suing them all from Brazil.

I have created a new blog to point people to. Copy and paste whatever you can use or just link to it. If you know people with money who truly hate what has happened, there is no better investment than to donate to Jefferson as he can truly use anything from stamp money to lawyer fees.

Email from J.C. 7/2/15

Hello Gil,

I recently looked at your updates on your website and thank you on behalf of Jefferson for your attention. I have personally taken great care in that blog to link people directly to the government's own ridiculous court documents, newspaper articles from the time of Jefferson's trials, as well as providing Jefferson's direct mailing address as Richard Romero. I did these things so that people do not have to take my word for anything. I don't know of any way further to be as straightforward as possible.

I would ask you and your readers to consider a few basic questions. Why is the US government still listing Jefferson de Souza as Richard Romero, the Venezuelan military officer, even after the Brazilian Consulate has confirmed and issued him a new, valid, Brazilian passport?

How did a gang of thugs just happen to be running loose in a Protective Custody wing of a major US jail, let alone have a locked cell door opened for them, on the night before Jefferson's second trial? That alone is impossible without direct assistance and instruction by jail staff and higher.

Why was Jefferson suddenly transferred from a Federal Medical Center near Boston to a private prison contractor prison, GEO, in South Carolina when it became clear that we were making progress in truly identifying him? Why would the US government refuse to identify this man or even inform his family in Brazil of his whereabouts for almost two decades?

These basic questions as well as many others go unanswered because the real answer is obvious, the US government wanted this man locked up and hidden away for decades and they did whatever was necessary to accomplish that. They point to his UFO background and writings as reasons to tell people to doubt everything that he says which of course helps in their cover-ups.

These are the same people and agencies that for decades told everyone that Richard Romero was a crazy, lying, UFO nut who was making up the claim that he was the Brazilian citizen named Jefferson de Souza. Who was lying in that situation and who has lost all credibility in all of their statements and actions? The liar was clearly not Jefferson; it was the US government.

Email from J.C. 7/2/15

Any help of course is appreciated but that one topic is a very sore subject. Their largest tactic against their enemies is the, "they are all crazy liars," and they use it very effectively against UFO witnesses as well as anyone who they deem cross their purposes.

Jefferson is well aware of the dangerous situation that he is in with this new blog and we are both well aware that they know who created it. I got Jefferson's specific approval for that blog before it was created for these exact reasons but I had run out of ideas to assist him without the blog. It took years for me to get him identified and to find his family without that blog. Even now, people cannot believe that their government would do such a thing.

They are brainwashed to believe in their justice system until they have to confront it themselves. I find people who swear to me that this story is impossible simply because the US government would never imprison someone who was unidentified for 20 years. They swear that this is impossible even as they are looking at it happening today with Romero/Jefferson.

Most of the major UFO guys that I have dealt with on Jefferson's behalf have run for the hills when it sinks in that they are really going to be dealing with the Feds if they get involved. I see now how the Feds can force silence on the UFO issue and any other. At least with the blog, people have the choice to deal with Jefferson directly or to remain anonymous and deal with me on his behalf. I spent four years as a US Army Infantryman so I know what the real US government is supposed to be.

Any help with linking his blog into Brazil would be helpful as I now believe that that is what can get him released to Brazil. If the population and political class in Brazil could hear this story, they would be up in arms until his return

Email from J.C. 7/15/15

Gil,

To give you an idea about Jefferson's personality and how his work could have been used by others, think of a modern Tesla. I am not saying that Jefferson is on the Tesla intelligence level of course as I doubt that any human has ever been but Tesla was robbed of millions by Morgan, Edison, Westinghouse, etc. Jefferson's mind goes a million miles an hour and he produces pages and pages of notes and drawings but his world and business sense is terrible. He is very hard to keep focused as he is extremely intelligent. That is what made me start to take him seriously when I first met him and heard his stories, he was simply much different than any other inmate. It wasn't until I got out and got on the internet that I discovered why he was so different, he was telling the truth and the government was railroading and hiding him.

Jefferson has had many handwritten books taken from his cell and never returned.

He has lost dozens of complete books over the past twenty years because they raid his cell and take them and never return them but he just starts over and writes more. I will attach the handwritten page that I told you about and you will recognize his writing immediately. No one else has ever seen this page. (you can see it on page 52)

Email from J.C. 9/6/15

There is something very unusual about Jefferson and it seems that no one has ever totally figured him out. You will see stories singing his praises and you will find stories of people saying that he is a fake but even those stories describe very strange occurrences. Tom recounts a story where Jefferson was beaten and injured by unknown men or a car crash in New Mexico, he never knew which, and Tom personally saw a very large cut on the back of Jefferson's neck. A few days later, Jefferson flew to Toronto and Tom reexamined his neck and found no cut and no scar.

Tom is a very nice guy and if he isn't answering my emails then something is really wrong. He loves to discuss Jefferson and his past exploits and was ecstatic when I informed him where Jefferson was.

There are many stories like this even from people claiming that he is fake, especially the ones from when he was in Spain. I can only claim that there is something very unusual about Jefferson and he knows things that he really shouldn't know.

The one thing that always jumps out to me and seems to always be overlooked is the money. This guy never had a job and yet he always had the latest computer technology and he traveled the entire world?? How? Some of the stories claim that he was employed by the CIA to spread misinformation about UFOs but I believe that what he says is more accurate. I do believe that he was a spy but I believe he was spying and being paid out of South America and was gathering information the US Feds didn't like him gathering. He was arrested with a valid Venezuelan military officer's passport with Jefferson's picture and fingerprint on it. I saw that with my own eyes.

Email from J.C. 9/7/15

I just now received an email reply from Tom. He is better.

I just received a letter that came on Saturday from Jefferson and another UFO guy named Mike Cristol just wrote him that the internet is blowing up about Blue Planet again.

Email from J.C. 9/12/15

Gil,

Received a letter from Jefferson today. Apparently one of the big UFO guys in Brazil has been writing to him. He runs a big UFO website and group in Brazil and he wants to work with Jefferson when he gets back there

Email from J.C. 9/17/20

One of their pathetic ploys to keep him hidden is to interrupt his mail. You will soon find out that they have a manic desire to keep this guy hidden but they have already failed. Once Brazil confirmed him and issued him that passport, even though they had to go around the Feds roadblocks, he has been gaining support.

They recently handed him dozens of letters from around the world of people offering him support and even trying to mail him items and money.

This government and all of its agencies seem hell bent on causing this one guy as many problems as possible and it cannot always be coincidental. They do not seem happy enough by rigging a trial to imprison him for 26 years, they have to torment him as well. Those bastards are sick in the head. I do not know for sure what it is that he had found or seen in their databases and I am not even sure that he knows exactly why they hate him so much but something has caused all of this.

The US is simply a gigantic business which is in the business of making money and it responds in a knee jerk fashion to any perceived threat to its hidden agendas. They need their image to be the world's example of Justice and Fairness and Law and Compassion and on and on with their bullshit and they attack anyone who wants to tell the world of their real corruption.

What is more corrupt than imprisoning a guy for 26 years under a false name and letting his family think that he is dead? They actually thought that they gave him a life sentence because without a valid passport and country accepting him back, he could never be released. I kind of blew that plan out of the water for them as Brazil now knows about him and he is becoming more and more famous again.

The US military routinely goes into other countries, without their permission, and performs whatever missions they are told to do. That is why I call VA disability payments, bribe money and not medical payments. They bribe veterans to keep quiet if they want to get paid.

I can see how someone wanting to report a UFO could be immediately targeted for threats or charges of insanity if these bastards want to keep them quiet. That is exactly what they have done to Jefferson for almost 20 years.

Email from J.C. 10/13/15

Gil,

Received a letter from Jefferson and he did get the books that you sent. You should be getting a letter from him soon. They raided his cell and took back a lot of the letters that he had from supporters because so many letters were a "fire hazard." He didn't even get a chance to answer them all. You know what I am going to say to that!

Email from J.C. 10/20/15

Gil,

Why is he still listed on the Federal inmate look up as Richard Romero when he has a brand new Brazilian passport telling the Feds that he is Jefferson??? Why would the Feds choose to list him falsely?

These FACTS go on and on if anyone wants to research them but they keep saying it is fake or that I work for the Feds trying to entrap UFO people who know too much!! This is exactly what I have been dealing with for years with them.

Email from J.C. 10/20/15

Gil,

I just forwarded you an email showing two things. First, you see the email from the Atlanta Consulate CONFIRMING that he is Jefferson Borba de Souza. Second, you see my email informing the BOP about his true identity.

About six months after that email was sent, and after endless roadblocks about getting a photo of Jefferson for the passport, the Brazilian Consulate in Atlanta provided the BOP a new, valid, Brazilian passport for Jefferson de Souza.

These are all provable FACTS.

Email from J.C. 10/26/15

Gil,

Now you see what I have been saying and writing about. You have to look back 20 years to make any sense of this at all and you will see that they want to keep this guy locked away. He found/saw something that they do not ever want him discussing so someone with a lot of pull came up with this plan.

Not only did they effectively convict a man while he was doped up in court which is of course illegal. They purposely listed him under an alias name and nationality for only one reason. It was supposed to be a life sentence. An illegal alien has to be accepted by their home country after their sentence in order for the US to release him.

There are many Cubans still in Federal prisons long after their sentences because Cuba will not accept them back. Venezuela has told the US many times that he is not Venezuelan and that they will never accept his release as Richard Romero, their military officer.

The Feds knew that by not informing his family that he was alive and by telling everyone that he corresponded with that he was a crazy liar; he would never be released anywhere. Now that plan has been ruined because Brazil confirmed his true identity and moved forward with issuing him a new passport even if they had to use an old photo. Now he has a release country and possible early release by getting a treaty transfer. A treaty transfer basically gets him transferred to a

Brazilian prison but once there, the Brazilians will review his case and surely release him immediately because of time served on that ridiculous case and trial.

I don't know what he saw and I am not even sure that he knows what it is that caused this kind of a scheme but someone wanted him not only in custody, they wanted him hidden from his family and the world forever. I have been trying to point this out to the UFO crowd with little success. With him, they have proof of exactly what they have been claiming. The US has imprisoned a famous UFO investigator with a ridiculous case and sham trial and hidden him away in their prison system for 20 years.

They insist that he is a crazy liar until someone investigates his claims and discovers that he has been telling the truth and they have caused all of this and have lied continuously. This all did not happen for no reason. Many Federal officials committed serious crimes in this case starting with the court knowing/ordering that attack in order to get a conviction in that second trial.

The judge had to know/see that he was completely doped up and unresponsive in that ridiculous trial. This is a real life proven case of what the UFO crowd claims about a corrupt government but they don't even see it or they are too terrified of the Feds to help. That is why I say that they are all talk and no action.

From a US legal point of view, they always fall back on the 7-year statute of limitations which is why I now focus on Brazilian legal help. Brazil won't care about the US cover-up laws when they see what the US has done to their citizen.

If you feel really brave, hand deliver a printout of his blog to the Brazilian embassy in DC. If I lived near DC, I would be living in the Brazilian embassy lobby until they let me speak with the Ambassador as I am sure the Brazilians would go ballistic if they took the time to really see what has been done to their citizen by the US government.

An actual novel of this guy's life, especially this past 20 years, is a worldwide blockbuster book and movie. The US government set up a sham trial and purposely imprisoned a guy for 20 years under a false name and nationality because he saw something in their databases. Hollywood could not come up with a better story than this.

Brazilian railroad and abused by US Justice System

I am a friend of Jefferson de Souza and I am creating this blog upon his request and the first few posts will be from myself and are my own opinion as to his situation. Jefferson's personal comments from prison will follow and I will insure to announce when you are seeing his own words. Firstly, I will state that neither myself or Jefferson are claiming that his actions in 1996 were wise or well thought out but the repercussions of his actions by the US Justice system since then have been inexcusable, criminal and ongoing.

We are asking for help of any sort to allow Jefferson to be transferred back to Brazil so that he can be near his only family members who he has not seen for over 20 years. Legal or political help would be greatly appreciated as well as donations for such help or his personal expenses such as communication with his family in Brazil. Moral support and casual penpals would also be of immense help for someone in his position. If you only want to write to slander or rant, please don't bother as he has heard it all and more of the same is simply disregarded and forgotten. We have learned long ago that the vast majority of regular citizens have no idea that the US Justice system is as corrupt as it really is and it becomes pointless to try to convince them individually. When they or their family member makes one mistake in life, that the US government doesn't like, they learn very quickly as to what they are up against and it is far from true "Justice". This justice system is a gigantic, self-perpetuating, money generating, business that protects its own actions at all costs. If you do not have the money to pay off the system by hiring your own insiders known as defense lawyers, you are finished as evidenced by the Feds 98% conviction rate.

Jefferson received a 26-year federal sentence based upon one of the most absurd legal cases that is so far from common sense and so full of underhanded corruption that a Hollywood movie producer would turn this story down.

Strap in and get ready to read a story that is beyond reality but is 100% true, provable, and ongoing.

Here is the very brief version of the US Justice Depts claims and case against a Venezuelan citizen named Richard Romero aka Brazilian Jefferson de Souza.

http://articles.chicagotribune.com/1997-06-13/news/9706130329_1_prosecutors-internet-conversations-computer
<http://law.justia.com/cases/federal/appellate-courts/F3/189/576/526671/>

This is the governments nonsense case that they deemed worthy of a 26-year sentence. Briefly, to accept this nonsense, you must believe that someone, anyone, is stupid enough to "kidnap" a teenage boy on a public bus and then make up some further scenario that you "believe" was going to "possibly" happen at some time in the future. You also have to believe that two days is enough time for someone to recover enough from a gang beating and rape, while in a locked "Protective Custody" cell, to coherently defend himself in a federal trial.

Here is the quote from the Chicago Tribune Newspaper:

"Romero, for his part, watched the proceedings through one eye, the other apparently injured during what a source at the federal confinement center where he is being held called an attack by other inmates.

The trial was delayed two days by U.S. District Judge Charles Kocoras, who has ordered attorneys not to discuss what officials at the Metropolitan Correctional Center in Chicago are describing only as "an incident."

Before the incident Monday, Romero appeared healthy in court. On Thursday, out of the sight of jurors, he was brought into the courtroom in a wheelchair."

The files from this incident, as well as the medical records have since disappeared and no one has ever been accused or held responsible. Also missing in this

Tribune report is the fact the Jefferson's first trial resulted in a mistrial when the jurors could not be unanimously convinced that Jefferson kidnapped a teenage boy on a public bus. After the feds failed in the first trial, Jefferson's locked, protective custody, cell door was opened by guards, in the middle of the night, on the night before his second trial and a group of thugs were allowed to beat and rape him. None of the guards or attackers were ever identified or charged. Jefferson went into a federal courtroom in a wheelchair, that was hidden from the jury, while under heavy pain medication and was convicted and sentenced to a 26-year sentence with almost no defense case given. This is what the US calls "Justice" and preaches to the rest of the world about.

This is my personal overview of what I can determine has occurred based on years of discussions with Jefferson and my own internet investigations: In the late 1980s while investigating paranormal claims and alternate religions, the Brazilian UFO researcher Jefferson de Souza got involved with several groups including the Scientologists. Many of these groups and governments in various countries would hire Jefferson to do investigations, give speeches about his experiences around the world, try to hack government agencies for UFO information, etc. On several occasions while in the US at paranormal conferences, etc. Jefferson successfully hacked into NASA and other government agencies UFO files and he was warned off by the government for these activities. This was an early stage of the internet and hacking was not well defended and the databases that he was copying while being highly classified were not heavily protected. Upon being warned off several times by the feds, Jefferson turned more and more to the paranormal and religious groups to get him back and forth into the US and Europe. These groups had their own agendas and contacts in the country and in return for Jefferson's expenses, computers, and identities, he would provide them with the information that they were interested in. In 1995 Jefferson was provided with a valid Venezuelan military officers passport that had Jefferson's photo and fingerprint added to it. That is how the Brazilian Jefferson de Souza became the Venezuelan Richard (Ricardo) Romero. Richard Romero then came to Florida via a Canadian border crossing and delved back into his UFO/Paranormal investigations. While in

Florida, Jefferson performed various services for the groups who sent him to the US but mostly, he simply was conducting his own researches while traveling to conferences, etc. At one of the paranormal conferences, Jefferson met a family of faith healers from Des Moines and he eventually visited them there and lived with them for a while.

These people had their own issues going on as they had ongoing immigration issues and were running their own child porn import program from the Philippines. None of them worked and their only source of income was their "faith healing." All of these people would eventually be used by the feds to testify against Jefferson in exchange for all of the possible charges against them being forgiven. Every witness against Jefferson gave testimony that blamed him for everything illegal and cleared themselves completely no matter how illogical their claims were.

According to the above listed court transcript, this Filipino family of traveling faith healers let a newly met man from Florida live in their Des Moines basement because he had magic powers and could solve all of their problems with a computer? Really? The five trash bags full of Filipino child porn found in their basement came from this magic man on the computer and not from their own connections to the Philippines? Really? A group of faith healers with immigration problems and no jobs were buying a house and paying their bills but had nothing to do with the bags and bags of child porn that they themselves burned? Really? This group is one of the star witnesses for the feds and none of this group was ever charged.

Now we come to the teenage boy who was kidnapped on a public bus after chatting about UFOs on the internet. Once again, it is completely beyond belief that a teenage boy could be kidnapped on a Greyhound bus full of people but that is what Jefferson is convicted and serving a 26-year sentence for. The entire case as it is laid out and as it reads on the link provided seems more based on people's imaginations than any real actions. It is all about what the federal

witnesses think might have happened at some future time and their opinions about other cases and instances.

Now we easily see how the Feds lost the first trial and why they needed a heavily doped up and injured defendant for the second one.

Letter to You (as a Reader of this Book) From Jefferson Souza

Jefferson Souza – A Message from the Frontline:

The Real Jefferson Souza

Living an interesting life is a precondition to being an interesting person. I can say that my life is everything but too weary with tedious dullness. In other words – I live on adrenaline!

Six thousand and eighty-five days or so – the time I suffer from a legal condition known as “freedom impairment” meaning I am a U.S. Federal Prisoner, in nice dandy words: I am in prison! Redundant, no?

See, most people are like cattle. The cattle handler tells the cattle where to go, where and when to eat, and especially when to eat. And cattle do what cattle does. They accept the handler’s words as fact because these words are supposed to be good as facts, regardless if they were truth or not.

Most cattle are content living like that. Once in a while there is a bull that questions the handlers’ words and even challenges the status quo. Well, yours truly here is the proverbial bull from this lore. I dare to question the handler’s words and went off their designated path to find a route that would lead me to answers, not more bull-stool. (pardon the pun).

The old saying of “be careful for what you wish for, because you might get it” is more fact than not. I’ve found out lots of stuff and paid the price for getting it – Lost my name, my family, my citizenship, my past and my freedom. Boo-haha. Well so what? It comes with the territory. One knows that by playing with fire one always could end up burned, so no regrets!

The B.S. they locked me up for, with a twenty-four-year sentence only came after I refused to sign a plea agreement on my fabricated charges and went on two

trials – one that ended up a mistrial and another that was a shameful railroading. Yeah, yeah, I know all convicts are always pleading innocence and blah-blah-blah.

Well this message isn't about me – It's about my work and what I've learned to make those darn cattle handlers so mad to the point to produce such B.S. that put me where I am now.

Enough about me, if you want to know more, go to my defense blog for the details because this page is about investigations into the outer-worlds and the aliens that reside there as well as here on our planet!

Let's get direct to the point – Extraterrestrial lifeforms do exist and that is all there is to it. Proof? It is out there! Just go back to look for it. It has two ways to do it – Sit comfortably at your desk and look for what you can find on the Internet. That would confuse you even more than you were before you started, or go face the real and present dangers of walking in the shadowy places where truth can be found. But be ready to pay the price. And it's not just money we are talking about here... So enough preambles here and let's get down to business.

There are three stages of scientific discovery:

1. First people deny that it is true.
2. Then, they deny that it is important.
3. Finally, they give credit to the wrong person.

Typical: The right wing mainstream of scientists denounces the lack of credibility and reliability of contactees and the abductees, and the very few left wing bona fide scientists still defend science at its proper principles, and burn the fires of inquisition for it. Who cares about the truth?

The truth is that only people that lived the personal experience of being a contactee or abductee truly knows and understands the deep scars left on one's personality, mind, and even one's own soul. More than a burden, it becomes a responsibility that one must bear alone since most people aren't able to understand their unfathomable consequences. The lives touched by these outerworlders, changed so drastically by their interaction with them that they will never be the same again.

Of course there are bad apples among the barrel of contactees and abductees, but we must all pay for the wicked deeds of a few? A rhetorical question, of

course. We all know that a good deed never goes unpunished and a bad deed never goes unrewarded. That's life, so be it.

The thing is that I must present yet another class of alien interaction between the usual contactees and abductees, the operative category. Sure, you get the occasional contact and even a seldom abduction, but the way it works is you get instructions for an operation and receive not only the means needed to perform your task but also the proper compensation for your living needs. Far-fetched? Well it is not a job you can apply for. They choose you for it – not so much for your skills – but due to the constant legacy of your bloodline.

All operatives are “generational conduits.” Not every “chosen one” succeeds on becoming an operative. Some people are just not cut out for this line of activities, regardless of their genetic continuity.

Training starts even before one realizes that they are indeed aliens, and when you do, only your performance will dictate your continuity. Otherwise it is “missing time/erased memories” for you. Boom! Automatic amnesia for you. So, I guess I'm still “workable”, since I can remember all these things. The prison time didn't stop the activities. One day I must talk to you about the wonders of a technique beyond remote viewing known as mnemonics – something like “remote existing.” The coolest thing!

Well, this introductory message was to warm up the trans dimensional core engines and to let me spread some data on things that transcend the space and time continuum. Get ready to go beyond the speed of thought.

Later we will talk about the S'hamariath (the ones that one day I knew to be Vegans from the Vega Star System – and boy, that was only the tip of a huge iceberg) and the little grey guys that are part of the so-called Jagarah Collective.

Signing off,

Sincerely
Jefferson

Example Edward Snowden knew about before he fled

Edward Snowden spoke about the case of Jefferson de Souza as an example why he would never trust the US Justice system to treat him fairly. Jefferson de Souza is the Brazilian UFO investigator who has been in a US Federal prison for 20 years under a false identity. Snowden found information about Federal cover ups in this case along with others like it in government databases.

Letters from the Real Jefferson Souza

You've just read a letter from Jefferson that was written to you. Look for more of these that we will get to you in the future. Now below are letters that Jefferson wrote to me.

I've pulled out the parts that I felt would be of most interest to you and printed them here, so if it seems rather choppy, that is why. Jefferson tends to write rather lengthy handwritten letters. And remember, English is not his first language, it's probably more like his third or fourth and I don't want to edit any of it because this is Jefferson and editing would take away from it.

These were mailed to me from his secret underground bunker (supplied by, and all expenses provided for by the U.S. Government) hidden somewhere in the hills of Georgia.

Letter from Jefferson Souza on 9/15/15

Dear Gil,

Well, I think you've done a terrific job on keeping the Blue Planet Project in the loop as you've been doing.

See, there's a lot to tell from my escapades on DARPA (Defense Advanced Research Projects Agency) at Arlington, in your good state of Virginia. They don't have the data-vault on EBEs there. It was like a way to find clues on where the good stuff was.

In the 1980's only Arpanet was running under public view and the famous Rand Corporation was still tunneling the undergrounds of Dugway Proving Grounds in Utah. (Dugway can give a rundown to Area 51 anytime of the day, my friend.)

But, on the files at Arpanet was an interesting passage on "retro-engineering" on what they called "Nanofoam", a very interesting substance bases on Beryllium and some other metal they never have seen before – like a sort of metallic gel substance. It would use gravitonic fields fed by electromagnetic pulses and could produce chairs, tables, or whatever furniture one liked to create. And when one didn't need it anymore it went back to a gooey gel-like puddle condensed on the shape of a cube.

Well, this nanofoam came from a crash site of an "unknown space transporter in the Bahamas near where AUTEK now has their base on the Andros Island. Still a lot more!

The things I've learned Gil... And what about our dear National Security Agency/Central Security Service at Ft. Mead, Maryland?

The ultimate high tech to preserve data: "Memory Crystals" Based on data of a salvage operation over a "crashed" spacefaring small vessel over Piedmont Plateau (East of the Appalachians between SE New York and NE Alabama. Refractive indentations got petabytes of data on... self-repairable polymers! And that was the 80's, a time for floppy disks and other prehistoric computer peripherals.

I never used an ID for G8 clearance because the model you've shown was not available yet in 1996. They had a similar model then, not with the encrypted security chip on top right and the holographic photo of the user on the left. But that's cool.

You need the ID to enter certain security areas at Arlington and Ft. Mead but you only could go so far. The elevator stopped on the bottom at subbasement five and all the good stuff was on the bottom at subbasement twelve. You need another GS card called UMBRA (a black one) to access the lower levels, or you could do as I did, take a black box and go “phreaking”, get access to the network, drop a worm (the “werewolves” are the better, in my humble opinion) and wait till things calm (meaning you must have a schedule of activities and a location map so you know where to go to stay put meanwhile the worm gets on the back of the servers. No big deal.)

Those were the glorious times, Gil. Before the Internet got infested by kids with zits that really think they are able to get into this game from a lousy desktop. If life was only that simple...

To go where I went one needed lots of contacts, cunning, a need for speed, good social engineering skills, access to certain alien tech (this story is for another time), a game face and lots of guts and luck! About 90% luck would help a lot!

I made serious enemies out there. The great invisible government, the greedy Scientologists, a bunch of wacky people called the HRM (Human Resistance Movement – they believe that all aliens are evil (or should I say “ee-veel” as their leader used to say, General Redneck, as I call him) and, of course, the Feds.

So are the Feds part of the Invisible Government? Nope. There are the Spooks – the Feds – and the Shadows (The invisible government, two dangerous groups and equally bad, both.

So why didn't they “erase me”? Kind of put me under six feet down? They've done worse! They stole my identity, stripped me from my country, my past, my life. Then created a B.S. Federal case and lost me within the system without any

means to prove that I am me, not the persona they created as me. And that Gil is a fate worse than death.

Took me 19 years to get my resources back on track and I most of this to my friend J.C. He believed on me and went to investigate things by himself. Soon the web of lies the Feds created fell apart from deep scrutiny. Now the Brazilian Embassy is on my side. I may get a Presidential Pardon by what they call “clemency law.”

A new generation of Shadow Government lurks in the dark. The Feds lost their edge now that the shadows are on a turning point. Besides, they aren’t as powerful now as they used to be before.

If they go after me for disclosing above UMBER Clearance information I would say to them: “So, you do confirm the full existence of the Aramis Program and the ADR database, no? I don’t believe they can do that. (The Code Aramis III and ADR3-24SM classification as carried by your Blue Planet Project Book.)

Not even Obama knows what some of these government entities have been doing for the last 60 years or so.

Besides, only three of them took the serum and two of them are over 100 years old even if they are still looking like they are in their 60’s. The younger of them is in his 90’s for sure, but looking in his 50’s. Of course alien DNA can do these things to you... They had the nerve to pass as their own children to avoid unwelcome questions about their age and their unusual healthy appearance. This is a long story my friend.

I faced starfarers eye to eye. I’ve seen the wondrous, the fantastic, and the horrendous. I’ve sweat tears and blood on my face. I’ve lost everything anyone would hold dearest, and looked into the abyss and it looked back at me.

I’ve been 20 years incarcerated. Prior to that six years moving between continents in a lethal game of hide and seek. It’s the stuff of movies or perhaps even comic books. But it was, it is real, Gil! That’s my life – the things I’ve found, the things I’ve lost, and the horrors and marvels in-between! I’ve been silenced for too long... I need to speak to the World!

So, how I got my information? Just from the government? And do you think the government knows that much about the starfarers? They only know what the

aliens allow them to know. And what I know I've learned from other aliens. You might say I am part of their plans... the Vegans. I've learned that the Vega Star System is not even their home world. Vega system is merely outposts on the order of a vast territory. The aliens are the S'hamariath, a group of civilizations united on a guild for the sake of a proper word. And there are a bunch of other groups, federations, swarms, collectives, confederacies, you name it.

It's so much to tell – Over 150 civilizations divided into subgroups and Roque batches. None of them has autonomy on Earth. Earth is a sanctuary world. One of the few the so-called consortium of mega-powers that protect preservation planets, like ours, and controls it.

But not because they are selfless. They aren't exactly selfish, but there's an agenda behind all this – the nature of the human soul. Nothing to do with theology or new age. Has to do with the ultimate evolution. We'll take a look at that at another time.

By the way, originally the Blue Planet Project was not meant to be a book, it was the title on the folder containing my field notes. I was thinking of writing a book about it but things happened and I vanished for 26 years. Glad someone followed up on it and created the book. Like an old friend used to say: "Black holes happen you know!"

Gil, you've done a terrific job with the books, I'm grateful to you for keeping the torch lighted. You're my voice out there!

And there's the story of my life, from the south of Brazil to the World, moving among continents, making friends and foes and lots of waves. 2016 will be my return to the free world.

Sincerely
Jefferson

Letter from Jefferson Souza on 9/30/15

Dear Gil,

I am beyond justifying why I am incarcerated when I have a defense website out there with huge worldly traffic and people crying out loud about the injustices done to me. The difference between one that is accused of similar crimes (and even falsely convicted of) and an “ethical hacker” is the knowledge he or she has about certain matters beyond national security and the ability to keep powerful allies as a useful “ace-in-the-sleeve” that guarantees you will not be “suicided” or “accidented”. And for the last twenty years I’ve proved literally that “ethical hacker” isn’t a myth, since I am still here against all odds.

Of course I was roughshod, but for the count, I proved to be rougher than them. I might bend, but I didn’t break. Hence yours truly is writing this letter to you now. Besides, the difference between successful people and others is how long they spend time feeling sorry for themselves. I have no time for sorrowfulness. I’ve kept my network fully operational to keep me posted and I have my own secrets on how I might obtain the unobtainable. Our growth as an evolutionating species depends not on how many experiences we can devour, but how many we can fully digest. I come to leave my mark on the World!

Regarding the “Blue Planet Project Lost Chapters Book:” The medical doctor that had reviewed my information on “Alien Pharmacology for Humans” regarded them as “Star Trek Drugs” and he wouldn’t be wrong on that.

More info on the Lost Chapters book can be found here:

<http://www.blue-planet-project.com/Blue-Planet-Project-Lost-Chapters.html>

You know the story of Star Trek? Well, I never imagined myself that a sci-fi show would have the connections with true alien affairs as I’ve come to discover later on.

Gene Roddenberry, the creator of the show, was said to be a man way ahead of his time. And he was. What people don’t know was that Roddenberry regarded the alien matter very seriously, he himself was a contactee! Remember that all things like sci-fi props at that time became the reality of today.

Their communicators turn into cell phones. Their phaser beams into the scalar weapons. Even teleportation was already done by M.I.T. of one laser beam teleported successfully from one lab to another. The replicators became the 3-D printers and the holodeck the immense gravitational/electromagnetic field virtual reality environments of the NSA, DIA, and the U.S. Space Command.

As the U.S. Space Command is the equivalent of their Star Fleet (that isn't interstellar yet but surely is full-functioning orbital.) Even Star Trek's Federation was based on the concept of the consortium.

Do you know who produced the original Star Trek series? Desilu Productions, Desi Arnaz and Lucille Ball. So I will follow the tradition of a sci-fi show supposed to be fake science, that indeed was built on real alien knowledge. And so many other shows were being used for preemptive disclosure (like "Close Encounters of the Third Kind" on which Prof. J. Allen Hynek appeared in it as an extra and was the French researcher Jacque's Valle' as the main government character, serving the contactee himself.)

The drug information in the Lost Chapters book is the real deal and was taken somehow by someone somewhere over at the Los Alamos underground site. And yes, it was mentioned several times on Star Trek shows, but also given to pharmaceutical industries on the end of 1950's after their "acquiring it." Star Trek aired in mid-1960's.

You would be amazed by the quantity of sci-fi books, movies, TV shows, and even comic books that are based on a reality involving aliens that were mingled in those shows. So, if someone tried to be a whistleblower, this would make sure that no one would give credit to him or her since it was already publically labeled as "fantasy." Devious brilliant people these Feds. Besides, as I've said, people do not think by themselves.

I never mentioned that before to avoid being sued by the Roddenberry family that, even while enjoying the money from Star Trek royalties, do not enjoy controversies about the late Gene. Oh, well.

But think about it, the first space shuttle was to be called the USS Arizona, but was changed immediately to USS Enterprise! And Roddenberry, when he died, was the first man ever to have his ashes thrown into space by a space shuttle! Coincidences? You tell me.

A show that just lasted two or three seasons became a legacy that conquered time – half a century and counting and spawned several spinoffs of Star Trek: The Next Generation, Star Trek: Deep Space Nine, Star Trek: Voyager, and Star Trek: Enterprise. And also the ongoing movies that always find a way to be Star Trek reborns.

Look to the last two incarnations of Star Trek movies – became box office hits twice! So I'm proud of Blue Planet Project's link to Star Trek! All controversies are good, right?

Gil, my next project is going to be an international initiative and virtual community to be known as "EARTH STATION SEVEN." So far I have a ground-base to establish it in Brazil with follow-ups in Germany and the Philippines. I'm expecting to return to Brazil by mid-2016. There will be volunteers, Internet researchers, and moderators. Earth Station Seven will be dealing with alien-related affairs, paranormal, cryptozoology, and ecological matters.

By the way, NSA's 20 trillion transactions "acquired" from phone calls and emails could only be possible on secret quantum computers. It's the dawn of the neoneuron gel pack circuitry and the fall of the integrated circuits and motherboards!

And now DARPA's Project Looking Glass is developing a trans-dimensional window to the multiverse!

Will the day come when people are jailed for meddling in Alien Affairs? By doing that they would have to admit, publically, the existence of extraterrestrials among us. And do you think the Government is ready to do that? Nope, they aren't.

Bit by bit the truth is getting out there. So, on top of all that, the X-Files have returned – Do you remember how popular they were? Well if aliens always were a hot topic, soon they will become even hotter, and there's not much the Government can do about it!

Sincerely
Jefferson

Letter from Jefferson Souza on 10/26/15

Dear Gil,

Regarding the mention of Great Britain:

I have been corresponding with The former D.O.D. official, Nick Pope since my time at the Ft. Devon's B.O.P. Prison Hospital and he sent me some of his books. I had some memorable moments in the United Kingdom. I must write a book on my undertakings there.

The debunkers of the Blue Planet Project can say what they want but none of them (save my dear departed friend Col. Wendelle Stevens, Bill Cooper and a few others like Bob Lazar and John Lear, and others) tried to openly put the truth on the public. All have been demonized, as well. The poor late Col. Stevens even went to jail himself, as I am right now, because of the wrathful vengeance of the powers-that-be.

When others were "erased" I and very few others, covered our backs to make it impossible for them to resort to lethal options, or the consequences of such harsh and unwise actions would provoke a full open knowledge with proof of their wicked doings with and on the behalf of outerworlders.

What proof is this you would ask? Well, if I would tell you I would lose the ace-in-the-sleeve that kept me alive for all these years and the many years to come. My discretion and secrecy is my bargain with the devil to be able to continue to exist. Survival is a powerful motivator for secrecy.

They tried to suppress the Blue Planet Project in its beginning, but failed.

Sincerely
Jefferson

Letter from Jefferson Souza on 10/19/15

Gil,

Believe me, when you resurrected the Blue Planet Project and my name, it was not a joy and happiness to the shadows (invisible government) and the Feds (the official government). They were sure the Blue Planet Project was put to rest for good. And they thanked their fate that no one actually, truly understood the potential that the Blue Planet Project could unleash.

It revealed too much of what is supposed to be truly secret. And, even when people accused it of being a hoax and such, they secretly pray that most people think of it as such. The data is far too revealing, and far from anything ever published before on this subject.

Even the UFOlogists here in the U.S. are afraid of the Blue Planet Project because of the Feds.

But after twenty years, a lot changed Gil. A new generation on inner-power came into the game and even liked that the truth started to be leaked by the Blue Planet Project and from my other notebooks and started to be revealed to other authors out there.

Things are changing very fast and the powers-that-be know it.

These are the glyphs that appear on the Blue Planet project cover:

Since they have puzzled a number of people, let me explain. They read: “Planet Blue” and the anterior glyphs say something like: “Plan, Design, Layout, Proposal, Profuse (or Plentiful), In other words: “Profuse Blue Planet Project” on which I only kept the Blue Planet Project part.

As to why Amazon.com temporarily pulled the plug on your listing of the Blue Planet Project, it was due to the hasty response of the powers-that-be on having their secrets thrown into the public light just like that.

It was about February 2013 that I got a visit by a “spook” posing as an agent of the National Security Agency asking why I was **meddling with stinging wasps again**.

(Note: “meddling with stinging wasps again” is most likely referring to the listing of a printed version of the Blue Planet Project by someone who didn’t want to be identified. It was first listed in February 2013 and dropped several months later. It was in September 2013 that I (Gil) came out with a printed version based on the original version and listed it on Amazon.com till it was banned by Amazon in December then it was allowed to be relisted a few months later.) If the Blue Planet Project is just a hoax, as some folks have claimed, why would the government be so upset by it?

And it was when I was moved from Ft. Devon, MA to D. Ray James in Georgia from a full-fledged B.O.P. installation to a private GEO group Immigration Facility, with a Federal contract, that I was told to be ready for some good news. That came in 2014. Part of the Clemency Act Initiative that Pres. Obama would give me a Presidential Pardon. I received the paperwork from the officials, now I’m waiting for it to go into effect.

The so-called “Yellow Book” referred to in the Blue Planet Project, is **not** a printed book. It is the code name given to the reports of personal data from aliens in captivity. Also, I knew Bill Cooper and even Bill English, both sacrificial lambs for the powers-that-be. Bill Coopers “Behold the Pale Horse had a lot of info that was very important, but he should never have gone up against the IRS. May his poor soul rest in peace.

I met Bill Cooper in Ft. Lauderdale, at a meeting with a “deep throat.” The deep throat didn’t make it either. One can’t be nosing around Andros Island’s AUTEK without insurance. Those people are nasty as are the ones at Utah’s Dugway Proving Grounds.

Jefferson*

Letter from Jefferson Souza on 11/1/15

Gil,

Greetings again. I'll soon be explaining how I came to meet the S'hamariath (Vegans) and how I got some of the data I've "acquired" from places that should not have been "officially existent" and my beef with the powerful Church of Scientology in relation to mind control and outerworlders.

Just to let you know, David Miscavige is the supreme leader of the "Church", and the Sea Organization, the private army of these fiends. You need to discover the truth about the happenings in Clearwater, FL, the Scientology's town and the secrets of the Golden Base, their desert retreat/stronghold over the vast scrubland East of Los Angeles and West of Palm Springs, near the town of Hemet, there you shall find a literally top-secret facility monitored constantly by security and attack dogs and electrical fences to protect the heart of the Scientology Empire.

The thing is that no one knows who or what was behind the whims of the late sci-fi writer and founder of the Church of Scientology, Lafayette Ronald Hubbard. I intend to write a book about my findings about it. I know them because I was a victim of them. And as far-fetched as it might seem, these people are deadly and as vile as they come.

They are everything but a bunch of wackos. They are a well-organized structure exceeding in intelligence and tactical programs with a budget of billions. But they do have an enormous Achilles Heel flaw that happens to be of my knowledge, fortunately, I am out of their reach. I can denounce them, but just up to a point. To exceed this limit would be disastrous for me as well as them. I only can tell you that aliens are involved in this issue. I can tell the truth about Hubbard and Scientology but I can't tell the details nor the outcome of it.

I have so much more to reveal about secret government programs. And I'm not worried about the reactions of the DARPA and NSA because Feds are extremely predictable. But even they know that it is better to ignore the issue than having to explain their "wet works program" (elimination) to the public view. Americans killing foreigners just because they know too much may be acceptable, but Americans murdering Americans for the same reason is devastating. And having

names, dates, places, all the details is proof and always a good health insurance policy. They leave me alone; I leave them alone.

So **why accept calmly 20 something years of jail**, reputation ruined, and loss of identity and past? My life is worth way more than that. Besides, even in prison I never stop doing my job. Let them think they are victorious.

Regarding **the Anunnaki**: They are relevant because they had a small part to do with our making. But they are not our creators! They served their purpose by serving the Creator in adjusting the last details. They were mere living tools used by our creator. Or so, the Babylon's truly believed in such things, even though they were polytheists. Later I will let you in on what I have learned from these starfarers and what data we consider as veracious in my little circle of dedicated researchers.

Accessing other intelligences through molecular consciousness is a lot easier than you may realize. Molecules of living organisms are in a constant state of communication, sharing and transmitting information both as at the intracellular level as well as across vast distances – data translational control, it is called the basic neurobiological principles of sending and signaling data acquisition. Once dealing with outerworlders, something of them gets in you!

Sincerely
Jefferson

Letter from Jefferson Souza on 11/11/15

Gil,

I just want everyone to know that I am no saint, who is? I've made mistakes. I've walked the path of the shades of gray. I have chosen to stand alone and face bogus charges rather than accept their offer of a shorter sentence to admit to an infamy of lies! The torch was taken by other brave souls and the message is still spreading out to the World!

Aliens are definitely real! People look for them in the skies and interview witnesses, but the truth is the aliens walk among us, disguised as us and unopposed by most people, but not from me!

I already knew something about the outerworlders since my boyhood, by my experiences with them.

The Blue Planet Project was **made from my field notes** of what I had learned and even things I could not quite come to understand. And meanwhile I was waiting between assignments, I kept busy recording what I could remember.

Nope, I'm not a scientist and I never worked (willingly) for the U.S. Government. Clearance Credentials were given to me by more powerful sources than the Feds. The **relations between aliens and humans** are much more complex than one can imagine. The money that kept me moving came in cash, no financial trails left behind.

It was claimed that the Blue Planet Project was written by a government scientist who leaked the information. Actually there **never was a single scientist** leaking things out there. There were several! Some of them ended up erased (killed) and others were put in stasis freezers (don't even ask) and others were fallen by unfortunate accidents.

My wonderful late friend Lt. Colonel Wendelle C. Stevens and his good friend sergeant Major (ret.) Robert O. Dean knew their share of what was going on, up to a point.

I lived in Tucson, AZ when I and Col. Stevens went on our journey to the **Panamint Mountain Region** in California to witness the display coming from its underground tunnel complex. Shame the overseers never allowed us photograph those events.

We've learned a lot. We have seen a lot. We have seen good friends die like "Behold the Pale Horse" author **William Cooper**, the persecution of Bill English. Even poor Col. Stevens experienced the "prison treatment."

Now onto the "UMMO" subject. Things aren't as they seem. The **UMMO** was a complex subject with many fronts. Of course there were starfarers from Lumma (or wolf 424), but there were also human factions and the other part of a project called MONARCH. It led to the MK Initiative.

The ominous project MK had several subdivisions as **MK-Ultra** or **MK-Naomi**, **MK-NH** (New Horizons) also used the devious technologies known as **RHIC** (Radio Hypnotic Implantation Control) and **EDOM** (Electronic Dissolution of Memory)

Regular people were chosen (regardless of their awareness or not) to act as living drones writing the UMMO papers to create disinformation on the subject.

The OMAE UMMS (People of Umma) started their own attempt to make contact (Against the regulations of alien overseers) as they were being delt with by alien controllers, their allied North Americans would disrupt any attempts of UMMO to build a true human network, as they've already started with some human subjects.

It was an ugly deal also there were intendent Lumas within this mess. Ribers didn't want to accept that, and continuously defended his position of the Umma being absolutely alien, all the way. He was right, but only in part. Humans had a great deal in this, as well, due to their own reasons. But nevertheless, it was an alien affair in its roots of course.

1991 and in Tucson I was getting ready for the UFO Conference titled "Extraterrestrials are Visiting Earth" With one day till its opening, I was still working on my notes for the "Blue Planet Project." I didn't need to be precise on details since it was made to aid me to not forget what I've learned.

Sgt. Major Dean was kind of impressed with the contents of the Blue Planet Project' notes. Well, they were just notes. He confirmed quite a of the things in it. And a lot more he had never heard of before. Good, it was supposed to be like that.

There are so many things that I never had the opportunity to do with the Blue Planet Project notebooks. It amazes me that even now outerworlders are still an issue regarding their existence! Today the majority of humankind still proclaims that they are the only source of life in the whole Universe. Even when they secretly hope that someone or something is also out there. But within this denial of existence of outerworlder life forms, there are programs officially sanctioned (or otherwise) still seeking for what they know is unavoidable and absolute – Extraterrestrial lifeforms are real!

And they are not just about to reveal themselves to the public yet. There are dangerous and deadly variables, civilian and military, that would make them not want to reckon with, otherwise, there would be consequences, of course. Hence the persistent denial of it. Because what you don't know is out of your mind. But for the rare people that do know, those privileged ones know of wonders and horrors. Because among the morsels of the elsewhere, also come the weight of knowing the threat that would change our lives forever when it comes.

Humankind lives on innocence and of the disinformed and even the ones that suspect, but do not know it for sure. Sleep easy without the knowledge of the power plays that the shadowy inner-governments play against themselves and these offworlders...with humankind amid it all.

Extraterrestrial (and related outerworlders) biological entities do exist and are visiting Earth, and have been even before human beings came to be. Do you want proof of it? Reach out beyond the closed protective walls of the skeptics and above the naiveté of the believers and really look without any prejudice or personal gain and you will find that any genome research will tell that there is much more about the human genome that they dare not reveal!

Cannot reveal because of its inconceivable relations between humankind and the natural selection of life on Earth and the incontrovertible knowledge of genetically manipulation upon our genotype mold. Who would dare to admit that publically and face the scorn from it? People would rather take the way of the ostrich and hide their head underground until what bothers them goes away. But if it isn't so, well, we can imagine the outcome of it, no?

Then came the **Blue Planet Project notebooks** that were turned into the book. So what is the reason for the book? Why? – To share knowledge (but up to a point, there are limits for it). Because if I went ahead and revealed everything, I

would not only be a fool, but I would be a targeted fool. So, I'll say it without really saying.

Take Blue Planet Project as you please. A story, a legend, a joke, whatever makes you happy. It's all "off the record" here! Fiction? You'll be the judge of it. And certainly, if one investigates these stories, they would surely surprise you. So, skeptics, hold your "swords of truth" and believers, don't just believe, but go look for yourselves and make sense (or not) of what you might find.

I'll not deny or confirm any of what I've written, officially. But unofficially, I'll say that where there is smoke, there is fire, somewhere.

WENDELLE STEVENS AT THE INTERNATIONAL UFO CONFERENCE

I think back to those times with Wendelle... seated there at the conference in Tucson and listening to all those things people said, it amazes you how close to the truth some people were and how far from it others also were. But what was astonishing was knowing that among us humans, the very aliens are working amid us, looking and acting just like us. And no one noticing those outerworlders at all. But with the human intelligence's interloper agents moving about in their usual fashion as well.

From knowledgeable experts to willing voices in the field of research in extraterrestrial entities, we are all drawing maps in the dark, knowing close to nothing about the very nature of our research. As we all try desperately to find

some sense amid the chaos of **alleged alien knowledge**, we count only with the data provided by meager scientific findings, but mostly counting on claims of abductees. No one is doubting their veracity (at least in most of the cases) but, on their personal interpretation of their experience, especially concerning any kind of information obtained from the offworlders.

Eventually we need to get into my contacts with the Vegans which started when I was a child back in Brazil. This alien, which referred to itself as “One” told me how we were having our encounters:

Most humans do not understand the **nature of the dream state**. There are dreams that are mnemonic and/or psychogenic or psychosomatic. But there are also dreams that involve transconsciousness of many kinds. It was the case of remote viewing and its successor mnemonautics. Mine was a form of virtual consciousness transportation in which it appeared as some sort of dream, but it was a real “virtual” experience.

The Roma, the people called erroneously “Gypsies,” are of great interest to the International intelligence communities working on black budget projects related to paranormal events that could be used as a means to gain knowledge and/or connection in top classified agendas.

The conceptual idea of remote viewing comes from chronicled perceptions perceived as “**lucid dreams**” going back thousands of years. (let’s use the epic of Gilgamesh, from 4700 years past and Roman emperor Augustus’ mandatory citizens dream recordings from 14 A.D. for instance, as examples.)

As in modern times, Sigmund Freud began to wonder about the significance of the dreams. It was his student, Carl Jung, that gave dreams a relevance that they never had before.

The crucial point of hypnotic phase, the very borderline between sleep and awareness, is a Launchpad to remote viewers. Dreams are much more than we give them credit for.

In 1987, Los Alamos Laboratory did research on magnetoencephalography in conjunction with the ORD (Office of Research and Development) and OSI (Office of Strategic Intelligence) decided to dwell on the inner-workings of the human consciousness and its viability of use for intelligence operations purposes.

Using devices like the **SQUID** (Supercomputing Quantum Interference Device) on certain human subjects' psionic capabilities. They used seven channels of frequency connections in order to attempt to enhance mental abilities in them. (A new variant on this subject is the **Project Looking Glass**, phase V which uses over 150 channels with multi-frequencies.

Human subjects, volunteers or not, were an extremely sensitive topic when using governmental budgets for such experimentation, so these researchers kept it "under the table". – No records whatsoever should appear.

The so-called "Proxmire Effect," where the fear that certain U.S. Government research contracts would be claimed to be ill-founded, if involved in certain unusual and/or suspected activities and certainly would be held up to scorn leading to a revision of the validity of such projects,

Project MK (mind killer), MK-ULTRA and MK-NAOMI are examples. Most of them used the awful RHIC (Remote Hypnotic Interface Control) and EDOM (Electronic Dissolution of Memory – also known as "Missing Time") technologies that caused damage to the human brain.

Since the ROMA studies, the S.R.I. International Program openly worked with projects RAPT, GRILL FLAME, and GATEWAY. They were the precursors of PROJECT STARGATE remote viewing.

The next evolutionary step of remote viewing is mnemonautics, transdimensional memory retrieving for mind traveling over the multiverse. There are "made" mnemoauts and there are also natural ones. Both are rare.

I have come across many secrets even though government agencies feel that their secrets are protected in their high-tech digital fortresses, and they may be, but it is impossible to protect the secrets locked away in their employee's minds!

The mission of protecting secrets is now on a higher plateau, consider that secrets may be leaked because people dream! Human minds become interconnected over the sleep-stream. Once one travels this multidimensional continuous flow of distinct minds, once in lucid dreaming one is in reality accessing information from very distinctive sources, human and non-human.

As the spacefarers cannot connect to sleep-stream as good as humankind can, they are amazed and afraid of our innate psionic capabilities.

Outerworlders do possess psionic capabilities (as with telepathy and such) since it merely involves transmission and retrieval of bio-electromagnetic impulses generated by their neural cortexes on something akin to radio frequencies (which are certainly not radiofrequencies). But the very rare aliens reaching the sleep-stream cannot maintain mental integrity, nor complex sentience (as humans naturally can) for long. And the offworlders can only do that by using technologies to increase their limited range of bio-frequencies.

This applies to all, but lifeforms that are non-physical, because they are made of “living energy” and don’t even require the use of technology for anything. That is what made all of them to fall under a single universal rule of contact.

That’s all for now,

Crash Landings of Anomalous Aircraft and Devices

By Jefferson Souza

Several crashed anomalous vessels of unknown precedence are said to be of extraterrestrial origin. Such objects and vehicles are also reported as having passengers on them as well. From these events certain knowledge is believed to have been acquired from them.

Everything we THINK we know about alien life forms came from leaks of the black budget projects and what people heard from witnesses of certain events, besides what contactees and abductees tell us. All nice and neat and fitting an obvious pattern. But what if **people were deceived** by a psychosocial strategy that takes us from the right path and was designed to mislead us to a totally distinct one well away from the factual things?

Because in our eagerness in trying to understand the strangeness that seemed non-understandable, we chose to believe on the simple thing that SEEMED to be backed up by the information given by the outerworlders themselves.

Do these highly advanced beings really allow their technologies to simply fall into the hands of mercurial, passionate people such as humankind? Or allow the secrets of their genetic make-up to be learned and perhaps even manipulated, once in human hands? Do you allow children to play with an atomic bomb or extremely dangerous biochemical hazards?

Even starfarers are under the effects of entropy. But with advanced science also came advanced precautions. These alien sentient lifeforms did not journey only between star systems, but also between dimensions, as well. And will not just crash here like a careless driver on a bad day.

The theory states that 99.9% of the “crashes” are STAGED. Only about 0.1% were regrettable accidents. But when those kind of crashes do happen, these groups of civilizations would do whatever has to be done in order to retrieve the crashed vessel or device and making sure it will be absolutely obliterated at molecular level. Why only this meager 0.1% of crashes? Because all the other 99.9% are provoked crashes. Each one of them is a carrier of some kind of TROJAN HORSE!

How come? The best way to infiltrate a highly-secured human facility is to let us bring the offworlders inside, willingly. The crashed vessels are nothing but ancient junk to their standards, but very advanced technology to us humans.

Even the aliens (dead and alive) found in the wreckage were nothing but fabricated biodrones. They will never risk the secrets of their genetic make-up to fall under human hands, because to know these species genes would give empowerment to us. The EBE amalgamations are nothing but chimeras made to confuse, not to inform.

The objectives of these charades are for them to be inside the facility. Very self-reliant and devious. Some form of nanites with yochto-capabilities (a yachto is a power of measurement of 10^{-24} that allows them to pass between molecules in small clusters and replicate once in anti-contained area. The nanites are hidden along the atomic structures of the atoms of the device and/or the molecules of genetic material of the EBEs.

Why not infiltrate from the outside if they can trespass atomic structures? Because they cannot pass through energy fields, a contained space, nor bond effectively with human atomic structures due to an incompatible field of molecular integrity.

More to say on this later.

*Sincerely
Jefferson*

SpacePort Under Death Valley

In one of his letters to me, Jefferson mentioned exploring caverns under the Panamint Mountains in Death Valley with his good friend, Wendelle Stevens, so I wanted to share this article with you to give you a little insight.

"One 'contactee', incidentally, has stated that a large 'space port' does in fact exist in a network of caverns deep below present-day Death Valley.

In reference to this we will quote from a 'synopsis' of the experiences of Brazilian 'contactee' Jefferson Souza, as it appeared in a catalog put out by the UFO LIBRARY in Studio City, CA. Many of the individuals referred to in this catalog, which offers taped interviews or lectures describing their encounters, are either 'contactees' who have had friendly encounters with the so-called 'Nordic' or human-like beings who pilot many of the 'alien' craft; or who have been 'abducted' by the more manipulating and predatory 'Gray' or 'saurian' entities. Quoting from their description of Mr. Souza's experiences:

Reaction to the first sighting of a UFO is unpredictable. Jeff Souza had his first contact in 1979 when he was only 13. The memory of it was tucked away in the

recesses of his mind. Twenty alien contacts during the next 10 years never fully restored the image. But those years were filled with excitement that would result in one of the most inspirational stories of alien contact ever recorded.

The young Brazilian was possessed of intelligence and intuition. He studied and managed to complete one semester of medical school before giving up his formal education.

In contact with two races of extraterrestrials, Jefferson has met them in Brazil, Argentina and the United States. But where they occurred is unimportant when compared to the depth and scope of what he learned.

The gentle VEGANS and the business-like UMMITES taught Souza more than he could ever imagine about technology and life on all planets. He was transported aboard a spaceship by LIGHT (anti-gravity rays?) and taken to other planets and (other) parts of the world. On one such trip he suffered an unusual reaction - all his hair fell out. His watch broke at every contact.

Jeff Souza has been questioned by experts in the field of alien contact. He has been clinically regressed through hypnotism to the time of his first contact but the answers came only in Portuguese. At that age, Jefferson could not speak English.

The details he has learned are awe inspiring. Answers to questions about time, space, matter, energy, life and spirituality easily rolled from his tongue. All prompted by the alien contacts of his past and present.

His interview and the recorded details of his many physical contacts PROVIDE HITHERTO UNKNOWN INFORMATION ABOUT SEVERAL ALIEN RACES INCLUDING THE MYSTERIOUS AND THREATENING GRAYS. FROM JEFFERSON SOUZA WE LEARN ABOUT THE SEVEN RACES (possibly humanoid and/or saurian), THE ALIEN NAME FOR EARTH, A SUBTERRANEAN SPACE STATION IN DEATH VALLEY AND IF AIDS MIGHT BE CURED BY ALIENS.

There is a final precaution from his contacts - we must all learn the lessons given to Jefferson Souza because we are destroying our planet and if we don't change, not even the friendly aliens will be able to save us.

We see here then a definite connection between the subterranea of the Death Valley region, which is reportedly inhabited by the neo-Grecian (?) Hav-musuv

and the human societies of 'Vega' and 'Umno', which as we shall see later on, according to other contactees, are "Federated" with other human colonies or civilizations in Tau Ceti, Epsilon Eridani, Alpha Centauri, the Pleiades and elsewhere.

Although Jefferson Souza claims to have encountered the Umno People in landed craft, the Vegans are the ones who allowed him to travel on their craft most often. It was also the Vegans who showed him the MASSIVE basing complex below Death Valley, which contained chambers miles in diameter and numerous compartmentalized sectors which had been adapted to meet the gravitational, atmospheric and environmental needs of the various Federation world representatives who use the base as a way-station for their operations on earth. Apparently the Hav-musuv have been VERY BUSY for the last few thousand years, according to Souza's account.

In addition to the above, Souza learned of two other alien species that are in conflict to some extent with the humanoids with whom he maintained contact. One of these includes an "Insectoid" type race, while the other is reptilian. The latter consists of a tall, very reptilian-saurian appearing "master" race to which the shorter reptilian "Greys" are subservient. There are at least three types of "Greys", according to Souza: those that reproduce via egg-hatcheries, those that reproduce via cloning, and those that reproduce via polyembryony.

Secret Intelligence Files of Jefferson Souza

The following information was released by Jefferson Souza, a contactee who has had repeated encounters with the Vega Lyrans, who according to Souza are similar in appearance to the "dark skinned Orientals" of India. Souza also claims contacts with Scandinavian-appearing humans from Iumma or Wolf 424 [the 'Ummo' people]. Both cultures utilize a huge 'Federation' base located within a vast system of caverns deep beneath the Death Valley - Panamint Mts. region of California. In fact, several federation groups utilize the base according to Souza, which contains whole areas specifically conditioned with the various gravitational, atmospheric and environmental conditions necessary to meet the needs of the various Federation visitors and dignitaries.

The Paihute Indians of the southwest U.S. claim that a Greek or Egyptian-like race first colonized the massive caverns within the Panamint Mts. thousands of years ago [one source claims the base was established around 2500 B.C., which is incidentally about 600 years following the beginnings of the rise of Egyptian

intellectual culture] when Death Valley was part of an inland sea connected to the Pacific Ocean. When the sea dried up these people -- who were described as wearing flowing robes draped over one shoulder, head-bands holding back their long dark hair, and bronze-golden skin -- out of necessity began to develop their collective knowledge and intellect and soon afterwards began to construct "silvery flying canoes". At first these flying machines possessed wings, were relatively small, and flew with a dipping movement and a loud 'whirring' noise. As time passed the ships became wingless, grew larger in size, and flew ever more smoothly and silently. Eventually these people, the HAV-MUSUVS moved their civilization into still deeper caverns which they had discovered farther underground, and commenced to explore the nearby planets and eventually other star systems as their own technological explosion began to refine every aspect of their society.

These Hav-musuvsvs have apparently had interplanetary or interstellar travel for 3000-4000 years since they first developed their flying machines. Could they have been one of the many native-terrestrial "ancient astronaut" civilizations which apparently had colonized Lyra and other systems? The story of the Panamints was related by a Navaho Indian by the name of Oga-Make, who in turn heard it from an old Paihute medicine man.

What about Souza's reference to the Vegans, who are similar in appearance to East Indians? I believe that India is a major key to understanding our planet's lost history. The ancient Vedic texts speak of flying ships called "viminas" as well as nuclear technology which was utilized by the ancients there. Hinduism itself arrived in India as a result of the Pre-Nordic 'Aryan' invasion from the North [the Gobi region?]. Some researchers insist that the Mayas AND Egyptians were originally navigators from India, possibly explaining the similarity in architecture and their advances in medicine, astronomy, mathematics, and so on.

Swiss Ethno-archaeologist Yves Naud also quotes from ancient Indian texts which state that the leaders of ancient India later collaborated with secretive Grecian intellectual societies in the development of aerial ships. So then, the "Hav-musuvsvs" may have been representatives of any one of these cultures [Nordic-Aryans, East-Indians, Egyptians, Mayas, Greeks] or a combination of cultures. However, one thing is certain, only a VERY SMALL portion of the true history of planet earth, as of this writing, can be found in the standard historical textbooks.

Alien Involvement in Earth's Recent History

By Jefferson Souza

1934 -- The first 'deal' or interaction with the Grey entities occurred on July 11, 1934 on board a naval ship in Balboa. It was here that the agreement was initially made [between aliens and representatives of the 'Bavarian' Illuminati operating within U.S. Intelligence 'fraternities'] that let the greys proceed unhindered with the abductions and cattle mutilations.

1950 -- In December of 1950, a unit called IPU, "Interplanetary Phenomena Unit", was established. It was an operational unit to deal with the ever-increasing scenarios of crashed disks and aliens. That same month a disk crashed in the El Indio-Guerro area of Mexico and was taken to the AEC facility at Sandia in New Mexico. Also in 1950, the revised edition of "The Effects of Atomic Weapons" prepared by the AEC advises "complete underground placement of bases is desirable" and "there are apparently no fundamental difficulties in construction and operating underground in various types of important facilities".

1958 -- In 1958, International Geophysical Year, expeditions were made to the poles in order to again assess the problem of the Germans, as well as the threat from aliens of different character that were detected as coming from inside the

Earth. Work continued on Alternatives 2 and 3. Use of the 'Orion' method of hypnosis, used on government workers in high security areas, begins.

1959 -- In 1959, the RAND Corporation held several conferences on Deep Underground Construction. These conferences were attended by the various military services as well as large corporate construction firms like Bechtel. Underground construction projects began within a year. Existing underground facilities were beefed-up and new ones were started. Funding for government underground facilities comes from "Presidential Shelter" funds, as well as covert drug operations conducted by the CIA under the orders of MJ-12. This procedure appears to be still in effect as of July 1989. Over 75 underground facilities have been constructed under various programs.

1963 -- In 1963, John F. Kennedy evidently issued an ultimatum to MJ-12, and they decided that Kennedy should be subject to an expediency -- killed. This was the era when the United States first started having its own operational disks. 1963 is the date of one of the earliest visits to an underground joint base by an abductee that came back and lived to tell about it. It is the first hint of the underground breeding facilities that are described in the Dulce Papers, events surrounding Paul Bennewitz and Thunder Scientific Corporation in Albuquerque, New Mexico, and other insidious experiences that have been reported by scores of people from 1963 to 1989.

1964 -- In April 1964, Cape Kennedy radar technicians track disks in pursuit of the Gemeni capsule. On April 15, two intelligence personnel meet under Project Plato with aliens in the New Mexico desert to arrange a meeting on April 25 at Hollaman AFB, New Mexico in order to 'renew' the treaty in a psychological bid to buy time in order to solve the problem of the Greys.

1972 -- Scientist Rene Hardy, also a prominent Ufologist, is found dead; an 'apparent' suicide... In December, astronaut Edgar Mitchell admits that NASA has provisions for encounters with alien lifeforms.

1978 -- IN September 1978, scientist Paul Bennewitz discovers the activities of alien craft at Manzano Weapons Storage area outside of Albuquerque, New Mexico. Bennewitz submits a report called "Project Beta" to the government and is put under observation. He was allegedly subjected to three bouts with

electroshock treatment starting in 1979, then was left to be observed by both the government and the aliens with whom he had been communicating through his computer equipment.

1979 -- In 1979, a conference on animal mutilations was organized by Senators Harrison "Last Man on the Moon" Schmitt and attended by Scientist Henry Montieth, who had just completed ten years of research on the subject. According to Schmitt's figures, economic losses from the mutilations totaled over 2.5 million ANNUALLY. "Men In Black" are also in attendance. In October 1979, an altercation takes place between government scientists and military personnel and the resident aliens in the Dulce base. Sixty-six special forces personnel were killed.

1980 -- In May, 1980, disks intrude again into the Manzano Weapons Storage Area in New Mexico. On August 8th, a disk was discovered by a Sandia guard next to a building containing HQ CR44 [nuclear materials]. On August 9th, a security officer checks down Coyote Canyon Road and discovers a disk. By November 1980, researcher Paul Bennewitz was still being monitored by the NSA.

1983 -- FEMA implements standby legislation in a bill innocuously titled the "Defense Resources Act". The bill would SUSPEND the Bill of Rights, ABOLISH free enterprise, ELIMINATE privately owned property, and generally CLAMP the American people in a totalitarian vise. Section 202 of the bill, for example, allows the President to instantly confiscate any real estate or personal property "that shall be deemed necessary for national defense purposes". Section 501 authorizes the takeover of any industry the White House authorizes. Section 1213 outlaws all strikes. The standby legislation also includes "Censorship of Communications," which allows the president, whenever he "shall deem that the public safety demands it," to censor "communications by mail, cable, radio, television, or other means of transmission." The 'COG' [Continuity of Government] also exists. It is a secretive shadow government that is in place and ready to run the country (from underground bases like the Mt. Weather facility near Bluemont, Virginia. In reference to the 'Executive Orders' authorizing FEMA to violate Constitutional law in time of 'Emergency', we must ask: are these Executive Orders legal? True, many of these E.O.'s were written by presidents who were duly elected by U.S. citizens who trusted the media slant concerning these presidents who came after

John F. Kennedy, in spite of the fact that most of these were members of one-world economic organizations like the CFR, TC, and BILDEBERGERS. However, WHAT IF the death of John F. Kennedy was part of a coup d'etat of the Executive branch of U.S. government as many, including the late Louisiana district attorney James Garrison, claimed? If this were the case then the entire Executive branch might be filled with ILLEGAL appointees, who may have been instrumental in authorizing illegal intelligence agencies, may have illegally given power that was not meant to be theirs over to the military-industrialists, and these elected "Chief Executives" -- many of whom happened to be the hirelings of corporacratist elitists who financed their political and media campaigns -- have violated the very foundations of the United States by establishing Executive Orders which violate the U.S. CONSTITUTION, THE BILL OF RIGHTS, and THE DECLARATION OF INDEPENDENCE. I'm sure that there are still many Americans who see these three documents as being the essence of AMERICA, and they fully believe in the words penned within the DECLARATION OF INDEPENDENCE to the effect that military force is justified, if necessary, to defend from all enemies foreign AND DOMESTIC the form of government that is patterned after the sacred contents of these documents.

1985 -- ON August 5th, Scientist Paul Bennewitz observes the crash site of a US Black Delta ship in New Mexico.

1987 -- In 1987, the "Dulce Papers" are first released. Data on five entrances to the Dulce lab is leaked, and the [secret-fraternal-corporate] government takes care of the leaks by destroying buildings and building new ones in odd locations for apparently no perceivable reason. On the 27th of November, groups of US Army rangers attempt and apparently bungle an attempt to enter a joint alien facility in New Mexico [apparently a continuation of the Dulce Wars which began in 1979]. In December, the CIA begins to contact everyone who was ever in its employ that ever had anything to do with the alien problem. A woman draws a picture of a black-mirrored spherical craft she says belongs to the National Security Agency. On the 14th of December, John Lear offers to host the MUFON Convention that would be held in Las Vegas in July of 1989.

1988 -- Word comes from New Mexico to researchers that Los Alamos has developed an antimatter weapon, which allegedly will be used as a last resort "if the Greys cannot be pried away from the planet". The number of Greys on

[inside] Earth is estimated at 20 million. In December, Steven White [President of Bechtel Investments] dies. Bechtel has been heavily involved in underground construction and is the world's largest construction firm. Information comes forth that the intelligence agencies are distributing drugs to finance alien-related projects, which demand phenomenal amounts of money.

1989 -- Data on Project Excaliber is released. The project is involved in developing a warhead that will penetrate 1000 meters of earth and then detonate. Useful for destroying underground bases.

On May 14, 1989, Las Vegas channel 8 TV televises an interview with a government scientist [Robert Lazar] working at Groom Lake and Dreamland. The scientist openly tells of nine disks on the Nellis range; three of them are operational; the craft use antimatter engines; the Soviets were involved only up to a point. He won't talk about the aliens. Subsequently, the government scientist discovered that he has been the victim of a method of hypnosis known as "Orion Hypnosis". His life is threatened and his car is shot up in Las Vegas.

On June 30, July 1st and 2nd, the MUFON Conference occurs in Las Vegas, Nevada. William Cooper, John Lear, William English, and Don Ecker speak to an enthusiastic crowd. The day before, on July 1st, William Moore and a disgruntled audience have a shouting match with each other. The audience is astounded when instead of the issues at hand, Moore uses his time to attack other researchers, specifically Paul Bennewitz. William Moore publicly admits he works for a government intelligence agency.

On August 7th, US NEWS AND WORLD REPORT publishes material on "Americas Domsday Project", detailing over 50 underground facilities that are for use during time of crisis.

In September 1989, SEVERAL west coast radio talk shows begin avid discussion of UFO's, aliens and interaction with the US Government. The public discussion is now out of control!!!

On September 23, 1989, a two-hour documentary is screened on Japanese television. Viewers are treated to the full spectrum of recent investigations, including underground labs, MJ-12, genetic facilities, the Kennedy murder, the voices of the astronauts on the shuttle talking about observing alien spacecraft, and EG&G scientist Robert Lazar talking about the disks at Groom Lake, and a

visit to Dulce, where residents tell of visits from the CIA. A CIA or MIB type is photographed following the Japanese team. His Colorado license plate is readable.

On October 16th, word comes from researchers that the United States and the Soviet Union had a disagreement on the base on the far side of the Moon in which several US scientists were machine-gunned. This disagreement reflects the split between the US and Soviets detailed in the May '89 disclosure by a government scientist working at the S-4/DREAMLAND facility in Nevada [during which time the Soviets were kicked off the super-technology projects in Nevada and sent packing]. It is thought that this disagreement occurred in 1986 or 1987. [It is uncertain what connection if any this 'altercation' may have had with an alleged Reptilian/Grey take-over of an 'Alternative-2' base on Mars two years earlier in 1985, according to contactee Alex Collier].

On October 25, Congress works on legislation to make radio talk shows liable for statements made by callers in an effort to shut down talk radio programs, where UFO/Alien data is being avidly discussed. On October 26th, William Cooper goes on a radio station in Los Angeles and tells the listening public that President Bush is involved in the drug scene. The FCC attacks the talk show host the next day for "saying a bad word". Researchers speculate that the Secret Service, who allegedly terminated Sal Mineo during Reagan's administration because of an alleged homosexual tape they were concerned about, will seek to eliminate Cooper, that for some reason Cooper has now made himself expendable with this material involving the [former] President.

On November 3rd, researchers announce their discovery that a security team code-named "Yellow Fruit" was started back during the Carter Presidency, and was part of the NSA. It has been periodically disbanded and has existed in one form or another since the Carter administration. Los Angeles radio talk show host Ken Hudnell announces his intention take a group to visit one of the ancient underground cities, which he says has an entrance 60 miles from Anaheim. Researchers discover the passive security frequencies at Groom Lake; 138.306 and 407.550 and that a group codenamed Seaspray is involved with primary security in the area. Security forces then change the frequencies.

On November 6th, Channel 8 in Las Vegas starts a two-week series on Area 51, animal mutilations, and the UFO coverup. On November 10, EG&G scientist Robert Lazar goes on television and tells what he knows about US disk

technology at S-4 in Area 51, including information about 9 US disks, antimatter reactors, and mind control for S-4 scientists.

On November 19th, an electrical worker at Mercury, Nevada, calls the Billy Goodman radio talk show and describes tunnels 3000 feet under the test site that have stainless steel walls and elevators. He also describes small Grey bodies on gurneys being wheeled down the tunnels.

On November 20th, a security guard on the Nevada Test Site describes his contact with a man in black that describes the whole alien scenario to him. The man has transparent eyelids.

On November 20 and 21st, the national program HARD COPY televises two programs on UFOs. EG&G scientist Robert Lazar goes on radio on KVEG for three hours and answers questions over the 50,000-watt station. Another three-hour session takes place Nov. 24th and 25th. Robert Lazar publicizes the name of his boss at Area S-4, tells that 22 people work at S-4, and how antimatter reactors work. Indications are that more people will be coming out of the woodwork to tell what they know up at Area 51.

On November 25th, television station Channel 8 in Las Vegas televises a two hour special on UFOs, Area 51, S-4 and the UFO cover-up. It is revealed that some people who contacted Channel 8 had had their homes broken into in Las Vegas.

During the week of Christmas, 1989, it was reported that there were a series of very large underground explosions in the area of the base at Dulce, New Mexico. A month EARLIER, animal mutilations began to pick up significantly. The last time these two events occurred in this order was when the government first discovered what the Greys were up to and they tried to go in and stop them. Over 60 Delta troops were killed in the process [in the initial military attempt against the base].

1990 -- On February 17, a Ukranian astronomer detects radio emissions near Altair [Aquila], which in ancient times was associated with reptilian creatures (Note: Some contactees speak of an 'unstable' alliance between 'Nordics' and 'Greys' which has existed for a long period of time in the Altair system, as well as references to a large faction of collectist Greys who were in the process of arguing against the continued existence of humans in that and other systems,

which would apparently also include the sovereigntist humans in the Andromeda and Pleiadean constellations It is stated that some fascist human elements operating within the Montauk base at the northern tip of Long Island -- who have an established an agreement with the Greys to bring about a global dictatorship on earth -- were given the 'Stargate' coordinates to generate a time-space window using Montauk technology, directly to a particular planet in the Altair system in order to assist in the suppression of a resistance movement among some of the 'Nordic' type humanoids there.

On March 3rd, Las Vegas UFOCCI chairman Stacy Borland and her brother were brutally murdered while at home. [Stacy was attempting to get information out about a group of Mercury, Nevada construction workers and electricians who claimed that some of their fellow workers had been abducted and were being held captive in a vast underground system there]. On March 8th, the final destruction of the 4th amendment of the U.S. Constitution takes effect very quietly behind the scenes. Now the authorities need no warrant or probable cause to break into a person's home and perform any action they think fit. Suspicion is sufficient.

List #2

This is a brief synopsis of UFO Crash reports and military retrievals from file 23.

1. July 4, 1947 (Roswell, NM) Most famous of the UFO Crash cases and most thoroughly investigated. William (Mac) Brazel, a local rancher, reported hearing a loud explosion during the night of a thunderstorm. The next day Brazel found a debris field on his ranch. Word reached Major Jesse Marcel at the Roswell Army Air Field and he investigated. Marcel reported finding a debris field scattered over a mile. The material recovered from the debris included small beams with hieroglyphics on them; metal that was as light as balsa wood, but couldn't be dented with a sledge hammer, although flexible. The material would not burn. The scrap material was flown to Carswell AFB in Fort Worth. Witnesses have described a second site where the main body of the craft was found along with the bodies of its crew.

2. Oct, 1947 (Cave Creek, AZ) Not much is known about this crash. There is still one living witness in Prescott, AZ.

3. Mar 25, 1948 (Aztec, NM) Though still considered a hoax by most researchers, others have left the door open on this one. A new first-hand witness has been found in Las Vegas. Story is that a large disc said to be 99 feet in diameter came down in Hart Canyon and that a military recovery team was dispatched from Durango, CO.

4. Mar 1948 (Socorro, NM) A second craft came down in this vicinity that was much like the Aztec craft according to an ex-army private.

5. Aug 14, 1952 a disc crashed near Ely, NV, and 16 bodies were recovered.

6. May 20, 1953 (Kingman, AZ) An engineer who reported this event said 1 or 2 bodies were recovered. He rode a bus with darkened windows from the Nevada Test Site to the crash location. The disc was found embedded in the sand and canted at an angle. His job was to determine the disc's trajectory and velocity.

There have been rumors of additional crashes including a controversial report of a South African Mirage jet fighter shooting down a disc over the Kalahari Desert in Botswana on May 7, 1989. There are also reports of a disc crash in Chihuahua, Mexico on August 25, 1974 and one in Megalos Platanos on September 2, 1990 in central Greece. Few of these reports have been investigated as thoroughly as Roswell, but that does not mean they should be dismissed.

An FBI MEMO from March 22, 1950 alludes to 3 saucers recovered in New Mexico. This memo also states that it was believed that a radar station interfered with the saucers' control mechanisms causing them to crash. If that is true, then such a discovery would suggest the idea of a weapon that could be used to bring saucers down.

7. In Beaver Oklahoma crash site (alleged) believed to be the cause or effect of phenomena known as the "Beaver Sands Portal." A supposed dimensional doorway to other worlds first experienced by native Americans of the area, and then white men starting with Coronado's Expedition who camped near the sand dunes. Green light and eerie sensations on the skin mark this experience, along with a small number of disappearances in to the Portal spread out over the last 4 centuries.

List #3

Here is another file of researched crashed disks:

April 17, 1897 - Aurora, Texas

A mysterious airship is said to have crashed in this town, exploding into many small fragments. Reportedly, the occupant was child-size and greenish, and the craft contained papers covered with hieroglyphics. The pilot's body is supposed to be buried in the local cemetery. Although the case was widely regarded as a hoax, new investigation brought to light a peculiar alloy that was eventually analyzed by the McDonnell Aircraft Company.

Dec. 22, 1909 - Chicago

Six years after Kitty Hawk, newspapers from New York to Chicago were astounded by national reports of a huge airship flying across the nation and seen by thousands. It crashed west of Chicago, but was never found. The story was front-page news in the nation's major newspapers.

1933 or 1934 - Ubatuba, Brazil Witnesses on a beach are said to have seen a disc dive and explode, showering the area with silvery fragments of highly pure magnesium.

May, 1947 - Spitzbergen, Norway

A report by journalist Dorothy Kilgallen stated that British scientists and airmen were excavating the wreckage of a mysterious flying ship. The Swedish military acknowledged its extraterrestrial origin and reported 17 bodies were found. The story appeared as a tiny blip for only one day in the U.S. news media before it was silenced by the military. I personally saw this news story years ago.

July 2, 1947 - Roswell, New Mexico

The most famous and thoroughly investigated by journalists, this is the crash that launched Majestic-12. It was the first and only time the U.S. government publicly admitted it had recovered a crashed flying saucer. Within hours, the craft was whisked off to Wright-Patterson AFB and a new cover story emerged, claiming it had been only a weather balloon. In recent years, the officer responsible for that cover story has recanted. Three or four humanoid bodies were recovered; one was alive for a short time.

February 13, 1948 - Aztec, New Mexico

Three radar units tracked a falling UFO. Secretary of State George C. Marshall requested a search party be dispatched from Camp Hale in Colorado. A helicopter team found a crashed 30-foot disc 12 miles northeast of Aztec and recovered 2-12 badly burned humanoids. The disc is stored in Hangar 18 at Wright-Patterson AFB near Dayton, Ohio.

August 1948 - Laredo, Texas

Four officers witnessed the crash of an object and the recovery of bodies 38 miles south of Laredo, Texas, in Mexico. The information came from an NBC affiliate in Chicago, who received it from a source in Army security.

August 19, 1949 - Death Valley, California,

Two prospectors named Mace Garney and Buck Fitzgerald claimed to have watched an object crash in the desert. It was a 24-foot disc. The story appeared on page 13 of the local Bakersfield newspaper the next day.

April 1950 - Argentina

Mr. E.C. Bossa found a strange disc and four small dead pilots in a remote region of Argentina. He returned with a friend the next day and found only a pile of warm ashes. A cigar-shaped object was seen briefly as it flew overhead at a high altitude.

1953 - Brady, Montana

Mr. C.M. Tenney, returning from Great Falls to Conrad, saw an oval object that followed his car while balls of fire fell all over the road. Later that day he was phoned by a colonel from Malmstrom AFB who asked him to come to the base at 10 a.m. the next day. He was escorted to a windowless room inside a fenced-off compound and asked to sign a statement. While doing so, he says he saw two men carrying large laundry bags containing humanoid bodies.

May 21, 1953 - Kingman, Arizona

A USAF veteran claims to have participated in the recovery of a crashed aluminum-like disc impacted 20 inches into the earth. It was oval, 32 feet wide. Inside were two swivel chairs, an oval cabin and numerous instruments. One 4-foot-tall occupant was recovered, dead. It had a dark brown complexion and wore a silvery metal suit with no helmet. The witness' affidavit was released by respected UFO researcher Ray Fowler in UFO Magazine, April 1976.

Mid-1950s - Birmingham, Alabama

When a disc crashed near Birmingham, the area was cordoned off and humanoid bodies were flown to Maxwell AFB, according to a man who claims to have flown the helicopter with the bodies to a waiting aircraft.

Spring 1954 - Mattydale, NY

In this suburb of Syracuse, at 3 a.m. on a Sunday, an information specialist and his wife saw a 20-foot-wide object being examined on the ground by several men who were taking pictures. The next day an officer told them the event was a military secret. Later, police denied the whole incident ever took place.

1959 - Frdynia, Poland

An object was reported to have fallen into the harbor. Divers recovered pieces of shiny metal, which was examined by the Polytechnic Institute and Polish Navy.

Some material was reportedly lost. Several days later a small humanoid was found on a nearby beach; its remains were sent to the Soviet Union.

March 1960 - New Paltz, NY

Local law enforcement authorities captured a small humanoid outside his craft while two copilots escaped. The alien was turned over to the CIA and died 28 days later.

January 1967 - Southwest Missouri

A Mr. Loftin found a 40-inch disc and gave it to the U.S. Testing Company for analysis.

November 9, 1974 - Carbondale, NJ

A glowing object fell into a small lake outside town. Three teenagers saw it fall at 7:30 p.m. on a Saturday. They observed a yellow-white glow under the water that shifted to a point 25 feet offshore. The boys were kept in a police car for three hours while a number of vehicles with floodlights and cranes removed a disc-shaped object and put it into a van. The following Monday, a railroad lantern and battery were recovered from the lake and officials called the whole thing a hoax. Hoax? Or cover story?

May 17, 1974 - Chili, NM

An Air Force team allegedly removed a 60-foot-wide metallic object from an impact area and moved it to Kirtland AFB.

May 6, 1978 - Padcaya, Bolivia

A large luminous object crashed on a 13,000-foot mountain. An expedition of soldiers and scientists was dispatched to the site, but was delayed by bad weather. They found nothing.

1978 - Soviet Union

After a collision with a Soviet fighter plane, a disc-shaped object fell into the ocean off Finland, where it was recovered with humanoid bodies - by a Soviet salvage team.

Are Many of the UFO Sightings Today Actually Ours?

Could most UFO sightings be caused by advanced anti-gravity military aircraft? Anti-gravity technology is here now! The TR-3B for example is triangle-shaped, can move at incredible speeds and is difficult to be detected by radar. Sightings of this unit are increasing all around the globe.

This is not official however...yet

“It doesn’t exist officially...It uses highly pressured mercury accelerated by nuclear energy to produce a plasma that creates a field of anti-gravity around the ship. Conventional thrusters located at the tips of the craft allow it to perform all manner of rapid high-speed maneuvers along all three axes.

Interestingly, the plasma generated also reduces radar signature significantly. So it’ll be almost invisible on radar & remain undetected. This literally means that it

can go to any country it likes without being detected by air traffic control & air defense systems.”

The triangle-shaped aircraft has been shrouded in conspiracy and made famous during the “Phoenix Lights” incident, in which over 700 people witnessed a boomerang shaped object floating in the sky over Phoenix, Arizona.

Governor Fife Symington III requested information from the commander of Luke Air Force Base, the general of the National Guard, and the head of the Arizona Department of Public Safety. But none of the officials he contacted had an answer.

Frances Barwood, the 1997 Phoenix city councilwoman who launched an investigation into the event, said that of the over 700 witnesses she interviewed, “The government never interviewed even one” which may suggest that the United States Military is responsible for these UFO sightings.

Another rumored unit is the TR-6 Telos

The TR6 “TELOS” is designed for use as a transatmospheric, low observable reconnaissance platform with global reach and a long loiter time over target.

Employing active electromagnetic, electronic and visual camouflage it is able to penetrate all currently known defensive systems from trans-orbital height.

The TR6 utilizes five electrogravitic generators for propulsion and is considered a “VTOL” craft not needing a runway. The landing gear is strictly for maneuvering while on the ground. The wings fold for hangar stowage. Currently there are only a handful of hangars in the world that can accept the TR6, with most of them in the US.

The entire airframe acts as a multi-band communications relay capable of directly interfacing with all current US military satellite networks. The skin employs active visual camouflage using a ‘starfield’ lighting pattern along with other active stealth techniques. The TELOS platform is also capable of operating in space as well as docking with military space stations via a ventral docking hatch.
