

FIRST AID KITS

This presentation and list contains my opinions and is for advice and help only. Filling and managing a first aid kit for a woodworking shop is always your own responsibility.

TCWT cannot be held responsible at any time for omissions or errors.

“Better to prevent than to cure”.

A few good tips for workshop safety you can implement in your shop are:

Tip #1: Have multiple First Aid Kits.

Tip #2: Have a mobile phone nearby.

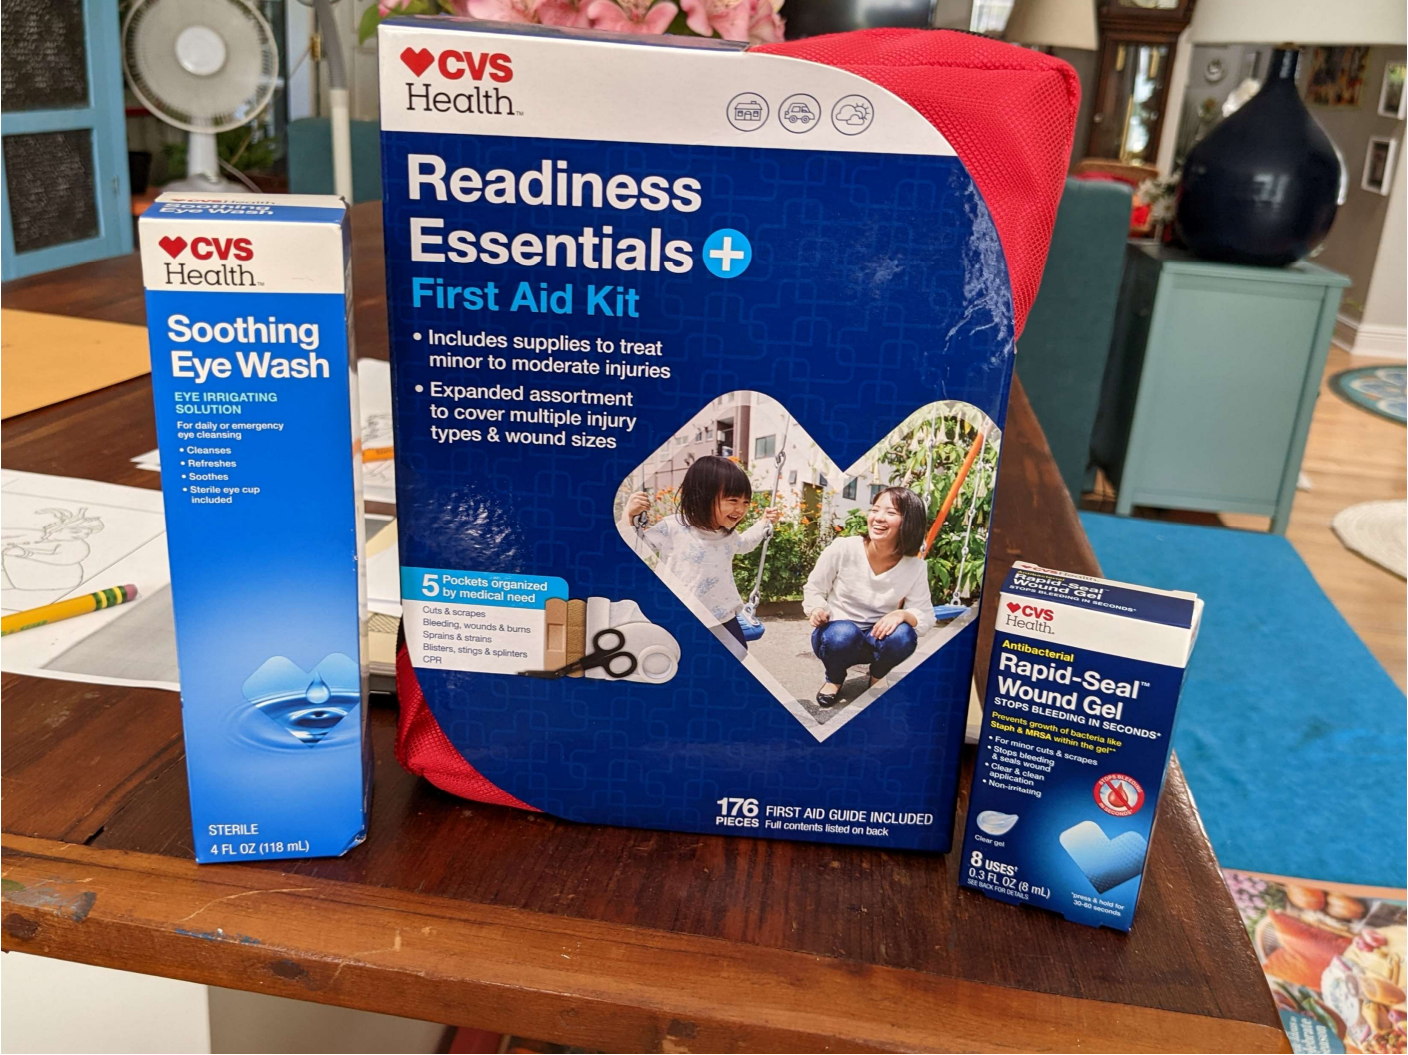

Tip #3: Put emergency numbers on your mobile phone and in your first aid kit.

Tip #4: Use PPE. Turn smart!

Tip #5: Adopt a healthy working posture and avoid distractions.

Tip #6: Try to estimate the risks. Think briefly about what could happen.

Tip #7: Keep your workshop clean

CVS Health
