

# GIZA TIME CLOCK OF EPOCHS

The purpose of this illustration is to make some observations particular to the phenomenon of the Giza Clock that is said to coincide with the end of 'Ages'. Although the Earth or 'World' will not end, it does seem to mark a 'changing' of a 'time'. Perhaps in reference to the coming Age or the New World Order? End of the Church Age?...The Giza Clock basically stipulates that the within the framework of the design of the Giza Pyramid complex, a mathematical code was factored that 'clocked' the Procession of the Equinoxes. The work of this discovery has been attributed to the research of Dr. Johan Oldenkamp. The Pyramids are aligned to the ancient 4 cardinal Stars. These are depicted in the Bible as 4 Living Creatures and symbols of the standards for Israel, the 4 Gospels found in the Bible and the 4 depositions of Jesus' mission on Earth, that is a Servant, Prophet, Priest and God-King. The model presented in the Sphinx's position also transposed onto the Giza Clock as a reference to the calculated start of the Age of LEO in ~10,900 BC. This is not to say that this epoch could have been before the creation of Humanity or even before the 'Earth became formless and void' per Genesis. With this in mind, the Pyramid Clock suggests that very soon, a new astrological reset is to begin. Main

## MYSTERIES OF THE PYRAMID CLOCK ANNOUNCING A NEW TIME

1008/2 = 504  
 504 + 504 = 1008  
 1008 + 504 = 1512  
 1512 + 504 = 2016  
 2016 + 504 = 2520

Could 2022-23 be the start of Daniel's 70th Week of Years or the what the Bible calls the Tribulation Period?

### PYRAMID MATHEMATICAL MYSTERIES

The Mystery of the Great Pyramid in Egypt boggles the mind. It is full of countless mathematical precise calculations. The following figures are but some examples of how certain dates and times are edged into the very granite blocks of the structure. What is recurring, according to many researchers is the number 2012 and 2016. In some way or fashion, these 2 dates are tied together. As to its association or meaning? That remains to be seen.

Some speculate that the 'Year of Light' 5776 which corresponds to the year 2016 is when something monumental occurs prophetically as a time-marker in the 'Clock' related to the coming changing of 'Ages'. The number is also further a factor of 2520, which is how long the Tribulation Period is to last - per some interpretations of Daniel's last Week of Weeks. Is the Pyramid telling us that perhaps 2016 will be the commencing of the last 7-year countdown to the Prophetic Week of a 2520 days, according to the Prophet Daniel? (2022/2023) It will remain to be seen. Following is just an example of the complexity of the mathematics that was infused into the design of the Pyramids.

### CIRCUMFERENCE

OF THE GREAT PYRAMID (KHUFU)

Height: 481.33 feet or  
 5776 inches (5776 = 2016)

Perimeter = 3024 (3√3024 = 1008)

1008 + 1008 = 2016

2016 + 1008 = 3024 (circumference)

3024 + 1008 = 4032 (4032/2 = 2016)

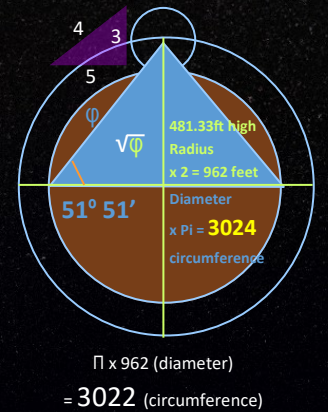

4032 + 1008 = 5040 (2520 + 2520)

\*2520 is the duration of the Prophet Daniel's Last Week of Weeks - Daniel 9:25

If one takes the same degree of angle that corresponds with the Giza Pyramids to the Orion Belt stars and one factors that angle to the edges of the Giza pyramid complex, some very peculiar mathematical result occur as shown on the table. If this notion is projected onto the Temple Mount in Jerusalem as a focal point, then the feet and inches can possibly compute to years. From the 2009 to the 2016 calculations is a 7 Year long count.
