**The Hutterian Brethren of Crystal Lake donates \$2,000 to The Health Foundation for the new Surgical Microscope**

**Yorkton** – “We are very happy to contribute to our local healthcare and participate in the world around us,” said George Hofer, Manager of the Hutterian Brethren Colony of Crystal Lake. “We have this philosophy that says we live in the world so we should contribute to it and try to make it a better place. We like to do our part.”

“This is a wonderful donation and it comes at a great time,” said Ross Fisher, Executive Director of The Health Foundation. “We are hoping to raise the money for this microscope by the end of this year, and we are getting closer. We need people to make a donation and help us buy this equipment. We do not want to lose the cataract surgery service from this region; it will be much harder to get it back than it is to keep it.”

“The Hutterian Brethren of Crystal Lake have made a number of donations to help our local healthcare since moving into this region. We are very grateful for the continuing support they provide our work and for their generosity,” said Ross Fisher.
