

With the exception of UHAS in Ghana, all Global Medical Libraries (GML) shipments require a **US Customs Declaration and Dispatch Note - PS Form 2976-R, April 2016 PSN 7530-17-000-7992**, which is available at local USPS branches.

Step-by-step instructions to complete the **US Customs Declaration and Dispatch Note- Form 2976-R, April 2016 PSN 7530-17-000-7992** are on the GML website. Simply click “*Shipping and US Customs Form Instructions.*” The donor absorbs the shipping costs. The most economical way to mail the books is via USPS Media Mail rate, which is approximately \$1/lb. Please limit boxes to 12 lbs. each and send no more than 4 boxes to one address at the same time.

All medical academic institutions need medical education resources covering all aspects of health and wellness, including mental health, nutrition, pre-hospital, physical/occupational therapy and pre-hospital. All resources should have current information. No medical publications, such as journals.

Current Recipients

Ghana

Dr. Ebenezer Afarikumah
Telehealth and Assisted Living Center, Inc (TALC)
340 Main Street, Suite 356
Worcester, MA 01608

The University of Health and Allied Sciences (UHAS), which is located in Ho, Ghana started operations in September, 2012 with 154 students. The current student enrollment is 3,752 (3,727 undergraduates and 25 postgraduates). Staff to student ratio in UHAS is 17:1, which is currently the best among all state universities in Ghana.

UHAS is the first public university to be established in the Volta Region of Ghana and is so far the only state university wholly dedicated to the training of healthcare professionals in Ghana. The University currently runs eighteen (18) undergraduate programs in six (6) schools and one (1) institute, namely; School of Allied Health Sciences, School of Basic and Biomedical Sciences, School of Medicine, School of Nursing and Midwifery, School of Public Health, School of Pharmacy and Institute of Health Research. UHAS is requesting books on medicine, nursing & midwifery, public health, medical imaging dietetics and all allied health sciences, as well as medical journals published in the last 12 months.

***Note:** TALC is accepting GML books on UHAS’s behalf and will absorb the cost of private shipping from USA to Ghana. As such, no US Customs Declaration and Dispatch Note is required. Donors should include their name and contact information in the box(es) if they want to be notified when TALC receives the books.*

Angola

Arciolanda Gravata
Office of Security Cooperation
2550 Luanda Place
Dulles, VA 20189

The Office of Security Cooperation (OSC) at the US Embassy in Angola works with the Armed Forces of Angola. The director of **Angolan Military Services** is requesting books, magazines and professional literature on medical related issues. Literature in Portuguese is preferred. However, English would be beneficial.

Tanzania

Mark Breda
Walter Reed (WRAIR)
US Department of State
2140 Dar es Salaam Place
Washington DC 20521

Note: Tanzania has 2 recipients benefitting from Global Medical Libraries. Indicate your preference on the USPS Customs Declaration and Dispatch Note, in the Shipment Information block # 2 (Detailed Description of Contents). Example: Used textbooks for (name of university). In addition, please put a note in each box with the intended recipient.

Tanzania Peoples Defense Forces (TPDF) Military College of Medical Sciences requests medical textbooks and *current peer-reviewed journals to optimize the learning environment for military medical officers. The college currently offers a curriculum that includes a Diploma in Nursing, Diploma in Clinical Medicine, Advanced Diploma in Clinical Medicine, and Junior and Senior Medical Staff Officers Courses. * “Current” means published within last 12 months.

Zawadi Memorial Health Training Institute (ZMHTI) is located in the community of Moshi of the Kilimanjaro Region in Tanzania. Due to the shortage of nurses in the region, Women Education and Economic Centre (WEECE), <http://weeceprojects.org> an NGO registered in Tanzania, built ZMHTI to provide education for future nurses and midwives. Currently, all the arrangements are in place for the institution to commence in 2019. It will admit 135 students for a three-year program taught in English. There is a dire need for nursing, mental health and pre-hospital educational resources, such as fundamental medicine or nursing references: Clinical Anatomy, Physiology, Biochemistry, Pathophysiology, Medical-Surgical Nursing, Pharmacology, Maternal and Child Health Nursing, Fundamentals of Nursing, Nursing Research, Medical/Nursing Research, Nursing Care Plans, for its library, which will be used by the faculty to teach and the students to learn.
