Respiratory Care Clinic Open for COVID Screening

Ascension St. Mary's & Ascension Medical Group have opened a Respiratory Care Clinic to provide an alternate site for patients exhibiting COVID symptoms to be seen outside of the physician office.

The Respiratory Care Clinic, located at 5810 Gratiot Road in Saginaw, is open seven days a week from 8 am to 5 pm. The clinic is staffed with full personal protection equipment and is capable of in-person assessments of febrile respiratory patients suspected for COVID-19.

The assessment includes blood pressure check, pulse oxygen levels, a rapid strep and rapid influenza collection, as needed, along with a physical exam. At this time, COVID-19 testing is not administered at the clinic.

The assessment allows for evaluation of whether the patient requires a higher level of care or referral for COVID testing (if testing criteria is met).

This is not a clinic for COPD and asthmatic patients who are not exhibiting COVID-19 symptoms.

If you have a patient who would benefit from an assessment at the Respiratory Care Clinic, please call 989-907-8953 to schedule an appointment. [Patients are seen by appointment only.](#)

Please note: Appointments can only be made by physician office staff; as patient demographic information as well as make and color of patient vehicle are required to schedule an appointment.

If you have any questions, please call Neil Combs at 512-826-3693 or Lauren Yaroch, RN at 734-578-6481. Thank you, stay well.
