ECD

Process Level Instruments

Continuous and Point Level RF Admittance with Exclusive Cote Shield Technology, Airborne & Guided Wave Radar, Ultrasonic, Hydrostatic Pressure, Vibrating Switches, Conductivity Switches, Microwave Analyzers, Bulk Flow, Moisture & Concentration, Brix Measurement, Radiometric Nuclear Sources, Density Measurement

Level Indicators

Magnetic Gauges and Bridles, Transmitters, Float, Magnetic and Contact Switches, Gauge Glasses, Illuminators, Steam Level Indicators, Gauge Valves & Steam Valves

Particle Sizing Analyzers & Vision Systems

Vision Systems for Process Vessels, Furnaces, Boilers, & Surveillance. Particle Size and Shape Analyzers for Solids and Slurries. Turbidity, Color Analysis and Thermal Imaging

Gas Analyzers

Online Combustion, Process, CEMS & Emissions, CO & O2 Analyzers for Combustion Efficiency, Analyzers for Toxic and Combustible Gases. Hummingbird Technology and Delta F Analyzers, Moisture and O2

Combustion Analyzers

Portable Combustion/ Emission Analyzers, Data Acquisition & Analysis Software, Boiler Fuel Additive Performance Measurement, Opacity Analyzers, Dust Measurement Compliance

Gas Detection & Flame Detection

Gas Detectors and Monitoring Systems, Flame Detectors, Combustible Gas Monitors, CNG Garage Monitors, Oxygen Deficiency Monitors, Toxic Gas Monitors, Loop Powered Gas Detectors, Cat Bead, Electrochemical and Infrared Technologies

Liquid Analyzers

Liquid Analyzers featuring products for ORP, Conductivity & Resistivity, REDOX, pH, DO, Specific Ion, Turbidity Analyzers & Controllers, and Total & Free Chlorine Analyzers

BLH NOBEL
A VPG Brand

CANTY
PROCESS TECHNOLOGY

SPEEDWRAP

Pressure Measurement

Pressure Transducers for Industrial, Aerospace & Test Stand Applications. Hi-Temp, Oil Free Units, General Purpose & ATEX, CSA, FM 3A Approved Models, High Accuracy, HART Smart, Sanitary, Hydraulic, & DP.

Digital and Dial Pressure Gauges, Diaphragm Seals, Needle Valves & Accessories

Signal Conditioning & Isolation

Temperature Transmitters & Indicators, Universal Transmitters, Isolators, Displays, Trip Amplifiers, 6 mm Slimline Signal Conditioners, Complete Line of Internationally Approved Products for Hazardous Areas

Temperature Measurement

Thermowells, RTDs, Thermocouples. Full Assemblies with Internal Transmitters for Sanitary & Industrial Applications in Weatherproof and Hazardous areas. Standard Outputs of 4-20 mA, HART, Profibus & Foundation Fieldbus. Thermometers & Temperature Dial Gauges

Infrared Temperature Analyzers & Instruments

Non-Contact Infrared Temperature Measurement, Online, Fixed, & Portable Thermometers/ Pyrometers, Linescanners, Thermal Imagers & Calibration Sources. Calibration Lab Approved to ISO 17025

Process Weighing Technologies

Precision Weighing Systems with BLH KIS Beam Technology, Load Cells, Scales, Indicators, and Transmitters

Sight Glasses & Process Lighting Systems

Fiber Optic LED Lighting Systems and Fused Glass Sight Glasses for Pressure Vessels. Light/ Glass Combos, Spray Rings & Sight Flows

Oxygen & Industrial Filters

High Pressure Sintered Filters for High Pressure Oxygen Systems, High Pressure Industrial Filters for Air, Gas, Hydraulic Fluid, Engine Lubricant, Fuel & Water. Replacement Elements for Existing Installations, Valves & Strainers

Removable/ Reusable Insulation

Removable and Reusable Pipe & Tubing Insulation for Straights, Tees, Elbows, Valves, Fittings. Custom Insulation Covers
