Environmental Law Handbook, Eighteenth Edition

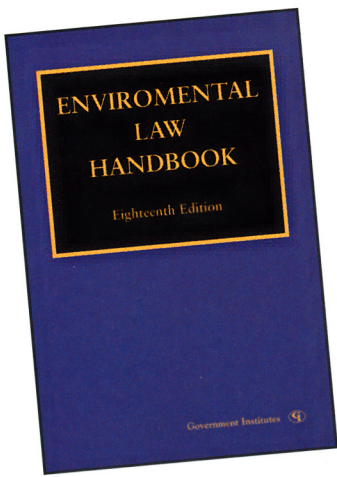

The latest, most up-to-date version of a classic reference that has been called

“An excellent resource for introducing the serious reader to major environmental, health, and safety laws.”

—CHOICE

See inside for details.

New Edition, New Rules, Same Time-Proven Approach

When Government Institutes released the first edition of the *Environmental Law Handbook*, the editors had one goal in mind: provide readers with timely and accurate information, written by top environmental law experts.

Now, 32 years later, this *Eighteenth Edition* continues that tradition by providing readers with a comprehensive, up-to-date, and easy-to-read look at the 14 major environmental, health and safety laws affecting U.S. businesses and organizations, all written by 15 of the country's leading environmental law firms.

Filled with legal expertise, sample and cited cases, and straightforward explanations, the *Environmental Law Handbook* serves as an ideal reference for anyone interested in environmental laws. Whether you're a professional in need of a reference book or a student in need of the basics, whether you own six previous editions or none, you shouldn't be without this *Eighteenth Edition*.

Throughout the handbook, the authors use clear language and a minimum of jargon to interpret all the major laws, including the Resource Conservation and Recovery Act, Clean Air Act, Toxic Substances Control Act, Pollution Prevention Act, Emergency Planning and Community Right-to-Know Act, and Occupational Safety and Health Act.

This *Eighteenth Edition* references all regulatory changes made to those Acts in the last two years and provides legal insight into understanding the requirements. You'll find a completely rewritten chapter on enforcement and liability, written by the experts at Bracewell & Patterson, LLP, and an examination of all the issues and changes that have arisen since the publication of the *Seventeenth Edition*, including

- Recent trends in enforcement and liability, including enforcement by non-environmental agencies
- New efforts to "score" the environmental performance of individual entities and record that score in publicly-available databases
- Reforms to the Clean Air Act's New Source Review program
- The American National Standards Institute's November 15, 2004, revisions to the ISO standards
- New court interpretations and definitions that impact the maritime community under the Oil Pollution Act
- EPA's Resource Conservation Challenge and its current impact on the RCRA regulatory program
- Clean Water Act regulatory amendments currently under consideration
- Key international law changes with new developments in treaties

For your convenience, special features include a 25-page Table of Contents, a 35-page index for quick, focused searching, and a section of "Research Sources" at the end of each chapter.

Hardcover, approx. 1008 pages, May 2005, ISBN: 0-86587-985-0 \$99

Chapter 1: Fundamentals of Environmental Law

by Daniel M. Steinway of Baker Botts, LLP, in Washington, DC. Steinway advises major corporate entities and trade organizations on all facets of civil and criminal environmental law.

Chapter 2: Enforcement and Liability

by Kevin Ewing of Bracewell & Patterson, LLP, in Washington, DC. Ewing is a partner with the Environment and Natural Resources section of the firm. He works with all of the major federal (and certain state) environmental statutes related to water, waste, dangerous substances, and environmental impacts.

Chapter 3: Resource Conservation and Recovery Act

by David R. Case of Environmental Technology Council in Washington, DC. Case oversees a trade association for the hazardous waste treatment, recycling, and disposal industry and represents members before EPA, Congress, and the courts.

Chapter 4: Underground Storage Tanks

by Karen J. Nardi of Bingham McCutchen, LLP, in San Francisco, CA. Nardi specializes in environmental compliance and enforcement matters, underground tank cleanups, and the redevelopment of contaminated property.

Chapter 5: Clean Air Act

by F. William Brownell of Hunton & Williams in Washington, DC. Brownell heads his firm's Energy & Environmental Team and covers proceedings before federal agencies, state and federal courts, and Congress.

Chapter 6: Clean Water Act

by Duke K. McCall, III, of Swidler Berlin Shereff Friedman, LLP, in Washington, DC. McCall specializes in environmental compliance counseling and litigation.

Chapter 7: Oil Pollution Act

by Austin P. Olney, partner in the Boston, MA, office of LaBoeuf, Lamb, Greene & MacRae, LLP. Olney represents domestic and foreign clients in corporate, environmental, marine safety, and pollution matters.

Chapter 8: Safe Drinking Water Act

by Daniel J. Kucera, who is retired from the law firm of Chapman and Cutler in Chicago, IL, is in private practice in St. Charles, IL. His practice encompasses all aspects of public utility law and regulation with a specific focus on water, wastewater, energy, gas, and electric services, as well as privatization and state/federal environmental law and regulation.

Chapter 9: Comprehensive Environmental Response, Compensation, and Liability Act

by Ronald E. Cardwell, a shareholder with McNair Law Firm, PA, in Greenville, SC. Cardwell's practice embraces environmental challenges related to solid and hazardous wastes, groundwater, and real estate transactions.

Chapter 10: National Environmental Policy Act

by James W. Spensley, Denver, CO. Spensley is one of the nation's experts on the National Environmental Policy Act (NEPA) and an adjunct professor in the Environmental Policy and Management graduate program at the University of Denver.

Chapter 11: Toxic Substances Control Act

by Stanley W. Landfair of McKenna Long and Aldridge, LLP, in Los Angeles, CA. Landfair specializes in environmental and administrative law and litigation and provides manufacturing companies with TSCA, FIFRA, and NEPA counseling.

Chapter 12: Pesticides

by Marshall Lee Miller of Baise and Miller in Washington, DC. Miller specializes in environmental law, international transactions, and occupational safety and health. He was previously special assistant to the first administrator of the EPA and chief EPA judicial officer.

Chapter 13: Pollution Prevention Act

by John M. Scagnelli of Scarinci & Hollenbeck, LLC, in Lyndhurst, NJ. For 20 years, Scagnelli has represented domestic and international clients in the public and private sectors in all aspects of environmental, corporate, and commercial law.

Chapter 14: Emergency Planning and Community Right-to-Know Act

by Rolf R. von Oppenfeld of von Oppenfeld, Hiser & Freeze, PC, in Phoenix, AZ. von Oppenfeld helps lead the Team for Environmental Science and Technology Law (TESTLaw) Practice Group with environmental law and litigation, natural resources and water law, and toxic tort litigation.

Chapter 15: Occupational Safety and Health Act

by Marshall Lee Miller of Baise and Miller in Washington, DC. Miller specializes in environmental law, international transactions, and occupational safety and health. He has served as the associate deputy attorney general in the U.S. Department of Justice and as deputy administrator and acting head of OSHA.

Chapter 16: ISO 14001 and Environmental Law

by Christopher L. Bell of Sidley Austin Brown and Wood in Washington, DC. Bell has extensive experience designing, implementing, and auditing environmental management and compliance assurance systems, including systems based on ISO 14001.

16 Chapters 15 Experts

Additional Praise for Previous Editions

"...one of the truly required references for environmental professionals."

**Jeffrey Williams,
SSA Journal**

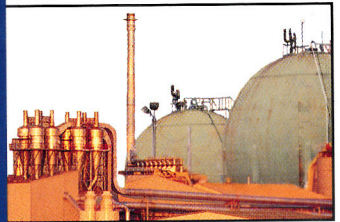

"...an asset to daily environmental decision making. Many editions fill my bookshelves, and I look forward to each additional volume that is issued."

**Robert John Klancko,
Environmental Practice**

"...topical, useful, and necessary."

**Gary Bennett,
Journal of Hazardous Materials**

"...a welcomed addition to any library for those of us whose services are needed as a result of these laws, but care not to become lawyers."

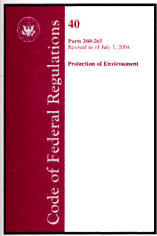

**Gerald Kirkpatrick,
The Chemist**

"This resource has withstood the test of time."

**Donna Bausch,
Legal Information Alert**
