

Home Learning : Week 1 beginning 30th March

Hello, Year 1! We hope you are all well and enjoying your time at home with family. We are missing you all very much and want to keep in touch with you as much as we can. We have created some learning challenges that you may want to complete to keep you busy. Please note that these are only suggestions and we don't expect you to complete them all, it will be more what suits you and your family each day. We have also suggested lots of website ideas that you can access at any time to continue your learning. Don't forget to keep checking our school Twitter page for updates too. There is also a suggested timetable on the website if that would support you.

Maths: We have been learning about number patterns in Maths. Can you practise counting in twos, fives and tens.

Suggested activities:

- Can you collect objects from around the house and garden and make them into groups of twos, fives and tens. Once you have made lots of groups using the same number can you count how many there are.
- Can you draw around your hand/toes and count in fives
- Can you find all of your socks in your sock draw and count them in twos
- Can you collect find as many 2p/5p/10p as you can and count them.
- Can you use the hundred square and paint 2's/5's/10's <https://www.topmarks.co.uk/learning-to-count/paint-the-squares>
- Can you challenge your child to find the missing number in a sequence for example:

70	60	50	40			10
----	----	----	----	--	--	----

22	24	26			32	
----	----	----	--	--	----	--

55	50		40		30	
----	----	--	----	--	----	--

Counting in twos song - <https://www.youtube.com/watch?v=GvTcpfSnOMQ>

Counting in fives song - <https://www.youtube.com/watch?v=EemjeA2Djjw>

Counting in tens song -

https://www.youtube.com/watch?v=Ftati8iGQcs&list=PLM95cb_Szq3am4n6jJw127QbBIDivZgIc

English: This week in English we would like you to recap over the story 'The Way Back Home' by Oliver Jeffers. We read this book as a class and we created a 'talk for writing' map together to help us remember the words using pictures. Below is a link for you to listen to the story together.

<https://www.youtube.com/watch?v=4nS8w-oCDac>

Suggested activities:

- Can you re-tell the story of 'The Way Back Home' to somebody at home?
- Can you draw your favourite part of the story and write a short caption to explain what is happening?
- In the story there are lots of 'ed' ending words, such as, decided, jumped, wondered. Can you practise writing some words with the suffix 'ed'? Choose one word ending in 'ed' and write it into a simple sentence. Don't forget to use your capital letter and full stop.
- Can you spot any 'ed' ending words in books you are reading at home? I wonder how many you can spot?
- Can you remember the characters from the story? There was a little boy and a Martian. Can you design your own Martian and label them using some adjectives? Where might they live? Maybe you could draw a story setting for them or make one using things around your house or garden?
- Could you write a short story for your new Martian using the story starter, 'Once upon a time...?'

Phonics: Here are some suggested phonics activities you could try at home this week:

- Can you name each of your phase 3 and 5 sounds?

- Can you go on a sound hunt around your house and collect some objects?
- Can you play 'I spy' with somebody in your family?
- Can you practise spelling some of your year 1 common exception words from your homework books?
- <https://www.youtube.com/watch?v=jDvRFLPxPM>
- Please try and read for at least 15 minutes daily if you can. We would love to see what you are reading at home- you could share your books with us through Twitter.

Foundation subjects:

- **Music:** Why not have some wind-down time and listen to some of your favourite music? What instruments can you hear? Do you have a favourite song? We know some of you love to perform, maybe you could put on a mini show? If you have any recycling could you re-use any of it to make your own instrument?
- **Design Technology:** We have been looking at food groups and where food comes from. Could you help your adult to make a healthy balanced lunch one day? You could share your lunch with one of your favourite toys and have a picnic indoors or outdoors if the weather stays nice. Could you try and make your own sandwich or learn to bake something new if you have time? We would love to see your tasty creations over on Twitter.
- **ICT:** This half term we have been looking at how to use a word document. If you have word at home, could you practice typing some simple sentences about yourself. We have been trying to use both hands to type and have already looked at how to use caps lock, the '?' and '!' keys and how to delete/edit text. We have also discussed how to change the font, size and colour of text. Once you have practiced these skills you could send us a virtual postcard by email.
- **Science:** We have been learning about the seasons and how the weather changes through the year. Start a weather diary and use www.bbc.co.uk/weather to find out the temperature every day. Can you create a picture for each season?
- **Geography:** During this half-term unit we have been looking at 'Our local area'. Can you draw the house that you live in? Do you know what road you live on? What number do you live at? Could you design a map of your local area? Are there shops, schools, churches nearby?
- Can you remember the four countries that make up the United Kingdom? As a challenge can you find the capital cities of each of those countries? What do the flags for each of them look like?

- **PE:** Getting as much fresh air as you can is important (with social distancing). You can still keep active even if you are inside. Try some simple challenges -
- Can you balance on one leg, what about the other leg? How long can you balance for before you wobble?
- Set a timer - 30 seconds or 1 minute. How many star jumps can you do? Can you sprint on the spot without stopping? Create a different move. Challenge your family - who can do the most!
- If you can with the space you have or when you have outside time, practise throwing and catching with a large or small ball.

Year 1 Online resources:

MATHS

White Rose Maths	Weekly videos and worksheets to use during school closures. No account needed
Topmarks	Fantastic website with lots of interactive games. We love 'Hit the Button' for maths number bonds, addition and subtraction
ICT games	Lots of online games
Cbeebies - numberblocks	Quite simple videos, but some focus on number bonds (access on BBC iPlayer, YouTube or Cbeebies.
Snappy Maths	Lots of free worksheets

READING

Bug Club	Use your child's login
Oxford Owl	Advice and support for parents Educational activities and games Free eBook library for 3-11 year olds
Vooks	Free 30 day trials (don't forget to cancel at the end or they may charge)
Twinkl	Free resources using code PARENTTWINKLHELPS, including E-Books
Epic Books	Free E-Books
Book Trust	Online go to 'Storybooks and games'
Oliver Jeffers	Type in Stay at home story time with Oliver Jeffers. Every weekday at 6pm
Alphablocks	Youtube links or Cbeebies
BBC bedtime stories	BBC iPlayer or Youtube

Phonics

Phonics Play	Login: march20 home
Letters and Sounds	Free games and resources
Teach your Monster to read	Website free, paid app
Phonics Bloom	Phonics games
Geraldine Giraffe	Youtube videos to teach sounds

P.E/Fitness

Joe Wicks- The Body Coach	Youtube channel
GoNoodle	Youtube channel
Cosmic Kids	Youtube channel
Zumba Kids	Youtube channel
REAL P.E	Website

Try to get some fresh air everyday if you can.
