

A-B-C'S TO SCHOOL BASED SERVICE PROVISION:

Accountability

As with all of the services our agency offers, we believe in holding our professional staff to the highest standards of performance. We will ensure that your school receives the services you need when you need them. We evaluate each employee and offer regular feedback to them so that they can perform as efficiently and consistently, as possible. In addition, we provide Quarterly Reports for all Contract Service provision so you can see where your dollar is going!

Best Practices

Quality service provision is paramount to our agency. We ensure that all professionals are licensed and trained in cutting edge “Best Practices” in their respective fields. Continuing Education for our professionals is not only recommended, but mandated. Our Administrative Staff will ensure that Bulletin 1508 is adhered to with all School Based Service provision. We want to ensure that each child receives the best opportunity for development available to them.

Collaboration

We fundamentally believe that it truly “takes a village to raise a child..” We carry this principle into our model for School Based Services. Teachers, Parents, Family, and the Community are all integral parts of ensuring our children receive the care and service they need in order to succeed and grow. This is why we ensure that we engage every system available to access resources for the student and for the school we are walking in partnership with. The key to a child’s success is support. We believe this support should come from a team of individuals who work together for the best interest of each child and family.
