

GOODNOW FRONTIER AND EXECUTAC SECURITY SERVICES

Lloyd Goodnow, President and CEO

Corporate Office

14350 SE 50th Street, Morriston, FL, 32668

Office: 352-528-5133 Cell: 845-518-0673

We specialize in Executive Protection Services; Threat based All Hazard Assessments; High Value Asset Protection; and High Risk Asset Movement. We provide “total package” Security with an emphasis on Executive Protection and employ Proactive Security Systems that are proven and efficient. We actively support and employ Military Veterans.

Through our Teaming Partners, we offer additional services and training. Our personnel structure includes Retired Military Army Special Forces and Retired Law Enforcement with real world international experience encompassing all operational parameters.

Goodnow Frontier Security Services is responsible for all domestic operations

Executac Security Services is responsible for all international operations as listed below:

Domestically:

Threat Based All Hazards Assessments

A rapid deployment force of two personnel for Pre-Threat Assessment Team and establish Safe House / Operations Center, and conduct route recons.

Within 24 to 48 hrs able to organize and launch an eight man security team armed or unarmed

North or South America: Within 48 to 72 hrs able to organize and launch eight man security team armed or unarmed and able to deploy a two man Pre-Threat Assessment Team capable of establishing Safe House /Operations Center / Conduct route recons

Internationally: Within 7 days notice (depending on the country) able to organize and launch a security team. Services available:

Threat Based All Hazards Risk Assessment / Plans & Procedures

High Value Asset Protection

Establish Safe House / Operations Center/ Route Recons

Counter-Insurgency (COIN) Operations / Training

Surveillance and Counter-Surveillance Detection

Force / Infrastructure Protection

Proactive Threat Analysis is taking the results from All Hazards Threat Based Assessment(s) and rendering competent and focused results for decision makers

Proactive Defense Training (includes Israeli Predictive Profiling) and reality based combat tested self defense techniques.

Israeli Predictive Profiling and Security Questioning Training

During the process of conducting the All Hazard Threat Assessments, will conduct multiple route recons so options for travel are established.

Provide Chemical Engineer with experience in petroleum and gas facilities

We are also capable of developing reliable and validated “in country” points of contact.

Respectfully,

Lloyd J Goodnow
